

Burden Statement

This collection of information is approved by OMB under the Paperwork Reduction Act, 44 U.S.C. 3501 et seq. (OMB Control No. 2030-0051) Responses to this collection of information are voluntary. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The public reporting and recordkeeping burden for this collection of information is estimated to be 15 minutes per response. Send comments on the Agency's need for this information, the accuracy of the provided burden estimates and any suggested methods for minimizing respondent burden to the Regulatory Support Division Director, U.S. Environmental Protection Agency (2821T), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460. Include the OMB control number in any correspondence. Do not send the completed form to this address.

Gulf of Mexico Division Funding Opportunities

The Gulf of Mexico Division is a non-regulatory geographic program under the EPA, and our work is centered around preserving and protecting the Gulf of Mexico. The way that we do this is primarily through funding assistance agreements based on our statutory authority to conduct and promote coordination and acceleration of research, investigations, trainings, demonstrations, surveys, and studies relating to the causes, effects, extent, prevention, reduction, and elimination of water pollution as seen in Section 104 (b)(3) of the Clean Water Act.

Our mission is focused on the health, productivity and restoration of the Gulf of Mexico and the communities that rely on this national resource.

The Gulf of Mexico Division works with each of the five U.S. Gulf Coast states and other stakeholders in the Gulf of Mexico Watershed including the six Mexican Gulf Coast states on projects that support the following priority areas: Water Quality, Habitat Restoration, Environmental Education and Outreach, and Community Resilience.

Please answer the following questions to provide feedback on the most recent Request for Applications:

1. What suggestions do you have for improving this funding opportunity, or for future funding opportunities?
2. What were the strengths of this funding opportunity?
3. What were the weaknesses of this funding opportunity?
4. What was your overall opinion of this funding opportunity?
