<P>No. 307<BR>Issue Date: 8-23-2012<BR>Effective Date: 1-1-2013</P>
<P>This Directive rescinds Accounting and Reporting Directive No. 293, =
E-filing,=20
and revises and reissues the reporting guidance contained in Directive =
No.=20
293.</P>
```

Background:

On July 16, 2010, the Department of Transportation (DOT) issued a final rule revising Part 241 of its Economic Regulations.   This action required air carriers to report their economic and statistical data to the Department via a secured web portal using a comma separated value (CSV) of the already required data or a PDF file.

On June 23, 2010, the DOT Research and Innovative Technology Administration, Office of Airline Information issued Accounting and Reporting Directive No. 293 effective October 1, 2010.   The Directive provided guidance on reporting air carrier recurrent economic and statistical data via a secured web portal using a comma separated value (CSV) and provided file formats for the required data to be reported.

Changes to Directive No. 293

This Directive revises the section pertaining to the B-7 Airframe and Aircraft Engine Acquisitions and Retirements and the B-43 Inventory of Airframes and Aircraft Engines only, and affects no other part of Accounting Directive No. 293.

This Directive changes the file format or record description as defined in Directive No. 293 as follows:

For the B-7, instead of reporting the Air Carrier Name in field 2, air carriers will report their 2 or 3 letter carrier code as reported on their other recurrent economic and statistical data.   A new column/field is to be inserted after the "Number of Aircraft Engines Acquired/Retired" column/field, and before the "Type Model and Cabin Design" column/field.   The new column/field is entitled "Aircraft Type Code", is numeric and 4 digits in length.   It will correspond to the aircraft type codes as reported on Schedule P-5.1 or Schedule P-5.2 (P051 or P052) data.

For the B-43, instead of reporting the Air Carrier Name in field 2, air carriers will report their 2 or 3 letter carrier code as reported on their other recurrent economic and statistical data.   A new column/field is to be inserted after the "Manufacturer" column/field, and before the "Type Model and Cabin Design" column/field.   The new column/field is entitled "Aircraft Type Code", is numeric and 4 digits in length.   It will correspond to the aircraft type codes as reported on Schedule P-5.1 or Schedule P-5.2 (P051 or P052) data.   The "Report Date" column/field is changed to reflect "Year", is numeric and 4 digits in length.   A new column/field is to be

inserted=20
after the "Year" column/field and is entitled "Month Ended", is numeric =
and 2=20
digits in length. This provides uniformity with the B-7 "Year" and =
"Month=20
Ended" column/fields.</P>
<P>For your reference, the entire Reporting Directive is reissued below, =
with=20
the required changes, reflected on pages 33 thru 36.</P>
<P>If there are any questions on the revised reporting, please contact =

<P><B>REQUIREMENTS</B></P>

RECORD DESCRIPTION/INSTRUCTIONS: **B-12 Statement of Changes in Financial Position**

For the B-12, Cash Flow Statement, it is freeform depending on each carrier's operations and is a bridge between the B-1 Balance Sheet and the P-1.2 Statement of Operations (Income Statement).

RECORD FORMAT:

The **PART 241 –93 B-12 Statement of Changes in Financial Position** must be published as an electronic "portable document format" file format, for uploading to the eSubmit application.

The portable document format file MUST BE indicated when naming the file, by using the letters [PDF] or [pdf] following the file name, as the file name extension. You must have Adobe Reader software downloaded on your computer in order to "save as/print" your document as a 'pdf' file.

While the file name is flexible and may be determined by the individual air carrier, the portable document format (pdf) file format is required, as outlined in the rule entitled, *Submitting Airline Data via the Internet*.

Suggested file name: XX201003- F41-B-12**.pdf**

Part 241 - Form 41

B-7 Airframe and Aircraft Engine Acquisitions and Retirements

**OMB NO: 2138-0013
EXPIRATION DATE: 7/31/2015**

Paperwork Reduction Act Burden Statement

A federal agency may not conduct or sponsor, and a person is not required to respond to, nor shall a person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act unless that collection of information displays a current valid OMB Control Number. The OMB Control Number for this information collection is 2138-0013. Public reporting for Schedule B-7, Airframe and Aircraft Engine Acquisitions and Retirements, is estimated to be approximately 7 hours per response, including the time for reviewing instructions, completing and reviewing the collection of information. All responses to this collection of information are mandatory, as authorized by 14 CFR, Part 241. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: Information Collection Clearance Officer, Jeff Gorham, OAI/BTS/RITA, RTS-42, Room E34, 1200 New Jersey Avenue, SE, Washington, D.C. 20590 or e-mail –93 <A href=3D"mailto:jeff.gorham@dot.gov">jeff.gorham@dot.gov</A>.
