1. GRRP Scoping and Design Survey Consent Form

You have been selected to participate in a research study being conducted by the United States Department of Housing and Urban Development (HUD). The purpose of this study is to help HUD assess the success of the Green and Resilient Retrofit Program (GRRP) scoping and design process based on owners' perceptions of the implementation process.

If you agree to participate, here are some things you should know:

1. Your name will not be used in any reports about this interview.
2. All information collected during this study will be kept confidential, and your responses will not be identified individually in any way.

Completing this survey will help HUD answer the following research questions: What challenges do awarded property owners face in developing their scope of work, engaging with residents, and completing benchmarking and other program requirements?

You may choose to skip or not answer any questions. You may also leave the survey at any time. You will not be affected in any way if you stop the survey or decide not to answer a question.

The survey will take up to 45 minutes.
