Case

Sensitive

Sensitive

Data

Data

This case contains data that is considered sensitive and, therefore, you must treat the data as though it is production data and apply appropriate data stewardship safeguards when using the data. These include, but are not limited to, the following:

- ◆ Do not store the data to any removable media or to a laptop that is not fully encrypted.
- ◆ Do not take the data offsite, for telework or other reasons.
- ◆ Do not e-mail the data unless it is sent as an encrypted attachment
- ◆ Do ensure that the data, in electronic or hard copy format, are not viewed by anyone who does not have sworn status.

***If you do not agree to these conditions, exit the case as soon as the instrument allows it ***

Universe Description:

Question Text: ♦ [Introduce yourself and, if Personal Visit, show your identification.](#)

We are conducting the Survey of Market Absorption of New Multifamily Units for the Department of Housing and Urban Development.

1) The data are used to measure the needs of multifamily buildings in the United States.

2) By law, the Census Bureau can only use your responses to produce statistics.

3) We estimate that this and subsequent interviews will take 30 minutes on average to complete.

4) This survey is conducted under the authority of Title 13, U.S. Code Sections 8 and 9. The U.S. Census Bureau is required by law to protect your information. The Census Bureau is not permitted to publicly release your responses in a way that could identify this property.

5) Federal law protects your privacy and keeps your answers confidential (Title 13, United States Code, Section 9). Per the Federal Cybersecurity Enhancement Act of 2015, your data are protected from cybersecurity risks through screening of the systems that transmit your data. Disclosure of the information provided to us is permitted under the Privacy Act of 1974 (5 U.S.C. Â§ 552a) and may be shared with other Census Bureau staff for the work-related purposes identified in this statement. Disclosure of this information is also subject to the published routine uses as identified in the Privacy Act System of Records Notice COMMERCE/Census-3, Demographic Survey Collection (Census Bureau Sampling Frame).

6) The Office of Management and Budget has approved this survey under Project 2528-0013, which expires August 31st, 2023. The Census Bureau may

not conduct, and a person is not required to respond to, a data collection request unless it displays a currently valid OMB control number.

7) This survey is voluntary and there are no penalties for not participating.

If you have any comments about this survey, I will be happy to provide you with contact information.

• Send comments regarding this burden estimate and/or suggestions for reducing burden to:

HUD USER
SOMA Survey Comments 2528-0013

Question Text: ♦ [What is the Survey of Market Absorption \(SOMA\)?](#)

The Survey of Market Absorption (SOMA) is designed to measure the rate at which different types of newly built buildings of five or more units are absorbed (taken off the market - rented/sold), over the course of the first 12 months following completion of a building. The survey has been conducted since 1971.

Question Text: ♦ [How is the information made available?](#)

Quarterly SOMA data is released on the internet in March, June, September, and December and includes characteristics of the completed buildings and absorption data. Annual data is released in April of each year and includes the final absorption data and building characteristics from the previous year. In September 2018, we started releasing SOMA data using a user-generated format called Table Creator to replace the standard reports. Published SOMA data can be accessed through the SOMA website at: <https://www.census.gov/programs-surveys/soma.html>.
