**11. Sensitive Questions**

No questions considered sensitive are being asked in this collection.

**12. Respondent Burden and its Labor Costs**

- a. Number of Respondents is estimated at 849 per year.
- b. Frequency of Response is one time.
- c. Annual burden hours are 212 hours.
- d. The estimated completion time for this form is 15 minutes.
- e. VA cannot make further assumptions about the population of respondents because of the variability of factors such as the educational background and wage potential of respondents. Therefore, VBA used general wage data to estimate the respondents' costs associated with completing the information collection.

The Bureau of Labor Statistics (BLS) gathers information on full-time wage and salary workers. According to the latest available BLS data, the mean hourly wage is \$31.48 based on the BLS wage code – “00-0000 All Occupations.” This information was taken from the following website: [https://www.bls.gov/oes/current/oes\\_nat.htm](https://www.bls.gov/oes/current/oes_nat.htm).

Legally, respondents may not pay a person or business for assistance in completing the information collection. Therefore, there are no expected overhead costs for completing the information collection. VBA estimates the total cost to all respondents to be \$6,673.76 (212 burden hours x \$31.48 per hour).

**13. Respondent Costs Other Than Burden Hour Costs**

There are no annualized costs to respondents other than the labor burden costs addressed in Section 12 of this document to complete this collection.

**14. Costs to the Federal Government**
