**Instructions for
Application to Modify International
Section 214 Authorization**

ITC-MOD

GENERAL INSTRUCTIONS

Purpose of Form

This form is used to modify an international section 214 authorization. Reasons for modifying an authorization may include adding a new service type, for example adding facilities-based service to an authorization for resale service; adding or removing a condition on the authorization; and modifying the regulatory classification of the authorization holder (carrier) under section 63.13 of the Commission's rules. 47 CFR § 63.13.

Who Must File This Form and When

An international section 214 authorization holder must file a request to modify its authorization(s) using this form.

Description of Form

The Application will allow the Applicant to modify information previously provided for its international section 214 authorization and provide an explanation of the requested modification. This form consists of a main form and the ability to file an attachment to support the request. The Applicant is encouraged to upload a single document in machine readable format, including all required information. The Applicant must fill in all required fields, upload required documents, make all required certifications, and sign the form before submitting the application.

Information Current and Complete

Information filed in the application with the Commission must be kept current and complete under section [1.65](#) of the Commission’s rules. Under Section 63.50 of the Commission’s rules, 47 CFR § 63.50, permits the applicant or the party to the application as a matter of right to amend any application prior to the date of any final action taken by the Commission. Pursuant to section 63.50, applicant(s) must notify the Commission regarding any substantial and significant changes in the information furnished in the application while it remains pending.

To amend a submitted modification application, use a separate form, ITC-AMD [\[add link\]](#).

Applicable Rules and Regulations

Section 63.18 of the Commission’s rules set out the application requirements for international section 214 authorization, 47 CFR § 63.18. Section 63.13 sets out the procedures to modifying the regulatory classification of an authorization holder.

Any party that desires to modify its regulatory status from dominant to non-dominant for the provision of particular international communications services on a particular route should provide information in its application to demonstrate that it qualifies for non-dominant classification pursuant to § 63.10. 47 CFR § 63.13.

Applicant(s) should refer to the Debt Collection Improvement Act of 1996. The Debt Collection Act requires all federal agencies ensure that no debtors to the Federal government obtain any licenses or other benefits from the FCC. To ensure this, the Commission must collect FRN information to correlate its Applicants with any outstanding Federal debt that they might have incurred in other dealings with the Federal government. For additional information, press on the FCC’s Debt Collection webpage,
