

| Wild Pigs in Your State | |
|--|---|
| <p>According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0579-XXXX. The time required to complete this information collection is estimated to average 15 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collected.</p> | <p>OMB Approved 0579-XXXX EXP: XX/202X</p> |

You are being asked to participate in a research study titled "Understanding Knowledge and Beliefs about Translocation of Wild Pigs." The purpose of the study is to measure key factors related to the management of wild pigs to aid in the development of strategies for reducing negative effects of wild pig populations. You will be asked to take the following online survey questionnaire, which we expect will take you approximately 15 minutes. Your participation is voluntary, and you can skip any question you do not wish to answer or withdraw at any time. We are not collecting directly identifying information, and when we report and share the data with others, we will combine demographic data from everyone who takes the survey so you cannot be identified individually.

You must be 18 or older to participate. If you have any questions, please contact Dr. Keith Carlisle, the Principal Investigator for the study at USDA-APHIS, by phone at 970-266-6047 or by email at keith.m.carlisle@usda.gov.

You indicate that you voluntarily agree to participate in this research study by submitting the survey.
