- Submission Studio
 - Submission Studio
 - Working With Cells
 - Warnings and Errors
 - Action Buttons**
 - Validation Engine
 - Analysis Sheet
- Simplified Studio
- Simplified Studio
- Helpful Hints

The main content area displays the title "Action Buttons" and a section titled "For Data Entry users:".

Below the title, there are six buttons: **Analyze**, **Save**, **Edit Check**, **Submit**, **Delete**, and **Quit**.

The text describes the function of these buttons:

- Above are the buttons available for a Data Entry user.
- Control of the workflow occurs in Submission Studio through these action buttons.
 - Analyze:** Opens Analysis Sheet, which compares data between current and prior submissions.
 - Save:** Saves the current entry as a workfile.
 - Edit Check:** Runs the validation engine that checks for warnings and errors within the submission.
 - Submit:** Saves the data and enters the submission into the workflow as a Validated (V) submission.
 - Certifiers performing data entry will see a Certify button (in place of Submit), which will Certify (C) the submission.
 - Posters performing data entry will see a Post button (in place of Submit), which will Post (P) the submission.
 - Delete:** Removes the workfile and all of its data from FPRS.

The bottom of the screen shows the Windows taskbar with various application icons and the system clock indicating 7:28 PM on 9/16/2019.
