**TITLE OF INFORMATION COLLECTION: Manufacturing USA Institutes’
Interest in IMTS**

PURPOSE: NIST’s Advanced Manufacturing National Program Office (AMNPO) administers and convenes the Manufacturing USA network, which consists of 17 manufacturing innovation institutes. These institutes are public-private partnerships that each have a distinct technology focus but all have a common goal of securing the future of U.S. manufacturing through innovation, education, and collaboration. As part of the office’s mandate to convene the network, AMNPO coordinates outreach opportunities that effectively highlight the impact of the network and its institutes and connect them with relevant audiences. A major opportunity takes place every two years, the International Manufacturing Trade Show (IMTS). This form will allow us to gauge interest, capacity, and current plans to participate in the upcoming IMTS show among Manufacturing USA institutes so that we can appropriately coordinate the network’s presence and allocate resources. It will also be used to collect information about appropriate contacts. The survey link will be disseminated to the institute communications leads via email list. The survey itself will be hosted via Google Forms. While the form will be accessible through a web link, this link will not be shared beyond the Manufacturing USA network and the page will not be discoverable by the general public.

DESCRIPTION OF RESPONDENTS: Respondents are communications contacts or other staff members of the 17 Manufacturing USA institutes.
