### Consent Block

Welcome!

The goal of this survey is to explore the attitudes and plastic waste needs of the Midwest farming community. This study involves completing one (1) online survey. We will not ask for any personally identifying information (e.g. name or address). The information collected will be compiled into a report for distribution to the public and for publication in a peer-reviewed research journal. We appreciate your participation and expert contributions to understanding agriculture plastic use and disposal. In the following questions, please report your personal views and experience.

Participation in this study is completely voluntary and refusal to participate or to withdraw will result in no penalty or loss of benefits. There is no compensation for participating in this survey. In order to participate in this research please review the Consent to participate in research document and indicate whether you consent to participating.

**Further information can be found at this link:** [Midwest farming survey information sheet](#). Partial responses to the survey after initial consenting will be collected.

A Federal agency may not conduct or sponsor, and a person is not required to respond to, nor shall a person be subject to a penalty for failure to comply with an information collection subject to the requirements of the Paperwork Reduction Act of 1995 unless the information collection has a currently valid OMB Control Number. The approved OMB Control Number for this information collection is 0693-0089. Without this approval, we could not conduct this survey/information collection. Public reporting for this information collection is estimated to be **approximately 10-15 minutes per response**, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the information collection. All responses to this information collection are voluntary to obtain benefits. Send comments regarding this burden estimate or any other aspect of this information

collection, including suggestions for reducing this burden to the National Institute of Standards and Technology, Attn: Julie Rieland, NIST, 100 Bureau Drive, MS 8603, Gaithersburg, MD 20899-1710 via email to [julie.rieland@nist.gov](mailto:julie.rieland@nist.gov)
