

High School Student Dietary Behavior Validation Study

Attachment J7

Parental Permission Form Distribution Script-Validation Study

Parent Permission Form Distribution Script

Dear Teacher:

You may wish to read this as you distribute the parental permission forms to encourage student participation in the High School Student Dietary Behaviors Validation Study.

Thank you.

Our class has been selected to participate in the High School Student Dietary Behaviors Validation Study conducted by the Centers for Disease Control and Prevention. The study has two components. The first component is a classroom survey that is designed to focus on consumption of fruits, vegetables, and energy drinks. The second component involves an interview that asks about the foods you eat. Your participation in the survey and interview is very important. Each of you will receive a parental permission form to take home for a parent or guardian to review. Your parents can sign the form if they do not wish for you to participate. If your parents sign the form, please bring the form back within the next three days.
