

2025 and 2027 National Youth Risk Behavior Survey

Attachment J

IRB Approval Letters

Memorandum

Date October 16, 2023

From Felecia Peterson
IRB Administrator
Human Research Protection Office

Subject CDC IRB Approval of Continuation #25 of Protocol #1969.0, “National Youth Risk Behavior Survey” (Expedited)

To Nancy Brener, PhD
NCHHSTP/DASH

The CDC IRB has reviewed and approved the request to continue protocol #1969.0, “**National Youth Risk Behavior Survey**”, for the maximum allowable period of one year. IRB approval will expire on **11/10/2024**. The continuation action was reviewed in accordance with the expedited review process outlined in 45 CFR 46.110(b)(1), category 8c. The remaining research activities are limited to data analysis.

If other institutions involved in this protocol are being awarded CDC funds through the CDC Office of Financial Resources (OFR), you are required to send a copy of this IRB approval to the CDC OFR award specialist handling the award. You are also required to verify with the award specialist that the awardee has provided OFR with the required documentation and has approval to begin or continue research involving human subjects as described in this protocol.

As a reminder, the IRB must review and approve all human subjects research protocols at intervals appropriate to the degree of risk, but not less than once per year. There is no grace period beyond one year from the last IRB approval date. It is ultimately your responsibility to submit your research protocol for continuation review and approval by the IRB along with available IRB approvals from all collaborators. Please keep this approval in your protocol file as proof of IRB approval and as a reminder of the expiration date. **To avoid lapses in approval of your research and the possible suspension of subject enrollment and/or termination of the protocol, please submit your continuation request along with all completed supporting documentation at least six weeks before the protocol's expiration date of 11/10/2024.**

Any problems of a serious nature must be brought to the immediate attention of the CDC IRB, and any proposed changes to the protocol are required to be submitted as an amendment to the protocol for CDC IRB approval before they are implemented.

If you have any questions, please contact your National Center Human Subjects Contact or the CDC Human Research Protection Office at (404) 639-7570 or e-mail: huma@cdc.gov.

From: [IRBManager on behalf of ICF IRB Office](#)
