The "In Training Education Program" represents the complete educational experience for the trainee at your institution – i.e. the entire length of their doctoral/medical program or post doctoral experience. Please note that "Education Program" and the "Training Appointment" are not the same thing. As the PI, you use xTRAIN to create a Training Appointment to this grant, and those data are displayed here in CareerTrac in the upper right corner of the "In Training Page". Training appointments are typically shorter than educational programs because the NRSA program puts a cap on the number of years a trainee can be appointed.

Please list the degrees or training that the trainee will experience while supported by the training program. For example, if the trainee is appointed to a PREDOC position enter the Doctoral Program education information here. If the trainee is a POSTDOC enter the expected/actual information about the entire doctoral program. If the trainee is in an MD/PHD program, or will also get an MPH or similar degree, please add all degrees and timeframes.
