

## CMS Hospital-Acquired Condition (HAC) Reduction Program Validation Review for Reconsideration Request

If the Centers for Medicare & Medicaid Services (CMS) determines that a hospital **did not meet** the Hospital-Acquired Condition (HAC) Reduction Program data validation requirement due to a confidence interval validation score of less than 75 percent and the hospital would like to request a reconsideration, the hospital **must** complete and submit this form. Hospitals are **not** required to resubmit a copy of a medical record that was previously sent to the Clinical Data Abstraction Center (CDAC) Contractor. Note: CMS limits the scope of data validation reconsideration reviews to information already submitted by the hospital during the initial validation process, and we will not abstract medical records that were not submitted to the CMS contractor during the initial validation process. We will expand the scope of our review only if we find during the review that the hospital correctly and timely submitted the requested medical records.

This form and medical record(s) (if applicable) **must be received** by the Validation Support Contractor, **by the deadline** identified on the HAC Reduction Program Validation Notification Letter. Hospitals must send the form/medical record(s) to the “Validation Support Contractor” group via the CMS Managed File Transfer (MFT) application: <https://qnetmft.cms.gov/>. This form cannot be sent via regular email. Contact [validation@telligen.com](mailto:validation@telligen.com) for questions/assistance.

Following the receipt of the request form/medical records, an email acknowledgement will be sent confirming the form has been received. Once a determination has been made, CMS will provide the formal decision regarding the reconsideration request.
