Under Section 1135 or 1812(f) of the Social Security Act, CMS can issue several blanket waivers when there's a disaster or emergency. Blanket waivers prevent gaps in the access to care for beneficiaries affected by the emergency.

When a blanket waiver is issued, providers do not have to apply for an individual waiver. If there is no blanket waiver, providers can ask for an individual Section 1135 waiver.

I want to submit a waiver/flexibility request option

When there's a disaster or emergency, waivers and flexibilities help health care facilities give timely care to as many people who've been affected as possible. This means we're helping States, Federal Districts and U.S. territories to make sure people with Medicare and/or Medicaid continue to have access to care.

"Waiver" refers to a waiver or modification of a statutory requirement of the Social Security Act (Act) or its implementing regulations that may be waived or modified under the authority of §1135 of the Act or §1812(t). A "flexibility" is an agency policy or procedure that can be adjusted under current authority - and generally speaking can be adjusted without reprogramming CMS's systems. CMS will implement these waivers and flexibilities as necessary and appropriate to accommodate the needs of those impacted by an emergency or disaster.

Under Section 1135 or 1812(f) of the Social Security Act, CMS can issue several blanket waivers when there's a disaster or emergency. Blanket waivers prevent gaps in the access to care for beneficiaries affected by the emergency.

When a blanket waiver is issued, providers do not have to apply for an individual waiver. If there is no blanket waiver, providers can ask for an individual Section 1135 waiver.

Background

Under section 1135 of the Social Security Act (the Act), the Secretary has the authority to temporarily waive or modify certain Medicare, Medicaid, and CHIP requirements to ensure that sufficient health care items and services are available to meet the needs of enrollees in an area affected by a federally-declared PHE. Section 1135 authority enables providers to furnish needed items and services in good faith during times of a PHE or disaster and be reimbursed and exempted from sanctions (absent any determination of fraud or abuse).

Under Section 1135 or 1812(f) of the Social Security Act, CMS can issue several blanket waivers when there's a disaster or emergency. Blanket waivers prevent gaps in the access to care for beneficiaries affected by the emergency.

When a blanket waiver is issued, providers do not have to apply for an individual waiver. If there is no blanket waiver, providers can ask for an individual Section 1135 waiver.

Background

Under section 1135 of the Social Security Act (the Act), the Secretary has the authority to temporarily waive or modify certain Medicare, Medicaid, and CHIP requirements to ensure that sufficient health care items and services are available to meet the needs of enrollees in an area affected by a federally-declared PHE. Section 1135 authority enables providers to furnish needed items and services in good faith during times of a PHE or disaster and be reimbursed and exempted from sanctions (absent any determination of fraud or abuse).

I want to submit a waiver/flexibility request option

When there's a disaster or emergency, waivers and flexibilities help health care facilities give timely care to as many people who've been affected as possible. This means we're helping States, Federal Districts and U.S. territories to make sure people with Medicare and/or Medicaid continue to have access to care.

"Waiver" refers to a waiver or modification of a statutory requirement of the Social Security Act (Act) or its implementing regulations that may be waived or modified under the authority of §1135 of the Act or §1812(t). A "flexibility" is an agency policy or procedure that can be adjusted under current authority - and generally speaking can be adjusted without reprogramming CMS's systems. CMS will implement these waivers and flexibilities as necessary and appropriate to accommodate the needs of those impacted by an emergency or disaster.

What would you like to do?

Choose the applicable option below.

I want to submit a waiver/flexibility request option

When there's a disaster or emergency, waivers and flexibilities help health care facilities give timely care to as many people who've been affected as possible. This means we're helping States, Federal Districts and U.S. territories to make sure people with Medicare and/or Medicaid continue to have access to care.

"Waiver" refers to a waiver or modification of a statutory requirement of the Social Security Act (Act) or its implementing regulations that may be waived or modified under the authority of §1135 of the Act or §1812(t). A "flexibility" is an agency policy or procedure that can be adjusted under current authority - and generally speaking can be adjusted without reprogramming CMS's systems. CMS will implement these waivers and flexibilities as necessary and appropriate to accommodate the needs of those impacted by an emergency or disaster.
