

SUMMARY: Pursuant to the Federal Lands Recreation Enhancement Act (FLREA), the Bureau of Land Management (BLM), Owyhee Field Office will establish a fee area and intends to collect fees at the Jump Creek Recreation Site in Owyhee County, Idaho.

Comments received after the close of the comment period or delivered to an address other than the one listed in this notice may not be considered or included in the administrative record for the proposal. Starting May 7, 2024, the BLM will have the option to initiate the proposed fees, unless the BLM publishes a **Federal Register** notice to the contrary.

Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: The BLM is committed to provide and receive fair value for the use of developed recreation facilities and services in a manner that meets public use demands, provides quality experiences, and protects important resources. The BLM's policy is to collect fees at specialized recreation sites, or where the BLM provides facilities, equipment, or services, at Federal expense, in connection with outdoor use. To meet increasing demands for services and maintenance at Jump Creek Recreation Site, the BLM will establish a fee program for recreation site use. This fee site proposal addresses facility maintenance and public safety needs due to increased use and costs of

operation. The fees will also enable the BLM to improve services, add amenities desired by visitors, and help offset costs incurred by Owyhee County for increased law enforcement patrols and search and rescue efforts. The proposed fees are a \$5 per vehicle day-use fee, or a \$25 annual pass, which would begin no earlier than spring 2024.

People holding an America the Beautiful—The National Parks and Federal Recreational Lands pass are granted a 100 percent discount for standard amenity fees.

The FLREA directs the Secretary of the Interior and Secretary of Agriculture to publish an advance notice in the **Federal Register** whenever new recreation fee areas are established under their respective jurisdictions. In accordance with BLM policy, the Jump Creek Recreation Site Business Plan explains the fee collection process and how fees will be used at this site. The BLM Idaho Resource Advisory Council, functioning as a Recreation Resource Advisory Committee, reviewed the proposal to charge fees at Jump Creek Recreation Site in August 2021, following the FLREA guidelines. Fee amounts will be posted on-site and at the BLM Owyhee Field Office. Copies of the business plan will be available at the BLM Owyhee Field Office and BLM Boise District Office as listed in the **ADDRESSES** section. Any future adjustments in the fee amount will be made following the Jump Creek Recreation Site Business Plan and after consultation with the Idaho Resource Advisory Council and other public notice.

The Jump Creek Recreation Site is identified in the 1998 BLM Owyhee Resource Management Plan and was analyzed in the Environmental Impact Statement accompanying the plan (EIS ID-B030-1989-0001). Recreation use fees would be consistent with other established fee sites in the area managed by the BLM and other Federal and state land management agencies.

Abstract: This collection of information enables the BLM to process assignments of record title interest and transfers of operating rights in a lease for oil and gas or geothermal resources. Each assignment or transfer is a contract between private parties but, by law, must be approved by the Secretary. The

BLM uses information about assignments and transfers to prevent unlawful extraction of mineral resources, to ensure prompt payment of rentals and royalties for the rights obtained under a Federal lease, and to ensure that leases are not encumbered with agreements that cause the minerals to be uneconomical to produce, resulting in lost revenues to the Federal Government. The information also enables the BLM to ensure the assignee or transferee is in compliance with the bonding requirements, when necessary, before approval of the transfer or assignment. OMB control number 1004–0034 is currently scheduled to expire on September 30, 2024. The BLM plans to request that OMB renew this OMB control number for an additional three (3) years.

Description

Human remains representing, at minimum, 10 individuals were removed from Churchill County, NV. The ancestral remains were removed from two surface locations—Sites 8 and 13—in the Humboldt Sink (an intermittent dry lakebed) by L.L. Loud, who conducted research for the University of California, Berkeley between April 1 and August 1, 1912. Site 8 was located at the end of a ridge near Humboldt Lake and Site 13 was uncovered by drifting sands and/or a rise in lake water. The Nevada Historical Society (NHS) received approval to purchase part of the objects collected by Loud in 1912. The collection arrived in Reno in the summer of 1918. Institutional history and documentation indicate that one third of the collection was purchased by the Nevada Historical
