Abstract: The BIA is seeking to revise the information collection conducted under 25 CFR 23, related to the Indian Child Welfare Act (ICWA). The BIA uses the information to determine the extent of service needs in local Indian communities, assess ICWA program effectiveness, and provide data for the annual program budget justification. The aggregated report is not considered confidential. The form must be completed by Federally recognized Tribes that operate child protection programs. Submission of this information by Federally recognized Tribes allows the BIA to consolidate and review selected data on Indian child welfare cases. The data is useful on a local level, to the Tribes and Tribal entities that collect it, for case management purposes. The data are useful on a nationwide basis for planning and budget purposes. We are proposing to revise the consolidated caseload form into two forms respectfully—Part A form, and Part B form—to facilitate the appropriate Tribal officials filling out each. In addition, we have attempted to make the forms more user-friendly by making the following changes:

- Improving the form language and instructions.
- Utilizing Plain English standards and limiting the use of technical terms and/or jargon.

- Provide annual narrative guidance by adding 10 questions to the form.

- Clearly label State and Tribal data in the instructions and titles.

- Clearly define the difference between ICWA cases and Child Protection.

- Clearly define form submission dates, signatures, and certification roles of preparer and BIA Regional Social Worker.

Title of Collection: Indian Child Welfare Quarterly and Annual Report.

OMB Control Number: 1076–0131.

Form Number: Part A, Part B.

Type of Review: Revision of a currently approved collection.

Respondents/Affected Public: Federally recognized Tribes or Tribal entities that are operating programs for Tribes.

Total Estimated Number of Annual Respondents: 565 per year, on average.

Total Estimated Number of Annual Responses: 2,260 per year, on average.

Estimated Completion Time per Response: Approximately 30 minutes for Part A—ICWA Data; approximately 30 minutes for Part B—Tribal Child Abuse and Neglect Data.

Total Estimated Number of Annual Burden Hours: 1,130 per year on average.

Respondent's Obligation: A response is required to obtain a benefit.

Frequency of Collection: Four times per year for the Part A—ICWA Data; if applicable, four times per year for Part B—Tribal Child Abuse Neglect Data.

Total Estimated Annual Nonhour Burden Cost: \$0.
