

would require Oncor to seek authorization on a project-by-project basis to address incidental take resulting from their actions, as needed, through section 7 of the Act or under section 10(a)(1)(B).

2. Preferred Alternative—Proposed Alternative with 30-year Duration— Issuance of an ITP by the Service for covered activities in the 100-county permit area, pursuant to section 10(a)(1)(B) of the Act. This is the Applicant's preferred alternative. The activities that would be covered by the ITP are general activities associated with new construction, maintenance, and emergency response and restoration, including stormwater discharges from construction sites, equipment access, and surveying. Construction activities covered for new facilities include new overhead transmission and distribution lines, new support facilities such as substations and switching stations, underground electric installation, and second-circuit addition on existing structures. Maintenance activities would include vegetation management within rights of way, expansion of existing support facilities, line upgrades, insulator replacement, and maintenance of underground electric facilities. The requested ITP will cover the 100-county permit area. The requested term of the permit is 30 years.

To meet the requirements of a section 10(a)(1)(B) ITP, the Applicant has developed and will implement the draft HCP, which describes the conservation measures the Applicant has agreed to undertake to minimize and mitigate for incidental take of the covered species to the maximum extent practicable. As described in the draft HCP, the Applicant anticipates that incidental take would not appreciably reduce the likelihood of the survival and recovery of these species in the wild.

3. Proposed Alternative with 50-year Duration— Issuance of an ITP by the Service for covered activities in the 100-county permit area, pursuant to section 10(a)(1)(B) of the Act. This alternative would cover the same activities as the preferred alternative, but for a longer period of time. The requested term of the permit is 50 years.

SUPPLEMENTARY INFORMATION:

I. Background

The BIA maintains the "Tribal Rolls—Interior, BIA-7" system of records, which it is renaming the "Tribal

Enrollment Reporting and Payment System, Interior/BIA-7." The BIA Tribal Enrollment Reporting and Payment System functions as a central database for Tribal enrollment records. The purpose of this system is to assist BIA to determine an individual's eligibility to share in judgment fund distributions authorized by plans prepared pursuant to 25 U.S.C. Section 1401, Funds appropriated in satisfaction of judgments of Indian Claims Commission or United States Court of Federal Claims. It also assists BIA in calling and conducting Secretarial elections under 25 CFR Part 81, Tribal Reorganization under a Federal Statute. The amendments to the system will include revising the system name and adding a routine use to comply with 5 U.S.C. 552a(b)(3) of the Privacy Act specifically applying to the disclosure of information in connection with response and remedial efforts in the event of a data breach. Other amendments will include updating data in the following fields: System location, categories of individuals and records in the system, authorities, routine uses, storage, retrievability, safeguards, retention and disposal, system manager and address, notification procedures, records access procedures, contesting records procedures and record source categories. This system notice was last published on August 21, 1990 (55 FR 34085).

The amendments to the system will be effective as proposed at the end of the comment period (the comment period will end 40 days after the publication of this notice in the **Federal Register**), unless comments are received which would require a contrary determination. DOI will publish a revised notice if changes are made based upon a review of the comments received.

II. Privacy Act

The Privacy Act of 1974, as amended (5 U.S.C. 552a), embodies fair information principles in a statutory framework governing the means by which Federal Agencies collect, maintain, use, and disseminate individuals' personal information. The Privacy Act applies to information that is maintained in a "system of records." A "system of records" is a group of any records under the control of an agency for which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to the individual. In the Privacy Act, an individual is defined to encompass U.S. citizens or lawful permanent residents. As a matter of policy, DOI extends

administrative Privacy Act protections to all individuals. Individuals may request access to their own records that are maintained in a system of records in the possession or under the control of DOI by complying with DOI Privacy Act regulations, 43 CFR part 2.

The Privacy Act requires each agency to publish in the **Federal Register** a description denoting the type and character of each system of records that the agency maintains, the routine uses that are contained in each system in order to make agency record keeping practices transparent, to notify individuals regarding the uses of their records, and to assist individuals to more easily find such records within the agency. Below is the description of the Bureau of Indian Affairs, Tribal Enrollment Reporting and Payment System, Interior/BIA-7 system of records.

In accordance with 5 U.S.C. 552a(r), DOI has provided a report of this system of records to the Office of Management and Budget and to Congress.

III. Public Disclosure

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment including your personal identifying information may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained in paper form in file folders, locked file cabinets, and electronic media such as personal computers, magnetic disk, diskette, and computer tapes. The electronic records are contained in removable drives, computers, e-mail and electronic databases.

RETRIEVABILITY:

Records in the system can be retrieved by name, maiden name, alias, enrollment/BIA number, social security

number, date of birth, and enrollment status.

SAFEGUARDS:

Records are maintained in accordance with 43 CFR 2.51, Privacy Act Safeguards for records. Access is provided on a need-to-know basis. During working hours, paper records are maintained in locked file cabinets under the control of authorized personnel.

Electronic records are safeguarded by permissions set to "Authenticated Users" which requires password login. The computer servers in which records are stored are located in Department of the Interior facilities that are secured by alarm systems and off-master key access. Access granted to individuals is password protected. The Department's Privacy Act Warning Notice appears on the monitor screens when users access the system. Backup tapes are stored in a locked and controlled room, in a secure off-site location. The tapes are kept on the Data Center Floor for several weeks and then shipped to Iron Mountain, a secure off site location. Access to the Data Center is controlled by key card and only a select number of people have access. The Security Plan addresses the Department's Privacy Act minimum safeguard requirements for Privacy Act systems at 43 CFR 2.51. Personnel authorized to access the system must complete all Security, Privacy, and Records management training and sign the Rules of Behavior.

RETENTION AND DISPOSAL:

Paper records are covered by Indian Affairs Records Schedule (IARS) records series 3700, and have been scheduled as permanent records under NARA Job No. N1-075-05-1 approved on March 31, 2005. Records are maintained in the office of records for a maximum of 5 years after the end of the calendar year in which tribal membership rolls are completed, when enrollments are updated, when enrollment periods are completed, when memberships are closed, and when per capita payments are disbursed to tribal members. The records are then retired to the American Indian Records Repository which is a Federal Records Center. In accordance with the Indian Affairs Records Schedule, the subsequent legal transfer of records to the National Archives of the United States will be as jointly agreed to between the United States Department of the Interior and the

National Archives and Records Administration (NARA).

A records retention schedule for the electronic records in this system is being developed and will be submitted to NARA for scheduling and approval.
