Indian Highway Grant Application Instructions

The Highway Safety Act of 1966, U.S.C. Title 23, Section 402, provides U.S. Department of Transportation funding to assist Indian tribes in implementing traffic safety projects. These projects are designed to reduce the high number of traffic crashes and their resulting fatalities, injuries, and property damage within Indian Country.

Tribes can use this application to apply for the Bureau of Indian Affairs (BIA), Office of Justice Services (OJS), Indian Highway Safety Program (IHSP) Grant Writing Training, Lifesavers Conference attendance, or other traffic conferences. This grant application will cover registration fees and travel expenses for tribal employees who work for federally recognized tribes in the realm of traffic enforcement/safety. Complete the application in its entirety; do not leave any blank spaces/fields.

The BIA IHSP offers data driven performance-based grant opportunities. A traffic safety problem **must be** identified; and be justified by data. These 402 funds are intended to supplement an existing traffic safety program on the reservation.

IHSP grants are funded in the form of reimbursements. Tribes must first expend their funds and submit documentation for reimbursement and consideration each month. Trip Report and other financial reports (requests for reimbursement) are required. A Tribal Resolution and the Tribe's most current approved Indirect Cost Rate Agreement letter must be submitted with the application. Please contact the IHSP at (505)563-3139 to inquire about BIA IHSP Grant Writing Training.

Lifesavers Conference grant application is due on March 1 of the current year. BIA IHSP Grant Writing and other traffic conference grant application deadline dates will be announced by the IHSP on a training announcement provided to all federally recognized tribes.
