Instructions for using this ICR Submission Workbook

This Excel workbook is intended to replace many of the functionalities of the previous system (ICRAS) used to send Information Collection Requests (ICRs) to reviewers in the Office of Environmental Information, and mimics the online forms that must accompany ICR submissions to OMB.

Please fill out the workbook using information from your completed ICR Supporting Statement.

Step-by-Step Instructions:

If you are renewing or revising an existing approved ICR, go use the search function at the RegInfo.gov Internet suite to find the record of your previous ICR submission. Sort results by "Current Expiration Date" to ensure that you pull up the most recent version of your ICR.

http://www.reginfo.gov/public/do/PRASearch

²Complete Part 1. This form gathers basic information about your ICR.

Only fill out WHITE cells. Instructions will pop up when cell is selected.

Complete Part 2. This form requests specific details about the scope and burden of the information that you will be collecting. Be aware that your ICR may be made up of several separate Information Collections (ICs). At minimum, the burden on different categories of respondents (i.e. Private sector, Individuals, State/Local/Tribal governments) should be treated as individual ICs. If you need to record multiple ICs, create a new Part 2 tab for each one. This can be done by right clicking the Part 2 tab and selecting "Move or Copy" and then selecting the "Copy" checkbox near the bottom of the window before hitting "Okay."

Consult RegInfo.gov to see how many ICs were used previously (if renewing or revising an ICR). Create as many copies of the blank Part 2 worksheet as needed before starting. (To do this, right-click on the "Part 2" tab, select "Move or Copy", then check the "Create a copy" box before hitting "OK".)

Fill out the Part 2 IC form with information from your Supporting Statement. You may also reference RegInfo.gov to copy over information that will not be changing from your previous approved ICR.

If renewing or revising an existing ICR, enter the currently approved total number of responses, burden and nonlabor cost from RegInfo.gov into cells G78-G80. The rest of the "Burden Worksheet" section should be taken from your new supporting statement.

Use the "Notes" tab to capture any relevant information that could not be included on the Part 1 & 2 forms, or which would be useful to the OEI Desk Officers reviewing your package.

Save this workbook with a new filename reflecting the following format: "2060.07 Forms.xlsx" (e.g. for ICR #2060.07)

Email this completed workbook to your OEI Desk Officer along with all other supporting documents CLEARLY LABELED, such as:

Supporting Statement A (and B, if required)

Draft (unsigned) 2nd Federal Register Notice

All reporting forms & instruments that you listed in Part 2

An Action Information Sheet

Any Miscellaneous Supporting Documents (such as separate appendices)

A copy of the Final Rule document (only for Final Rule ICRs being submitted to OMB in advance of rule publication)
