Aircraft Characteristics:

2022 General Aviation and Part 135 Activity Survey

Instructions:

(As of December 31, 2022)

- Please answer questions for the aircraft shown to the right.
- If this is not your aircraft, please check this box and return the survey in the enclosed postage-paid envelope.
 When entering numbers, use numbers that look like this:
- Round all numbers to the nearest WHOLE number.
 1
 2
 3
 4
 5
 6
 7
 8
 9
 0

Submission of this form is voluntary. The information obtained in the survey will only be used for statistical purposes, and will be kept private to the extent permitted by law. FAA will not publish any reports or tables that would reveal specific information reported by an individually identifiable respondent.

When reporting aircraft activity, please report for <u>all users of this aircraft</u>. If you do not know the exact information for a particular question, please provide your best estimate.

Q1 Was this aircraft flown in 2022? (Check "No" only if the aircraft was flown zero hours)

🗌 Yes	Continue to Q2	
🗌 No	Why was this aircraft i	nactive? (Check one)
	Sold – Year	Under construction
	Destroyed – Year	Under maintenance or repair
	Museum piece	Parted out/Salvaged
	In storage	Other (Specify)
	The survey is complete. Plea	ase return the survey in the enclosed postage-paid envelope.

- Q2 In 2022, was this aircraft leased to or operated primarily by a FAR Part 121 or 129 air carrier? (*Check one*)
 - 🗌 Yes
 - 🗌 No
- Q3 How many total hours did this aircraft fly in 2022? (Include estimated rental and leased hours; if you purchased this aircraft in 2022, please include hours flown for the entire year. NOTE: the total number of hours in a year is 8,760.)
 - Hours flown

Hours flown in 2022 (rounded to the nearest WHOLE number - no decimals please)

Q4 In what U.S. state or territory was this aircraft primarily flown in 2022?

- 1	
I	
- 1	

(Please use 2-character state/territory abbreviation)

Q5 <u>FLIGHT IN ALASKA:</u> For what percent of the total hours flown in 2022 was the aircraft flown in Alaska? (If no hours were flown in Alaska in 2022, please enter 0 below.)

Q6 What percent of the total hours flown by this aircraft in 2022 were flown in each of the following categories? (Estimate the percent of total hours flown in 2022 in each of the following categories so that the total equals 100%.)

Cat	egory		f Hrs wn
	Personal/Recreation – Flying for personal reasons (excludes business transportation)		%
	Instructional – Flying under the supervision of a flight instructor, including student pilot solo (excludes positioning flights, proficiency flights, training, ferrying, sales demos)		%
	Business Transportation – (<i>without</i> a paid flight crew) – Individual or group use for, or in the furtherance of, a business		%
	Business Transportation – (<i>with</i> a paid flight crew) – Individual or group business transportation (includes fractional ownership)		%
e	Air Medical Services – Air ambulance services, rescue, human organ transportation, emergency medical services (excludes AMS conducted under FAR Part 135)		%
General Use	Sight-seeing – Commercial sight-seeing conducted under FAR Part 91		%
Gene	Aerial Observation – Aerial mapping/photography, patrol, search and rescue, hunting, traffic advisory, ranching, surveillance, oil and mineral exploration, etc.		
	Aerial Application in Agriculture and Forestry – Crop and timber production, including fertilizer and pesticide application		%
	Other Aerial Application – Public health sprayings, cloud seeding, fire fighting including forest fires, etc.		%
	External Load – Operation under FAR Part 133, rotorcraft external load operations, examples include: helicopter hoist, hauling logs, etc.		%
	Other Work Use – Construction work (excluding FAR Part 135 operation), parachuting, aerial advertising, towing gliders, etc.		%
	Other – Positioning flights, proficiency flights, training, ferrying, sales demos, etc.		%
	Air Taxi – FAR Part 135 <u>on-demand</u> passenger and all cargo operations (excluding air tours, air medical services, or scheduled passenger service)		%
t 135	Air Tours – Commercial sight-seeing conducted under FAR Part 135		%
R Part	Air Medical Services – Air ambulance services, rescue, human organ transportation, emergency medical services conducted under FAR Part 135		%
FAR	Commuter – FAR Part 135 <u>scheduled</u> passenger service only		%
то	TAL OF <u>ALL</u> USES	10	0%

Q7 For what percent of the total hours flown in 2022 was the aircraft rented or leased to others? (Include all hours where someone other than an owner paid to operate the aircraft, including instructional flights. Enter 0 if the aircraft was not rented or leased to others.)

Q8 For what percent of the total hours flown in 2022 was the aircraft owned or hired by the federal, state, or local government for the purpose of fulfilling a governmental function? (Enter 0 if the aircraft was not used for the purpose of fulfilling a governmental function.)

- Q9 In 2022 was this aircraft certified and maintained to operate under instrument flight rules (IFR)? (Check one)
 - Yes
 - No
- What percent of the total hours flown by this aircraft in 2022 were FILED under...? (Estimate Q10 the percent of total hours flown in 2022 in each of the following categories so that the total equals 100%.)

FILED Flight Plans	Percent of Hours Flown			
VFR Flight Plans				%
IFR Flight Plans				%
No Flight Plans				%
Total of <u>ALL</u> Hours Flown 100%)%		

Q11 How many landings did this aircraft perform in 2022? (Include water & touch-and-go landings.)

Number of 2022 landings

Q12 What type of landing gear system did this aircraft primarily use in 2022? (Check one)

Fixed wheels	Straight floats	🔲 Other (e.g., skis)
Retractable wheels	Amphibious floats	☐ None (e.g., hot air balloon)
13 What kind/grade of fuel wa	· · ·	_ ``
Jet Fuel		Propane/LP Gas

Automotive Gasoline	Other (Specify)
Aviation Fuel: 100-Low Lead	

Aviation Fuel: Low Octane Unleaded (UL91, UL94)

Q14 What was the average fuel burn rate (in gallons per hour) for this aircraft in 2022?

Gallons per hour	(raunalad ta tha		mumahar ma	de airea al a ra	
Gallons per nour	ασμήσεα το τηε	e nearest vvou d	number - no	oecimais c	neaser
Ganorio por rioar				aconnaio p	10000

Q15 What were the total lifetime airframe hours as of December 31, 2022?

Lifetime airframe hours (rounded to the nearest
WHOLE number - no decimals please)

lease)

Q16 Was the aircraft equipped with ice protection on any of the following in 2022?

(Check all that apply)

Wing

Propeller

Windshield

Vertical tail

- Engine (Nacelle lip or inertial separator)

Stall warning sensor

Pitot system

None

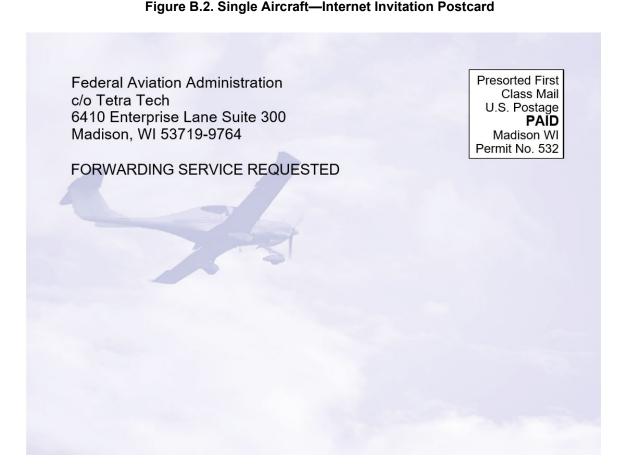

Horizontal tail

Q17 Installed Avionics Equipment: Check all boxes below that reflect this aircraft's installed avionics equipment as of December 31, 2022. (Check the box if the aircraft has the equipment listed.)

Installed General Equipment	Installed Recording Equipment
Electrical System	🔲 Flight Data Recorder
Electronic Primary Flight Display (PFD)	Cockpit Voice Recorder
Multi-Function Display (MFD)	Quick Access Recorder
Electronic Flight Bag (EFB) – Installed	Cockpit Image Recorder
Electronic Engine Monitor	Recording Capability in PFD/MFD (SD card)
Terrain Awareness Warning System (TAWS)	
Collision Avoidance (TCAS, TCAD, TIS)	Installed Navigation Equipment
Emergency Locator Transmitter: 121.5 MHz	Global Position System Operational Capability
Emergency Locator Transmitter: 406 MHz	□ Not IFR approved
Air Bag	☐ IFR-approved for enroute operation only
Ballistic Parachute	☐ IFR-approved for enroute & terminal
Angle of Attack Display	operation
Envelope Protection	IFR-approved for LNAV or LNAV/VNAV approach operation
Installed Transponder/Surveillance Equipment	IFR-approved for LPV approach
☐ Mode 3/A/C	Baro-VNAV for Approach Vertical Guidance
─ Mode S	Moving map capability
☐ ADS-B Out (UAT and/or 1090ES)	Inertial Reference / Navigation System
ADS-B In/Receive	VOR/DME-based Area Navigation (RNAV)
UAT only; or,	DME/DME-based Area Navigation (RNAV)
☐ 1090ES only; or,	
UAT and 1090ES Dual-Band	
	☐ 100 channel VOR receiver
Installed Communications Equipment	200 channel VOR receiver
50 kHz radio (360 channel)	
25 kHz radio (720 channel)	Installed Guidance and Control Equipment
8.33 kHz radio (2280 channel)	Flight Management System
HF Radio	Flight Director
 Datalink	Autopilot-Axis Control
SATCOM (Comsat, Inmarsat)	Lateral Guidance
ACARS (AFIS)	Approach Mode (vertical guidance)
\square FANS (1/A)	Horizontal Situation Indicator (HSI)
	🔲 Heads Up Display
Installed Weather Equipment:	Enhanced Vision System (EVS)
Airborne Weather Radar	Enhanced Flight Vision System (EFVS)
Data Link Flight Information (UAT, XM, WSI)	Synthetic Vision System (SVS)
Lightning Detection Equipment	Combined Vision System (CVS)

- Agency Display of Estimated Burden of the General Aviation and Part 135 Activity Survey –
The public reporting burden for this collection of information is estimated to average 20 minutes per response, including the time for reviewing instructions, searching existing data
sources, gathering and maintaining the data needed, completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of
this collection of information for collection of learance Officer
Information Collection Clearance Officer
Federal Aviation Administration

Washington, DC 20503

Dear Aircraft Owner or Operator,

Each year, the Federal Aviation Administration conducts a survey to calculate fleet size and the hours flown by the general aviation community. Please log on to <u>www.aviationsurvey.org</u> to complete a survey for the aircraft listed below. Use the aircraft N-number as your password. If you cannot complete the survey on the Internet, you will be sent a paper survey in the mail. It may be helpful to have your flight log book handy to answer the questions.

N-NUMBER: SAMPLE MANUFACTURER: SAMPLE MODEL: SAMPLE SERIAL: SAMPLE

This survey for the FAA is conducted by Tetra Tech, an independent research firm, and your answers will remain completely private. If you have questions about the survey, please call Tetra Tech at 1-800-826-1797. Thank you for your help with this important study.

2022 General Aviation

and Part 135 Activity Survey

OMB (2120-0060) Expiration 11/30/2024

Dear Aircraft Owner or Operator,

Each year, the Federal Aviation Administration conducts a survey to calculate fleet size, the hours flown by the general aviation community, and the reasons people use general aviation aircraft. A few weeks ago, we sent a postcard invitation to complete this survey on the Internet, followed by a paper version of the survey.

If you have already completed the survey online or returned the paper version, *thank you.* If you have not yet done so, please log on to <u>www.aviationsurvey.org</u> to complete the survey online for the aircraft listed below (use the aircraft N-number as your password). Or you may fill out and mail back the paper version—another survey form with a postage-paid envelope will be arriving in a few days.

N-NUMBER: SAMPLE MANUFACTURER: SAMPLE MODEL: SAMPLE SERIAL: SAMPLE

If you have questions or cannot complete the survey on the Internet, please contact Tetra Tech at 1-800-826-1797 or email infoaviationsurvey@tetratech.com. Thank you for your help with this important study.

and Part 135 Activity Survey

FORWARDING SERVICE REQUESTED

Figure B.4. Single Aircraft—Mail 1 Survey Insert for Partial Web Completes

Our records indicate you were unable to complete the 2022 General Aviation and Part 135 Activity Survey on the Internet. We apologize if this was caused by slow server response time or other technical difficulties. It's very important that we include everyone's response in order to represent the general aviation community accurately. We would appreciate it if you would complete the enclosed paper version of the 2022 General Aviation and Part 135 Activity Survey.

Thank you for your help with this important study. If you have any questions, please call Tetra Tech at 1-800-826-1797.

Figure B.5. Insert for All Mail Surveys with Alaska Addresses (Single Aircraft and Large Fleet)

Dear Alaskan aircraft owner or operator:

The enclosed survey is an important tool in collecting accurate information on Alaskan aviation. The **Alaska Airmen Association** and **Alaska Air Carriers Association** strongly support this survey and encourage your participation. The survey is conducted by Tetra Tech, an independent research firm, and your answers will remain completely private.

If we are to set the best course for aviation in Alaska, we need the best data. Please take a few minutes to complete the enclosed survey—it will be time well spent!

Thank you,

Abby Austin Executive Director Alaska Airmen Association

Will Day Executive Director Alaska Air Carriers Association

Alaska Air Carriers Association

If you have questions, please contact Tetra Tech at 1-800-826-1797 or infoaviationsurvey@tetratech.com.

Office of the Administrator

800 Independence Ave., SW Washington, D.C. 20591

of Transportation Federal Aviation Administration

March 24, 2023

Dear Aircraft Owner or Operator:

The Federal Aviation Administration is conducting the 45th annual General Aviation (GA) and Part 135 Activity Survey for calendar year 2022. We need to hear from you – *even if you did not fly in 2022 or filled out a similar survey last year*.

Please respond today at www.aviationsurvey.org Use your aircraft N-number as the login password ABOUT THE SURVEY The GA Survey is the only source of information on the size, activity, and characteristics of the GA fleet. Information is used to

- Compute safety metrics, such as fatal accident rates.
- Understand the impact of the GA industry on jobs, economic output, and investments in aviation infrastructure.
- Track the success of safety initiatives, including avionics recommendations.

WHY SHOULD I RESPOND? The FAA and industry need accurate data on a broad range of aircraft. Your participation is voluntary, but we need your help to measure the GA fleet accurately.

QUESTIONS? Answers to frequently asked questions are on the reverse of this letter. For further assistance, please call 1-800-826-1797 or email infoaviationsurvey@tetratech.com. You can send questions to the FAA at GASurvey@faa.gov.

Thank you for your help with this important study!

Sincerely,

Billy Nolen Acting Administrator

What does the FAA do with this detailed information?

The information collected in this survey helps the FAA to understand more about general aviation activities, assess the impact of general aviation activities on the National Airspace System, and determine the need for increased traffic facilities and services. Federal, state, and local governments; general aviation associations; and private industry and individuals use the summary data for safety analyses, planning, forecasting, and research and development.

Will my name be associated with my survey responses?

ABSOLUTELY NOT! The information obtained in the survey will only be used for statistical purposes and will be kept private to the extent permitted by law. FAA will not publish any reports or tables that would reveal specific information reported by an individually identifiable respondent. Names of individuals are never associated with responses. There is an identification number on your survey only so Tetra Tech, a professional research firm conducting the study for us, knows who should receive the survey.

Why was I selected for this survey?

Your aircraft was selected from the Civil Aviation Registry. The Registry shows you as a registrant of this aircraft as of December 31, 2022.

Many aircraft were randomly sampled from the Civil Aviation Registry, but several groups were sampled at 100 percent to understand the activity of high-use groups better. These groups include FAR Part 135 aircraft, rotorcraft, turbine aircraft, aircraft five years old or newer, and Alaska-based aircraft.

What if I completed a survey last year?

Even if you were sampled last year, it is very important that you respond to the survey this year.

You might have been selected again because several groups of aircraft are sampled at 100 percent to understand the activity of high-use groups better (FAR Part 135 aircraft, rotorcraft, turbine aircraft, aircraft five years old or newer, and Alaska-based aircraft). If you were randomly sampled to complete a survey last year, it might be because there are relatively few aircraft like yours, so you might be selected more often.

What should I do if I have a question about how to fill out the survey or have a question we haven't answered?

Please call the GA Survey helpline at 1-800-826-1797 or email infoaviationsurvey@tetratech.com.

Has this survey been cleared by the Office of Management and Budget Paperwork Reduction Project?

Federal Aviation Administration

April 28, 2023

Dear Aircraft Owner or Operator:

Please participate in the 2022 General Aviation (GA) and Part 135 Activity Survey. This survey allows the FAA to track the success of our safety initiatives, identify areas for improvement, focus our resources, and better serve the GA community. *To provide accurate information on the general aviation fleet, we need to know about ALL aircraft in our sample—even if you did not fly in 2022.*

ABOUT THE SURVEY

Information from the GA Survey is used to

- Measure aviation activity across the US to support airport master planning.
- Assess the effects of energy conservation programs by collecting data on fuel type and fuel consumption.
- Support studies of aircraft fatigue and set maintenance cycles.

WHY SHOULD I RESPOND? Higher response rates produce more accurate data! Data are needed to calculate accident rates, estimate economic impacts, and assess safety initiatives–all things that affect aircraft owners like you.

QUESTIONS?

Answers to frequently asked questions and contact information for assistance are on the reverse of this letter.

Thank you for your help with this important study!

Sincerely,

Billy Nolen Acting Administrator

800 Independence Ave., SW Washington, D.C. 20591

What does the FAA do with this detailed information?

The information collected in this survey helps the FAA to understand more about general aviation activities, assess the impact of general aviation activities on the National Airspace System, and determine the need for increased traffic facilities and services. Federal, state, and local governments; general aviation associations; and private industry and individuals use the summary data for safety analyses, planning, forecasting, and research and development.

Will my name be associated with my survey responses?

ABSOLUTELY NOT! The information obtained in the survey will only be used for statistical purposes and will be kept private to the extent permitted by law. FAA will not publish any reports or tables that would reveal specific information reported by an individually identifiable respondent. Names of individuals are never associated with responses. There is an identification number on your survey only so Tetra Tech, a professional research firm conducting the study for us, knows who should receive the survey.

800 Independence Ave., SW Washington, D.C. 20591

June 16, 2023

Dear Aircraft Owner or Operator:

Do you have 15 minutes to spare? Thanks to the support and participation of the General Aviation (GA) community, the 2021 survey was a tremendous success. You can help us sustain that success!

ABOUT THE SURVEY	The GA Survey is the <i>only source of information on the size, activity, and characteristics of the GA fleet</i> . The data are used to
	 Compute fatal accident rates and other safety metrics. Understand how aviation impacts local economic growth, including jobs and household income. Determine funding for aviation infrastructure.
WHY SHOULD I RESPOND?	 The FAA and industry rely on these data for a broad range of aircraft. Your response is confidential and critical, <i>even if you did not fly in 2022.</i> All aircraft are important! Your aircraft represents many others like it across the National Airspace System.
QUESTIONS?	For further assistance, please call 1-800-826-1797 or email infoaviationsurvey@tetratech.com. You can send questions to the FAA at GASurvey@faa.gov.

Thank you for your help with this important study!

Sincerely,

Billy Nolen Acting Administrator

Has this survey been cleared by the Office of Management and Budget Paperwork Reduction Project?

Dear Aircraft Owner or Operator,

We need your help! The 2022 General Aviation and Part 135 Activity Survey will end very soon. Thank you for your past participation—previous surveys have been a success thanks to you and many aircraft owners like you. Information about the activity of aircraft each year is critical to accurately calculate fleet size, hours flown, and the reasons people use their general aviation aircraft.

Please complete your survey today by logging on to <u>www.aviationsurvey.org</u> for the aircraft listed below (use the aircraft N-number as your password).

N-NUMBER: MANUFACTURER: MODEL: SERIAL:

2022 General Aviation and Part 135 Activity Survey Large Fleet Form

This form collects information based on 6 broad aircraft categories. We recommend responding for one aircraft category at a time—each category should be completed independently of the others.

Please return the completed pages in the enclosed postage-paid envelope. You may email responses to infoaviationsurvey@tetratech.com or complete the survey online: <u>www.aviationfleetsurvey.org</u> (to log-in, use the 7-digit password shown in red in the bottom right corner of the page). If you have questions about this study, call Tetra Tech at 1-800-826-1797.

Submission of this form is voluntary. The information obtained in the survey will only be used for statistical purposes, and will be kept private to the extent permitted by law. FAA will not publish any reports or tables that would reveal specific information reported by an individually identifiable respondent.

When reporting aircraft activity, include all hours flown by all users under all FAR Parts for all of 2022.

If you do not know the exact information for a particular question, please provide your best estimate.

Q1 Enter the number of aircraft in each aircraft type that were owned or operated by your organization as of December 31, 2022. Then, enter the state/territory in which each aircraft type was <u>primarily</u> <u>flown</u> in 2022. (Enter 0 if you did not own or operate aircraft in a category in 2022. If none of the aircraft in a category were flown, leave the state primarily flown blank.)

Aircraft Type	Number of Aircraft	State Primarily Flown*
Turbojets		
Turboprops		
Reciprocating Aircraft		
Turbine Rotorcraft		
Reciprocating Rotorcraft		
Other Aircraft (e.g., balloons, gliders, experimental, etc.)		

*Please use 2-character state/territory abbreviations.

Office of the Administrator

800 Independence Ave., SW Washington, D.C. 20591

Dear Aircraft Owner or Operator:

The Federal Aviation Administration is conducting the 45th annual General Aviation (GA) and Part

135 Activity Survey for calendar year 2022. We need to hear from you – even if you did not fly any of the aircraft in your fleet in 2022 or filled out a similar survey last year.

ABOUT THE SURVEY	The GA Survey is the <i>only source</i> of <i>information</i> on the size, activity, and characteristics of the GA fleet—how many aircraft are active, how many hours they fly, and how they are equipped. Information is aggregated and used by government agencies and industry to
	 Compute safety metrics, such as fatal accident rates. Understand the impact of the GA industry on jobs, economic output, and investments in aviation infrastructure. Track the success of safety initiatives, including avionics recommendations.
WHY SHOULD I RESPOND?	The FAA and industry need accurate data on a broad range of aircraft. Your participation is voluntary, but we need your help to measure the GA fleet accurately.
QUESTIONS?	Answers to frequently asked questions are on the reverse of this letter. For further assistance, please call 1-800-826-1797 or email infoaviationsurvey@tetratech.com. You can send questions to the FAA at GASurvey@faa.gov.

Thank you for your help with this important study!

Sincerely,

Billy Nolen Acting Administrator

What does the FAA do with this detailed information?

The information collected in this survey helps the FAA to understand more about general aviation activities, assess the impact of general aviation activities on the National Airspace System, and determine the need for increased traffic facilities and services. Federal, state, and local governments; general aviation associations; and private industry and individuals use the summary data for safety analyses, planning, forecasting, and research and development.

Will my name be associated with my survey responses?

ABSOLUTELY NOT! The information obtained in the survey will only be used for statistical purposes and will be kept private to the extent permitted by law. FAA will not publish any reports or tables that would reveal specific information reported by an individually identifiable respondent. Names of individuals are never associated with responses. There is an identification number on your survey only so Tetra Tech, a professional research firm conducting the study for us, knows who should receive the survey.

Why was I selected for this survey?

Your aircraft were selected from the Civil Aviation Registry. The Registry shows you as a registrant of these aircraft as of December 31, 2022.

Many aircraft were randomly sampled from the Civil Aviation Registry, but several groups were sampled at 100 percent to understand the activity of high-use groups better. These groups include FAR Part 135 aircraft, rotorcraft, turbine aircraft, aircraft five years old or newer, and Alaska-based aircraft.

What if I completed a survey last year?

Even if you were sampled last year, it is very important that you respond to the survey this year.

Owners or operators of multiple aircraft represent a key portion of the general aviation population. The summary form is aimed at reducing the burden of reporting for multiple aircraft, thus encouraging maximum participation.

What should I do if I have a question about how to fill out the survey or have a question we haven't answered?

Please call the GA Survey helpline at 1-800-826-1797 or email infoaviationsurvey@tetratech.com.

Has this survey been cleared by the Office of Management and Budget Paperwork Reduction Project?

Dear Aircraft Owner or Operator:

Please participate in the 2022 General Aviation (GA) and Part 135 Activity Survey. Our records indicate that you are an owner or operator of multiple aircraft. You are receiving a special summary survey so that you may report activity for your entire fleet, instead of completing a longer questionnaire for each of your aircraft.

Thank you for your help with this important study!

Sincerely,

Billy Nolen Acting Administrator

What does the FAA do with this detailed information?

The information collected in this survey helps the FAA to understand more about general aviation activities, assess the impact of general aviation activities on the National Airspace System, and determine the need for increased traffic facilities and services. June 2, 2023

Dear Aircraft Owner or Operator:

Recently we mailed you a consolidated survey form for the 2022 General Aviation and Part 135 Activity Survey. We have not yet heard back from you, and we would be happy to answer any questions regarding the questionnaire or the study itself.

ABOUT THE SURVEY	The GA Survey is the <i>only source of information on the size, activity, and characteristics of the GA fleet</i> —how many aircraft are active, how many hours they fly, and how they are equipped.
WHY SHOULD I RESPOND?	The responses of multiple-aircraft owners or operators are extremely important for accurately estimating general aviation and on-demand Part 135 activity.
QUESTIONS?	Answers to frequently asked questions are on the reverse of this letter. For further assistance, please call 1-800-826-1797 or email infoaviationsurvey@tetratech.com. You can send questions to the FAA at GASurvey@faa.gov.

Thank you for your help with this important study!

Sincerely,

Billy Nolen Acting Administrator

June 16, 2023

Dear Aircraft Owner or Operator:

Do you have 15 minutes to spare? Thanks to the support and participation of the General Aviation (GA) community, the 2021 survey was a tremendous success. You can help us sustain that success! The survey form enclosed and available online is designed to minimize burden and still provide information to accurately measure the size and activity of the GA fleet.

Thank you for your help with this important study!

Sincerely,

Billy Nolen Acting Administrator
