

approve components that do not meet this guideline if it determines that such components will advance program goals. The State agency may require SNAP applicants to participate in any component it offers in its E&T program at the time of application. The State agency must screen applicants to determine if it is appropriate to participate in E&T in accordance with 273.7(c)(2), provide the applicant with participant reimbursements in accordance with (d)(4) of this section, and inform the applicant of E&T participation requirements including how to access the component and consequences for failing to participate. The State agency must not impose requirements that would delay the determination of an individual's eligibility for benefits or in issuing benefits to any household that is otherwise eligible. In accordance with section 6(o)(1)(C) of the Food and Nutrition Act of 2008 and § 273.24, supervised job search and job search training, when offered as components of an E&T program, are not qualifying activities relating to the participation requirements necessary to fulfill the ABAWD work requirement under § 273.24. However, job search, including supervised job search, or job search training activities, when offered as part of other E&T program components, are acceptable as long as those activities comprise less than half the total required time spent in the components. An E&T program offered by a State agency must include one or more of the following components: a supervised job search program, a job search training program, a workfare program, a work experience program, a supported work program, educational programs or activities to improve basic skills and build work readiness, and job retention services. *Retention And Custody of Records.* In accordance with § 272.1(f), State agencies are required to retain records concerning the frequency of noncompliance with FSP work requirements and the resulting disqualification actions imposed. These records must be available for inspection and audit at any reasonable time to ensure conformance with the minimum mandatory disqualification periods instituted.

Need and Use of the Information: The purpose of the case management services is to guide E&T participants towards appropriate E&T components and activities based on the participant's needs and interests, to support the participant in the E&T program and to provide activities and resources that will assist the participant toward self-

sufficiency. State agencies may adopt different modes for the delivery of case management services, such as virtual, over the telephone, in-person or hybrid approach. This information will be used to better administer the SNAP E&T Program and provide improved customer service to SNAP E&T participants. If the Department does not require State agencies to conduct case management services, the Department will be out of compliance with Federal law.
