Question Text:

I'd like to talk about the insurance which is from {DIRECT PURCHASE TYPE}, that is, the health insurance {you/someone in the household} purchased or obtained directly from that source.

ENTER 'CONTINUE' UNLESS RESPONDENT VOLUNTEERS INSURANCE REPORTED IN ERROR.

Responses:	CONTINUE	1	LOOP_10	(HP1035)
	INSURANCE REPORTED IN ERROR	2	BOX_150	(HP1220)

Programmer Instructions:	If coded '2' (INSURANCE REPORTED IN ERROR), flag item for source clean-up.
	A permanent variable should be created at this item to track the use of this option.
Display Instructions:	Display 'you' if single person RU and the respondent is an RU member. Otherwise, display 'someone in the household'.

Display the following for 'DIRECT PURCHASE TYPE':
• 'an employer or union' if coded '1' at HX200 or HX300 (looping on Insurance.DirectPurchTp= CurrPrevEmployerUnion) or if looping because HX225 is coded '2' (NO), 'DK' (DON'T KNOW), or 'RF' (REFUSED) (looping on Insurance.DirectPurchTp= CurrPrevEmployerUnion).
• '{STATE EXCHANGE NAME-A} OR FEDERAL MARKETPLACE' if coded '2' at HX200 or HX300 (looping on Insurance.DirectPurchTp= ExchangeMarketplace).
• 'an insurance company or agent or broker' if coded '3' at HX200 or HX300 (looping on Insurance.DirectPurchTp= InsuranceCoAgentBroker).
• 'a group or association' if coded '4' at HX200 or HX300 (looping on Insurance.DirectPurchTp= GroupAssociation).
• 'the plan of someone not living here' if coded '5' at HX200 or HX300 (looping on Insurance.DirectPurchTp= SomeoneNotLivingHere).
• 'the {OTHER SPECIFY TEXT}' if coded '91' at HX200 or HX300 (looping on Insurance.DirectPurchTp=Other).
• 'a source that provided directly purchased insurance' if coded 'RF' or 'DK' at HX200 or HX300 (looping on Insurance.DirectPurchTp=RF or DK).

For 'STATE EXCHANGE NAME-A', display exchange name 'A' associated with the state in which interview is being conducted. For the specific name to use by state, see the plan fill file.

For 'OTHER SPECIFY TEXT' display the text entered at HX200OS or HX300OS.

LOOP_10	**(HP1035)**	**Item Type:** Route	**Type Class:** Begin Loop

Route Details:

Ask BOX_30-END_LP10.

Loop definition: LOOP_10 collects detailed information about insurance provided through an employer or union or the insurance source names of the direct purchase insurance source created in the HX section during the current round.

If looping on insurance provided through an insurance source created in the HX section during the current round (i.e., source selected at HX200 or HX300 or HX225 is coded '2' (NO), 'DK' (DON'T KNOW), or 'RF' (REFUSED)) (Insurance.HISrc=Direct Purchase), the first loop cycle collects the main insurance source name of the insurance. Subsequent cycles, if any, are determined by the response to HP190. If HP190 is coded '1' (YES), the loop cycles again to collect the next insurance source name with the same direct purchase type. If HP190 is not asked or is coded '2' (NO), 'RF' (REFUSED), or 'DK' (DON'T KNOW), the loop ends for that direct purchase type.

When looping through the HP section on any insurance associated with an employer or union from the Employment (EM) section that provides health insurance (Insurance.HISrc=Employer or Union), LOOP_10 will cycle only one time.

BOX_30	**(HP1036)**	**Item Type:** Route	**Type Class:** If Then

Route Details:

If looping on any insurance associated with an employer from the Employment (EM) section that provides health insurance and is self-employed, firm size = 1 (Insurance.HISrc=Employer and Job.SELFEMP=SelfEmpl and Job.EmpEstm= 1), continue with HP40.

If looping insurance associated with an employer or union from the Employment (EM) section that provides health insurance and is not self-employed, firm size=1 [(Insurance.HISrc= Union) or (Insurance.HISrc=Employer and not (Job.SELFEMP=SelfEmpl and Job.EmpEstm=1))], go to HP70.

Otherwise, go to BOX_40.
