MEDICAL PROVIDER COMPONENT  
EVENT FORM  
FOR  
OFFICE-BASED PROVIDERS  
FOR  
REFERENCE YEAR 2022**

**Specifications for RCD**

VERSION #	V	GENERATION OF CHANGES	DATE TO AHRQ
.0	1	Updates made for 2022 data collection – highlights in yellow	12/20/22

**PROGRAMMERS:** This document details the specifications for the **Office-Based Medical Event Form**.

Overall functionality requirements we would like for the system controlling the event forms are as follows:

- Show an “overall” progress indicator on the screen.
- Set up FUNCTION KEYS for each of the following commands:
  - (1) Don’t Know
  - (2) Refused

The function keys would be available for any question unless specified otherwise in the question by question specifications.

NOTE: 2018 Update: The response option of “Retrievable” was removed from all Event Forms.

- To assist the DCS/abstractors if they need to jump around a form, among forms, and among patients for a given provider:
  - o Within an event form, in addition to post-logic, include pre-logic to the area we are skipping to, so the interviewer wouldn’t be able to access a group of questions without answering the gateway question. For example, the “Capitated Basis” section should not allow entry unless the question in “Reimbursement Type” (C3) = 2.
  - o Incorporate edit trails (e.g., if need to go back and revise answer).
  - o Include in the screen header some sort of progress status on how many patients for a given provider have been completed out of the total (e.g., Done with 2 of 3 patients).
  - o Allow the DCS/abstractors to see a list of the event forms completed for a given patient (with event dates) in case they need to go back to revise some information in one of the forms.

**Question By Question Specifications**

The QxQ specifications have been broken out throughout the rest of this document by section and include the screen layout, programmer notes, and edit specifications from Westat.

NOTE: Westat EDIT SPECS:

Westat editors wrote BLUE SHEETS to the TRC (telephone research center) for data items that needed collection, clarification, or correction. The TRC is our contact with the respondent in the provider's office.

Westat editors wrote YELLOW SHEETS for problematic items that needed managerial review.

NOTE:

The following are a list of CRITICAL ITEMS and ADDITIONAL DATA RETRIEVAL ITEMS in the event form, which were pulled from (1) the CHEAT SHEET provided by AHRQ with the edit specs (*cheat sheet rev2 DRG after 10-1-07.doc* found in [\\RTINTS27\MEPS\00\\_ADMIN\04\\_DOCUMENTS\MATERIALS FROM AHRQ AND WESTAT\11\\_14\\_2008\DOCS\\_RECEIVED\\_ELECTRONICALLY\MPC\\_EDIT\\_SPECX.ZIP](#)) and (2) the following memo [\\RTINTS27\MEPS\01\\_BASE\\_YEAR\11\\_DATA\\_COLLECTION\00\\_DCT\\_COMMON\REQUESTS FOR CLIENT\FROM CLIENT\CRITICAL DATA ITEMS MEMO 01051997.PDF](#).

## SECTION 4 - DIAGNOSES

[Page 5 – DIAGNOSES (1 of 1)]

### SCREEN LAYOUT

B4a. I need the diagnoses for (this visit/these visits). I would prefer the ICD-10 codes, or the DSM-5 codes, if they are available.

IF CODES ARE NOT USED, RECORD DESCRIPTIONS. RECORD UP TO FIVE ICD-10 CODES OR DESCRIPTIONS.

### PROGRAMMER NOTES

[SYSTEM WILL ALLOW FOR A MAXIMUM OF 5 ICD-10 CODES AND/OR DESCRIPTIONS TO BE COLLECTED]

This is a question loop that will require:

- (1) A HISTORY BOX to display responses already collected.
- (2) A question to appear after each iteration of the questions that reads: Any More Diagnoses? YES=1 NO=2

(this visit/these visits) - If B2a=YES fill: "these visits" ELSE fill: "this visit".

DK/REF – CONTINUE TO B5a

Description field (ICDPDS) = up to 100 characters.

For ICDCND, display "ENTER CODE" on screen. For ICDPDS, display "ENTER DESCRIPTION" on screen.

2019 UPDATE: Addition of onscreen ICD-10 graphic to emphasize correct code format. Logic also added to restrict code entries to only accurate formats.

- o Code is 3-7 characters.
- o First character is always a letter.
- o Second character is always a number.
- o Characters 3-7 can be letter or number.

- 2020 UPDATE: Values entered into ICDCND are checked against a dictionary of valid ICD-10 and DSM-5 codes. Entry is allowed for valid codes. If entry of an invalid code is attempted, a hard check message is displayed, "The code you entered is not in our database. Please verify your entry. If the entry is correct, leave ICDCND empty and move to ICDPDS field to enter a description instead."

**SECTION 5 – SERVICES/CHARGES**

**NOTE: See end of section for edit specs from Westat for questions B5a, B5b, and C2.**  
 [Page 6 – SERVICES/CHARGES (1 of 1)]

**SCREEN LAYOUT**

B5a. I need to know what services were provided during (this visit/these visits). I would prefer the CPT-4 codes, if they are available.

CPT-4 CODE      DESCRIPTION  
**MCPT#**            **MCPTDS#**

What was the full established charge, or charge equivalent, for this service?

**\$MCPTCH#**

IF CPT-4 CODES ARE NOT USED, DESCRIBE SERVICES AND PROCEDURES PROVIDED. ENTER UP TO 8 CHARACTERS.

IF CPT-4 CODE BEGINS WITH W, X, Y OR Z, ENTER A DESCRIPTION INSTEAD.

B5b. ASK FOR EACH CPT-4 CODE OR DESCRIPTION: What was the full established charge for this service, before any adjustments or discounts?

**IF NO CHARGE:** Some facilities that don't charge for each individual service do associate dollar amounts with services for purposes of budgeting or cost analysis. This is sometimes called a "charge equivalent". Could you give me the charge equivalent for this service?

IF PROVIDER APPLIED THE CHARGE FOR THIS SERVICE TO SOME OTHER SERVICE ON THIS DATE, ENTER -4.

C2. [I show the total charges as OUT\_TOTLCHRG / I show the charge as undetermined. / I show the charge as OUT\_TOTLCHRG, although one or more charges is missing ] Is that correct?  
 IF INCORRECT, CORRECT ENTRIES SHOWN ABOVE AS NEEDED

**TOTLCHRGOK**  
 YES = 1  
 NO = 2

**OTHERMCPT#**

**PROGRAMMER NOTES**

2021 UPDATE: Check MCPT fields for any of the following codes or modifiers:

- HCPCS/CPT4 codes: G0425, G0426, G0427, G0406, G0407, G0408, G2012, G2010, 99421, 99422, 99423, G2061, G2062, G2063
- 2022 UPDATE: Add the following HCPCS/CPT4 codes: 99441, 99442, 99443, 98966, 98967, 98968
- Modifiers: 95, GQ, GT

Determine YES or NO if any of the codes or modifiers listed immediately above are in MCPT fields. If NO, no soft check is displayed at this point. If YES: check item B3 RCSR.V. Does RCSR.V = 1 (Physician's Office)? If NO, no soft check is displayed at this point. If YES, display a soft check message:

ONE OR MORE CODES/MODIFIERS INDICATES TELEHEALTH, BUT THE LOCATION OF SERVICE SELECTED IS NOT TELEHEALTH.  
CONFIRM THE CURRENT LOCATION OF SERVICE AND CONTINUE OR CLICK THE GOTO BUTTON TO CHANGE THE LOCATION OF SERVICE TO TELEHEALTH.

2022 UPDATE: Modifiers added in MCPT must be 2 characters. After the first 5 characters in an MCPT field, any additional entry within that same field must be 0 characters or 2 characters.

2020 UPDATE: Values entered into MCPT are checked against a dictionary of valid CPT-4 and HCPCS codes. Entry is allowed for valid codes. If entry of an invalid code is attempted, a hard check message is displayed, "The code you entered is not in our database. Please verify your entry. If the entry is correct, leave MCPT empty and move to MCPTDS field to enter a description instead."

2016 UPDATE: REQUESTING EVENT FORM CHANGE IN WHAT IS CONSIDERED AN ERROR FOR B5a/b GRID. [The following only occurs during re-abstraction: If an event includes a duplicated CPT code and associated charge that needs to be deleted, the deletion creates errors for all CPTs/charges listed after it, even if their CPTs or values do not change. This happens when the deleted item is not the last in the list/grid. For example, if the second CPT and associated charge in the list is deleted, the system marks that removal as an error. Then it shifts every CPT and charge "below" that one in the grid. Each one of those shifts counts as an error. Requesting Event Form change in what is considered an error.]

### Design Note for C2

In the summary of charges that displays on screen, "I show the total charge as [TOTLCHRG]" distinguish different types of reserve codes, by displaying phrases "Don't Know" or "Refused" instead of the generic word "missing."

If there is even one reserve code entered in the MCPTCH fields, then end the currently displayed phrase with "...although there are some charges that are missing." Do not cite "total." For example:

"I show the charge as \$30, although one or more charge is missing. Is that correct?"

"I show the charge as zero, although one or more charge is missing. Is that correct?"

If all the entries in the SOP fields are reserve codes, then display:

"I show the total charge as undetermined."

### Design Note for C2

C2. I show the total charge as [TOTLCHRG]. Is that correct?

### CHARGES

Services charge: CPT-4 CODE: [MCPT\_1] / DESC: [MCPTDS\_1] charge = \$[MCPTCH\_1]

.

.

.

Services charge: CPT-4 CODE: [MCPT\_N] / DESC: [MCPTDS\_N] charge = \$[MCPTCH\_N]

### Programmer:

At least one entry of MCPTCH must be something other than -4. Entries of dollars, DK, RF all count as valid entries in the presence of -4. If a user answers A6\_Anymore ("Any more procedures") as "No" and the sole entry is -4 or all entries are -4, then administer a hard check message: "At least one charge must have a value other than -4."

When a user answers A6\_Anymore ("Any more procedures") as "No", and one or more MCPTCH entries equals DK, RF, administer a soft check message: "ONE OR MORE CHARGES WAS RECORDED AS DON'T KNOW OR REFUSED. PRESS OK TO CONTINUE, OR CANCEL TO CHANGE AN ANSWER."

B5b: 0 is UNALLOWABLE. Must have a positive value, -4, DK or REF response.

IF C2=NO DISPLAY HARD CHECK ("IF INCORRECT, CORRECT ENTRIES AS NEEDED") AND SEND USER BACK TO B5b MCPTCH[1].

Validation: If OUT\_TOTLCHRG>10000 administer soft-check "You have entered a charge over \$10,000."

B5a - [SYSTEM WILL SET UP AS A LOOP, SO NO LIMIT ON CPT-4 CODES REQUIRED]

B5a and B5b is a question loop that will require:

- (1) A HISTORY BOX to display responses already collected.
- (2) A question to appear after each iteration of the questions that reads: Any more services? YES=1 NO=2

B5a – (this visit/these visits) - If B2a=YES fill: "these visits" ELSE fill: "this visit".

B5a – MCPTDS = Up to 100 characters allowed.

B5b, IF NO CHARGE – (s) – If B5a has one response fill: " " ELSE fill: "s".

B5b, IF NO CHARGE – (this/these) – If B5a has one response fill "this" ELSE fill: "these".

B5b, VERIFY – (Is this/Are these) - If B5a has one response fill: "Is this" ELSE fill: "Are these".

B5b, VERIFY – (s) - If B5a has one response fill: " " ELSE fill: "s".

B5b, VERIFY – (this/these) - If B5a has one response fill: "this" ELSE fill: "these".

B5b & C2 - DOLLAR AMOUNTS SHOULD BE FORMATTED TO INCLUDE COMMAS and DECIMAL POINTS

C2 – System should compute and display total charges from preceding charges reported in \$MCPTCH#. That total is referred to in spec as \$TOTLCHRG and will be a fill in the C2 question. The answer for the user is Yes or No. However if the user answers "No" then a hard check error message should be administered, "IF INCORRECT, CORRECT ENTRIES AS NEEDED." This live message will replace the fixed interviewer instruction in ALL CAPS.

B5a - DK/REF – CONTINUE TO B5b

B5b - DK/REF – CONTINUE TO C2

2019 UPDATE: TOTLCHRGOK – Grid displaying summary of CPT-4 codes/descriptions and associated charge amounts, along with summary of total charge amount, and requiring confirmation (or correction). This screen replaces dynamic grid that previously displayed at items B5a and B5b.

DATA ITEM	SPECIFICATIONS	ACTION, if specification not met
QB5b Charges	Every procedure must have a charge.	<b>Blue Sheet</b> , if missing. <b>Yellow Sheet</b> , if missing, but there is a comment explaining why.

Charge is not a Critical Item.	Only one procedure per charge, unless indicated by the TRC	If two procedures are combined into one charge, see below.
	Sometimes charges for more than one procedure are combined into one. There is a note that says charges cannot be broken out. Two or more procedures are connected by brackets.  The code – 4 may be used to indicate that a charge is included in the charge on the line above it.  The code – 4 is only used for charges.  The code – 4 can only be used if it is certain that there are two procedures (and therefore two charges are needed).	The combined charge should be on the line next to the first of the bracketed procedures.  Write the code –4 on the subsequent line in the field for the charge. The line for a charge cannot be blank if a procedure is given.  If a single procedure is written on more than one line, circle it to show that it is one procedure. The matching charge lines will have a charge on the first line and will be blank on the second line. <b>Blue Sheet</b> , if unsure.
	DK or RF is an acceptable answer.	Change DK to – 8. Change RF to – 7. Since charges are not critical items, the Receipt Code remains 63 unless another critical item is missing.  If all Individual Charges are DK or RF and there is a Total Charge given, <b>Yellow Sheet</b> .
	\$0.01 charge and other illogically-low charges need managerial review to determine if we should ask for a charge equivalent or full established charge.	<b>Yellow Sheet</b> .
	\$0.00 charge, N/C charges, or comments indicating that the doctor did not charge for this service need managerial review. NOTHING IS FREE. This may indicate a service covered by a global fee. If not a global fee service, we may need to ask for a charge equivalent.	<b>Blue Sheet</b> for Charge Equivalent, unless a Global Fee is indicated.  If a Global Fee is indicated, <b>Yellow Sheet</b> .
	QC2 - Total Charge	Total Charge must be written by the TRC.
	Total Charge should equal sum of Individual Charges.	If there is only one charge, compare to Total. <b>Blue Sheet</b> if not the same.
	Calculator tape should be run to verify Total if there are multiple charges.	Run calculator tape. If tape doesn't match book, write NOT OK. If tape matches book, write OK. Initial the tape.
	If the Total Charge written by the TRC is less than sum of the Individual Charges, a correction can be made if the difference is 10% or less.  Compare the amount of the difference and the Total Charge as written by the TRC.  Note that changes can affect the answers to Box 1, QC5a, and QC6.	If the difference is 10% or less than the Total, correct the Total Charge.  <b>Blue Sheet</b> , if the difference is greater than 10%.  Change Box 1 to the appropriate answer.  <b>Blue Sheet</b> , if QC6 was skipped, but now must be answered.
	If the Total Charge written by the TRC is greater than the sum of the Individual Charges, the TRC must make any corrections.	<b>Blue Sheet</b> .
	DK or RF is acceptable.	If Total Charge, and Total Pay, and Procedures are all DK or RF, <b>Yellow Sheet</b> .

	If one charge is DK or RF, Total Charge should be DK or RF.	<b>Yellow Sheet.</b>
	\$0.00 is not acceptable. Nothing is Free.	<b>Yellow Sheet.</b>

## SECTION 6 – SOURCES OF PAYMENT

**NOTE: See end of section for edit specs from Westat for questions C4 and C5.**

[Page 7 – REIMBURSEMENT TYPE (1 of 1)]

### SCREEN LAYOUT

C3. Was the practice reimbursed for (this visit/these visits) on a fee-for-service basis or capitated basis?

FEE-FOR-SERVICE BASIS =1  
CAPITATED BASIS =2

**FEEORCAP**

EXPLAIN IF NECESSARY:

**Fee-for-service** means that the practice was reimbursed on the basis of the services provided.

**Capitated basis** means that the patient was enrolled in a prepaid managed care plan where reimbursement is not tied to specific visits, this is also called Per Member Per Month.

IF IN DOUBT, CODE FEE-FOR-SERVICE.

DK/REF NOT ALLOWED

IF C3 = 2 (CAPITATED BASIS) GO TO C7A

### PROGRAMMER NOTES

2019 UPDATE: When a user answers FEEORCAP as 2 (“CAPITATED BASIS”), a soft check message displays: “Capitated basis means that the patient was enrolled in a prepaid managed care plan where reimbursement is not tied to specific visits. This is extremely rare outside of California. Please review and correct if needed, or suppress and continue.”

### EDIT SPECS FROM WESTAT

DATA ITEM	SPECIFICATIONS	ACTION, if specification not met
QC3 Fee for Service or Capitated?	1 or 2 must be circled. This critical item can usually be determined by looking at the skip pattern of the payment questions.	If blank, answer 1 or 2, by looking at the skip pattern used for the payment questions.
<b>CRITICAL ITEM</b>	Answer must be consistent with the skip pattern used in payments section. If Fee for Service, then QC4, Box 1, and QC6 must be answered. If Capitated, then QC7a – f Capitated Section must be answered.	If answered incorrectly, circle the answer that matches the skip pattern, and cross out incorrect response.
	Should be the same in all books for a patient, unless there is an explanation.	<b>Yellow Sheet</b> , if there is no explanation about a change in insurance which caused the change among books.

C5. [I show the total payment as <b>TOTLPAYM</b> / I show the payment as undetermined. / I show the payment as <b>TOTLPAYM</b> , although one or more payments is missing ] Is that correct?	YES=1, NO=2	
IF NO, CORRECT ENTRIES ABOVE AS NEEDED.		

### PROGRAMMER NOTES

When a user answers MoreSources\_1 ("Any more payments") as "No", and one or more entries among PATPAYM, CAREPAYM, AIDPAYM, PINSPAYM, VAPAYM, CHAMPAYM, WORKPAYM equals DK, RF administer a soft check message: "One or more payments was recorded as Don't Know or Refused. Please review and correct if needed, or suppress and continue."

2019 UPDATE: Each C4 item a-g (PATPAYM to WORKPAYM) appears on its own screen, along with the entire C4 question text and DCS instructions. Each screen has the word "SOURCE:" before the source (Medicare, Private Insurance, etc.) being asked about on a given screen. The differences among screens is only the source being asked about.

Require an entry in each source of payment (SOP) field PATPAYM to WORKPAYM. Require an entry in OTHRPAYM if MoreSources = 1. The following are allowed entries: 0, integer, integer with 2 decimal places, DK, REF.

In the summary of charges that displays on screen C5, "I show the total payment as [TOTLPAYM]" distinguish different types of reserve codes, by displaying phrases "Don't Know" or "Refused" instead of the generic word "missing."

If there is even one reserve code entered in the SOP fields, then end the currently displayed phrase with "...although one or more payments are missing." Do not cite "total." For example:

"I show the payment as \$30, although one or more payments is missing. Is that correct?"

"I show the payment as zero, although one or more payments is missing. Is that correct?"

TOTLPAYM counts entries of DK or REF in the individual SOPs as "0".

This variable that is recorded on screen C5 is called TOTLPAYMOK, it saves values of Yes or No. It is a critical item.

### FILL INSTRUCTIONS:

1. All SOP >=0 (e.g., 0, integer dollars, dollars + cents)

- a. Text: I show the total payment as TOTLPAYM.
- 2. All SOP <0 (e.g., DK, REF, whose numeric values are -1, -2)

- a. Text: I show the total payment as undetermined.

- 3. Mixed entries (e.g., a zero or dollar amount along with one or more DK/REF)

- a. Text: I show the payment as TOTLPAYM, although one or more payments is missing.

Even if all the individual payments recorded in C4 are DK or REF and the value of TOTLPAYM=0, then we collect either

- 1. Reasons for payment < > charges (e.g., PLC1 and the appropriate screens for C6)
- 2. Confirmation that payment = charge (C5a).

If a particular SOP was coded as "Don't Know" or "Refused" then display the appropriate phrase instead of the generic word "missing."

(VISIT DATE) should fill with ENC\_DATE from B1.

C4 - [SYSTEM WILL SET UP "SOMETHING ELSE" AS A LOOP, SO NO LIMIT REQUIRED]

C4 – (this visit/these visits) - If B2a=YES fill: "these visits" ELSE fill: "this visit".

C4h - The OTPAYMOSTXT variable was added to record free-form text for the "Other, Specify" option. Interviewers will be able to record responses in the text box that do not occur in the listed options. Field = 50 characters.

C4h is a question loop that will require:

- (1) A HISTORY BOX to display responses already collected.
- (2) A question to appear after each iteration of the question that reads: Any more sources? YES=1 NO=2
- (3) The "something else" option should be set up so a response can be selected from among response options, or entered in as text.

C4h – Include the following options for the "Other Specify";

- Auto or Accident Insurance
- Indian Health Service
- State Public Mental Plan
- State/County/Local program
- Other

C5 – System should compute and display total payments from preceding charges reported in fields \$PATPAYM# through \$OTHRPAYM. The dollars total is referred to in spec as \$TOTLPAYM and will be a fill in the C5 question. The answer for the user is Yes or No. However if the user answers "No" then a hard check error message should be administered, "IF INCORRECT, CORRECT ENTRIES AS NEEDED" and return user to previous screen.

C4 - DK/REF – CONTINUE TO C5

C5 - DK/REF – CONTINUE TO BOX 1

DOLLAR AMOUNTS SHOULD BE FORMATTED TO INCLUDE COMMAS and DECIMAL POINTS

**QC4 AND QC6 "OTHER/SPECIFY"**

Answers in "Other/Specify" should be reflected in both QC4 and QC6.

If there is an "Other/Specify" answer in QC4 that is not also indicated in QC6, **Yellow Sheet**.

If there is no payment on QC4 (line h), cross out the Other/Specify answer on that line.

If there is an "Other/Specify" answer in QC6 that is not also indicated in QC4, **Yellow Sheet**.

Exceptions: If Other/Specify answer in QC6 is Hosp or Provider Write Off, there will not be a corresponding answer in QC4.

If Total payment = Total charges, there will not be a corresponding answer in QC6.

**CHECK DECISION LOG FOR COMMENT REVIEW**

Some comments should be moved to QC6 (line h) Other/Specify. Look up comments on the Decision Log.

Examples: "Insurance denied," "Medicare denied," "Billing error," "Billed late," "Procedure not covered by Medicaid"

**COMPARE QUESTIONS BETWEEN BOOKS**

Look for indications that the wrong answer was circled by mistake.

**OTHER/SPECIFY WRITE-OFFS**

OBD cases -- Accept the phrase "Provider write-off."

Hospital cases -- Accept the phrase "Hospital write-off"

Accept "Small Balance Write-off" or "Small Balance Adjustment"

**COURTESY DISCOUNT**

If there is only an insurance as QC4 payer, and QC6 is only Courtesy Discount, **Yellow Sheet**.

**THREE OR MORE INSURANCE TYPES**

**AN ADJUSTMENT WITHOUT A PAYMENT FROM THAT SOURCE**

Accept an answer that indicates an Adjustment with \$0.00 payment by that source, as long as there is no other evidence of an inconsistency.

QB8 - All events covered?	1 or 2 must be circled.	
	In a booklet that is NOT the last booklet for a patient, the answer must be NO (2) – not all events are covered.	If <u>not the last</u> booklet, change blank to NO (2). If <u>not the last</u> booklet, change YES (1) to NO (2).
		ONLY THE DCS CAN SAY THAT ALL EVENTS ARE COLLECTED.
	In the last booklet for a patient, the TRC must say that all events are collected	If NO,(2) in the <u>last booklet</u> , write a Blue Sheet. DO NOT CHANGE NO TO YES.  IF BLANK in the <u>last event booklet</u> , review QB9a:  If QB9a is blank, Blue Sheet.  OR  If QB9a is answered, circle 1 in QB8, because TRC has indicated that this is the last book by answering QB9a.

QB9a – Did we get the number of events we expected?  If not, why not?	This question is only answered in the last book for a patient.	If not last book, but this question is answered, cross out.
	If last book, cannot be blank.	Review the total number of events collected from the provider. Count each event booklet, plus each 2022 global fee date, plus each repeat visit date. Compare the total events collected with the total events expected on the Patient Data Form. Determine answer to QB9a and circle appropriate response.
	If 1 is circled, The provider gave us the same number of Total Events that the patient gave us, or the provider gave us more than the patient gave us.	Compare events collected (event booklets, 2022 Global Fee dates, and Repeat visit dates) to total events on Patient Data Form. Also compare for HS and HC event types. <b>Blue Sheet</b> , if we didn't get as many events as we expected.
	If 2 is circled, The provider gave us less events than the patient reported. An explanation must be recorded by the TRC.	<b>Blue Sheet</b> , if events are missing and no explanation given. If 2 is circled, but a review of the PDF shows that we have collected enough events, change answer to 1, unless it looks like an event is missing. <b>Blue Sheet</b> , if the explanation looks like an event was not collected, or if there is a missing HS or HC event.
	ALL EXPLANATIONS NEED MANAGERIAL REVIEW.	<b>Yellow Sheet</b> , if events are missing and explanation is given. If events are not missing, but an explanation is given, cross out explanation, unless the explanation looks like an event was not collected. <b>Yellow Sheet</b> if there is a possible missing event.
	Reported Home Care events need special handling. Missing Home Care events need a NIRF, an HC dead code on the PL-IV, and TRC approval.	If the Patient Data Form says that Home Care events were expected, review the books in the case. If no Home Care books for the patient, <b>Blue Sheet</b> . Request HC events, even if the total number of events is adequate. If there are Home Care books, verifiers should give the case to a Home Care editor.
