Spec Label:

This is the cover page. Additional contents currently project specific.

BOX_00   **(PP1000)**   **Item Type:** Route   **Type Class:** If Then

Route Details: 01 Box = BOX_00, BOX_05, BOX_10, BOX_20, BOX_30, BOX_40, BOX_50, BOX_ 60, BOX_63, BOX_65, BOX_70, BOX_80, BOX_90, BOX_110, BOX_130, BOX_140, BOX_150, BOX_160, BOX_170, BOX_180, BOX_190, BOX_370

05 Single Select with Display Roster = PP10, PP20, PP30, PP40, PP50, PP53, PP55, PP60, PP70, PP80, PP100, PP120, PP130, PP140, PP150, PP160_01

Grid 1 = PP10, PP20, PP30, PP40, PP50, PP53, PP55, PP60, PP70, PP80, PP100, PP120, PP130, PP140, PP150, PP160_01

BOX_05   **(PP1001)**   **Item Type:** Route   **Type Class:** If Then

Route Details: For the members of the household, loop on all persons and check to see if there are any RU members with different reference periods. If there are different person level reference periods within the household, use the earliest person-level start date of any of the RU members in the household to populate the START DATE. Use the latest person-level end date to populate the END DATE throughout the PP section.

<u>**BOX_10**</u>   <u>**(PP1005)**</u>   **Item Type:** Route   **Type Class:** If Then

Route Details: NOTE: BEGINNING IN THE SPRING 2023 DATA COLLECTION CYCLE (P28R1, P27R3, P26R5, P24R9), the family and non-family subunit will continue to be identified, but the non-family subunit will not go through a separate set of probes. All RU members will be combined into the family set of provider probes and are considered the "family subunit" for the purposes of the specifications.
The following definitions of family and non-family subunit are specified and created in RE930.

The family subunit consists only of respondent, respondent's spouse/partner(RE900= '7' HUSBAND/WIFE/SPOUSE or '8' UNMARRIED PARTNER) , respondent's dependent children under age 21 (RE900 = 5 DAUGHTER/ADOPTED DAUGHTER, '6' SON/ADOPTED SON, '17' STEPDAUGHTER, or '18' STEPSON), children of partner under age 21 (RE900 = '30' DAUGHTER OF {PERSON LOOPING ON}'s PARTNER, '31' SON OF {PERSON LOOPING ON}'s PARTNER), and children under age 18 in a legal guardian relationship with the respondent (Respondent was selected as the legal guardian for child at RE920). If respondent is a proxy, Family Subunit is the reference person and the reference person's spouse/partner (RE900= '7' HUSBAND/WIFE/SPOUSE or '8' UNMARRIED PARTNER), reference person's dependent children under age 21 (RE900 = 5 DAUGHTER/ADOPTED DAUGHTER, '6' SON/ADOPTED SON, '17' STEPDAUGHTER, or '18' STEPSON), reference person's partners children under age 21 (RE900 = '30' DAUGHTER OF {PERSON LOOPING ON}'s PARTNER, '31' SON OF {PERSON LOOPING ON}'s PARTNER), and children under age 18 in a legal guardian relationship with the reference person (Reference person was selected as the legal guardian for child at RE920) .

• For all other situations that are not inclusive of the above definition for family subunit, they would be considered a non-Family Subunit- all other household members, not part of Family Subunit
• For the Family Subunit ask PP10-PP165, which is to be administered with a forced choice format for each person on the household roster who is part of the Family Subunit. There will always be at least one person in the family subunit- the respondent at the very least.

PP10   **(PP1010)**   **BLAISE NAME:** ProbeHosp

☐ Help Available (   )   ☑ Show Card (PP-1)   ☐ Look Up File (   )

Question Text:

📖 PP-1

The next set of questions {help make sure we haven't missed any additional health care for {any of the people living here/you}/{ask about health care received by {the people living here}/{you}. {Earlier you mentioned that {DISPLAY NAME 1} {DISPLAY NAME 2} {DISPLAY NAME 3} {and DISPLAY NAME N} had some health care visits that we haven't yet talked about. I can collect that information during these next series of questions}

As I ask the questions, please look at the corresponding show cards and think about {any additional} health care {you/each person living here} received in person or in real-time telehealth interactions by phone or video. {I'll ask you to provide a 'yes' or 'no' response for each person.}

Let's start with hospitals. Looking at card PP-1, {since {START DATE}/between {START DATE} and {END DATE}}, {were you/was {REFERENCE PERSON}} admitted to the hospital for any period of time{, other than what we already talked about}?

{VARIABLE QUESTION TEXT}

Responses:	YES	....	1
	NO	....	2
	REFUSED	....	RF
	DON'T KNOW	....	DK

Programmer Instructions:	Preloaded Grid Type 1: Forced navigation
	If at least one person in the grid coded '1' (YES), continue with BOX_20.
	Otherwise, go to PP20.
Display Instructions:	Roster type 1- Report Roster definition:
	Display the RU-Members-Roster in the form pane.
	Col #1- RU Members Display RU members' First, Middle, Last Names Roster Filter: Display all RU members' part of the family subunit as defined in BOX_10.
	Display ', other than what we already talked about' if a HS event is on the event array for at least one person in the family subunit. Otherwise, use a null display.
	Display "since {START DATE}" if current round is not the final round of the panel (RndType<>Final), otherwise display "between {START DATE} and {END DATE}".
	Display 'was' if the respondent is a proxy and there is only 1 RU member in the family subunit, otherwise, display 'were'.
	Display "'help make sure we haven't missed any additional health care..." if at least one event record has already been created for any RU member. (e.g., EV20 in (1-7))
	Display 'for you' if a single person RU and the respondent is RU member. Otherwise, display 'for any of the people living here'.
	Display "ask about health care received by..." if no event records exist for any RU member (e.g., EV20 not set)
	Display 'you' if a single person RU and the respondent is RU member. Otherwise, display 'the people living here'.
	Display "any additional" if there are events enumerated on the roster for anyone. Display 'you' if a single person RU and the respondent is RU member. Otherwise, display 'each person living here'.
	Display "I'll ask you to provide a 'yes' or 'no' response for each person." If more than 1 RU member in the family subunit. Otherwise, use a null display. Display "were you" if the respondent is RU member. Otherwise, display "was {REFERENCE PERSON}" substituting the reference person's name.
	Display "Earlier you mentioned…" if EV15 has a value set for it for any person in the family subunit. For DISPLAY NAMES within that sentence, display only the first, middle, and last names of the

persons within the FAMILY SUBUNIT for which EV15 value is set.

For the fill 'VARIABLE QUESTION TEXT' Display the following:

For PERSON 1, always use a null display.

Display 'What about {PERSON 2}?' in brackets when the cursor is on the second person in the grid.

Replace the fill for PERSON 2 and display 'What about {PERSON 3}?' in brackets when the cursor is on the third person in the grid.

Replace the fill for PERSON 3 and display 'What about {PERSON 4}? [Since {START DATE}/between [{START DATE} and {END DATE}] has {he/she} been admitted to the hospital for any period of time?' when the cursor is on the fourth person in the grid.

Replace the fill for PERSON 4 and display 'What about {PERSON N}?' in brackets when the cursor is on the Nth person in the grid.

Repeat the variable text display for persons beyond that in the order specified above. Display first names only in the variable question text display.

Display the first three paragraphs in brackets and grayed out text after displaying the question for PERSON 1.
