### About Advance Designation

▲ [Hide information about advance designation](#)

You have the option to designate someone you trust to receive and manage your benefit payments on your behalf in the event you become unable to do so yourself.

SSA refers to this person as a representative payee. A representative payee is responsible for ensuring that payments are used for the beneficiary's food, shelter, medical, and personal needs. To be appointed as a representative payee, an individual must be able and willing to serve, and meet SSA selection requirements.

To learn more about representative payees, visit <https://www.ssa.gov/payee>.

To name or update your advance designees, please have their phone numbers available. Select the button below to continue with advance designation.

### Privacy Act Statement Collection and Use of Personal Information

Section 205(j) of the Social Security Act, as amended, allows us to collect this information, which we will use to maintain and update your advance designation of a representative payee. Providing this information is voluntary, but not providing all or part of the information may prevent us from selecting the representative payee(s) you designate to act on your behalf. As law permits, we may use and share the information you submit, including with other Federal, State, and local agencies, contractors, employers, and others, as outlined in the routine uses within System of Records Notice (SORN) 60-0089, available at <https://www.ssa.gov/privacy>. The information you submit may also be used in computer matching programs to establish or verify eligibility for Federal benefit programs and to recoup debts under these programs.

The reading of the Privacy Act statement (PAS) is covered in the current overall public burden on the form. The proposed change from a separate click through page, as previously submitted, to inclusion in an already existing page, as shown here, will have a positive effect on the currently calculated public burden as persons will now have one less page/click pass through in the process. Including the PAS on an existing page, rather than on its own separate click through page, will ensure the customer experience is more streamlined and fluid with fewer screens and clicks, while still ensuring the PAS is visible for full transparency with the public.
