SUPPLEMENTARY INFORMATION: FEMA's Office of Response & Recovery (ORR) owns and operates the Emergency Notification System (ENS). FEMA Directive 262-3 designates ENS as the Agency's solution for all notification and alerts activities. The ENS sends electronic notifications and relays messages, whether critical in nature, routine, or for testing purposes with appropriate authorization, to Department of Homeland Security (DHS) employees and contractors, as well as emergency response personnel. In accordance with Executive Order 12656, Presidential Policy Directive 40, and Federal Continuity Directive-1, all DHS organizational components must have in place a viable Continuity of Operations Planning capability and plan that ensures the performance of their essential functions during any emergency or situation that could disrupt normal operations. An effective ENS solution is a critical part of this plan.
