Note: The estimated annual IC time burden is the product, rounded to the nearest hour, of the estimated annual number of responses and the estimated time per response for a given IC. The estimated annual number of responses is the product, rounded to the nearest whole number, of the estimated annual number of respondents and the estimated annual number of responses per respondent. This methodology ensures the estimated annual burdens in the table are consistent with the values recorded in OMB's consolidated information system.

Note: The estimated annual IC time burden is the product, rounded to the nearest hour, of the estimated annual number of responses and the estimated time per response for a given IC. The estimated annual number of responses is the product, rounded to the nearest whole number, of the estimated annual number of respondents and the estimated annual number of responses per respondent. This methodology ensures the estimated annual burdens in the table are consistent with the values recorded in OMB’s consolidated information system.

General Description of Collection: Consumer Financial Protection Bureau (CFPB) Regulation Z—12 CFR 1026 implements the Truth in Lending Act (15 U.S.C. 1601, *et seq.*) and certain provisions of the Real Estate Settlement Procedures Act (12 U.S.C. 2601 *et seq.*). This regulation prescribes uniform methods for computing the cost of credit, the disclosure of credit terms and costs, the resolution of errors and imposes various other recordkeeping, reporting and disclosure requirements. The FDIC has enforcement authority on the requirements of the CFPB’s Regulation over the financial institutions it supervises. This information collection captures the recordkeeping, reporting, and disclosure burdens of Regulation Z on FDIC-supervised institutions. To arrive at the estimated annual burden the FDIC assessed the number of potential

respondents to the information collection by identifying the number of FDIC-supervised institutions who reported activity that would be within the scope of the information collection requirements according to data from the most recent Call Report. Additionally, the FDIC estimated the frequency of responses to the recordkeeping, reporting, or disclosure requirements by assessing the dollar volume of activity that would be within the scope of the information collection. In some instances, the FDIC used information provided by other sources to estimate the magnitude and scope of activity attributable to FDIC-supervised institutions when more immediate information sources did not exist.

The estimated annual burden, in hours, is the product of the estimated number of respondents per year, estimated number of responses per

respondent per year, and estimated hours per response, as summarized in Table 1 for the implementation burden and in Table 2 for the ongoing burden, below. The total estimated annual burden for this Information Collection Request (ICR) is 1,959,766 hours (288 hours estimated implementation burden, plus 1,959,488 hours estimated ongoing burden), which is a decrease of 71,838 hours from the 2021 estimate. As the estimated time per response remained the same from the 2021 ICR, the change in the total estimated annual burden hours is attributable to the decrease in the estimated number of respondents in Table 2.

Note: The estimated annual IC time burden is the product, rounded to the nearest hour, of the estimated annual number of responses and the estimated time per response for a given IC. The estimated annual number of responses is the product, rounded to the nearest whole number, of the estimated annual number of respondents and the estimated annual number of responses per respondent. This methodology ensures the estimated annual burdens in the table are consistent with the values recorded in OMB’s consolidated information system.

General Description of Collection: Regulations E & DD (Consumer Financial Protection Bureau’s Regulations) and Regulation CC (the Federal Reserve’s Regulation) ensure adequate disclosures regarding accounts, including electronic fund transfer services, availability of funds, and fees and annual percentage yield for deposit accounts. Generally, the Regulation E disclosures are designed to ensure consumers receive adequate disclosure of basic terms, costs, and rights relating to electronic fund transfer (EFT) services provided to them so that they can make informed decisions. Institutions offering EFT services must disclose to consumers certain information, including: Initial and updated EFT terms, transaction information, the consumer’s potential liability for unauthorized transfers, and error resolution rights and procedures. Like Regulation E, Regulation CC contains consumer protection disclosure requirements. Specifically, Regulation CC requires depository institutions to make funds deposited in transaction accounts available within specified time periods, disclose their availability policies to customers, and begin accruing interest on such deposits

promptly. The disclosures are intended to alert customers that their ability to use deposited funds may be delayed, prevent unintentional (and costly) overdrafts, and allow customers to compare the policies of different institutions before deciding at which institution to deposit funds. Depository institutions must also provide an awareness disclosure regarding substitute checks. The regulation also requires notice to the depository bank and to a customer of nonpayment of a check. Regulation DD also has similar consumer protection disclosure requirements that are intended to assist consumers in comparing deposit accounts offered by institutions, principally through the disclosure of fees, the annual percentage yield, and other account terms. Regulation DD requires depository institutions to disclose yields, fees, and other terms concerning deposit accounts to consumers at account opening, upon request, and when changes in terms occur.

Depository institutions that provide periodic statements are required to include information about fees imposed, interest earned, and the annual percentage yield (APY) earned during

those statement periods. It also contains rules about advertising deposit accounts. This Information Collection Request (ICR) is being revised as a result of the addition of five (5) new information collection requirements contained in CFPB’s Regulation E, Subpart B. The estimated annual burden, in hours, is the product of the estimated number of respondents per year, estimated number of responses per respondent per year, and estimated hours per response, as summarized in the Table above. The total estimated annual burden for this ICR is 546,946 hours, which is a decrease of 45,875 hours from our estimate in the 2021 memo (592,821 hours). This decrease can be explained largely by a decline in the number of FDIC-supervised IDIs from December 31, 2020 (the period used in the previous OMB renewal) to December 31, 2023. This decrease is attenuated by the inclusion of five ICs pertaining to recordkeeping and disclosure requirements associated with remittance transfers in Subpart B of CFPB Regulation E.

The estimated annual burden and change in burden, broken down by each Regulation (E, DD, and CC), is as follows:

Regulation	2021 Total annual burden (hours)	2024 Total annual burden (hours)	Change (hours)
CFPB Regulation E	28,950	38,297	+ 9,347
CFPB Regulation DD	223,594	201,688	– 21,906
FRB Regulation CC	340,277	306,961	– 33,316
Total Annual Burden	592,821	546,946	– 45,875
