

SUPPORTING STATEMENT
For the Paperwork Reduction Act Information Collection Submission for
Rule 12d1-1

A. JUSTIFICATION

1. Necessity for the Information Collection

An investment company (“fund”) is generally limited in the amount of securities the fund (“acquiring fund”) can acquire from another fund (“acquired fund”). Section 12(d) of the Investment Company Act of 1940 (the “Investment Company Act” or “Act”)¹ provides that a registered fund (and companies it controls) cannot:

- acquire more than three percent of another fund’s securities;
- invest more than five percent of its own assets in another fund; or
- invest more than ten percent of its own assets in other funds in the aggregate.²

In addition, a registered open-end fund, its principal underwriter, and any registered broker or dealer cannot sell that fund’s shares to another fund if, as a result:

- the acquiring fund (and any companies it controls) owns more than three percent of the acquired fund’s stock; or
- all acquiring funds (and companies they control) in the aggregate own more than ten percent of the acquired fund’s stock.³

Rule 12d1-1 under the Act provides an exemption from these limitations for “cash sweep” arrangements in which a fund invests all or a portion of its available cash in a money market fund rather than directly in short-term instruments.⁴ An acquiring fund relying on the

¹ See 15 U.S.C. 80a.

² See 15 U.S.C. 80a-12(d)(1)(A). If an acquiring fund is not registered, these limitations apply only with respect to the acquiring fund’s acquisition of registered funds.

³ See 15 U.S.C. 80a-12(d)(1)(B).

⁴ See 17 CFR 270.12d1-1.

exemption may not pay a sales load, distribution fee, or service fee on acquired fund shares, or if it does, the acquiring fund's investment adviser must waive a sufficient amount of its advisory fee to offset the cost of the loads or distribution fees.⁵ The acquired fund may be a fund in the same fund complex or in a different fund complex. In addition to providing an exemption from section 12(d)(1) of the Act, the rule provides exemptions from section 17(a) of the Act and rule 17d-1 thereunder, which restrict a fund's ability to enter into transactions and joint arrangements with affiliated persons.⁶ These provisions would otherwise prohibit an acquiring fund from investing in a money market fund in the same fund complex,⁷ and prohibit a fund that acquires five percent or more of the securities of a money market fund in another fund complex from making any additional investments in the money market fund.⁸

The rule also permits a registered fund to rely on the exemption to invest in an unregistered money market fund that limits its investments to those in which a registered money

⁵ See rule 12d1-1(b)(1).

⁶ See 15 U.S.C. 80a-17(a), 15 U.S.C. 80a-17(d); 17 CFR 270.17d-1.

⁷ An affiliated person of a fund includes any person directly or indirectly controlling, controlled by, or under common control with such other person. See 15 U.S.C. 80a-2(a)(3) (definition of "affiliated person"). Most funds today are organized by an investment adviser that advises or provides administrative services to other funds in the same complex. Funds in a fund complex are generally under common control of an investment adviser or other person exercising a controlling influence over the management or policies of the funds. See 15 U.S.C. 80a-2(a)(9) (definition of "control"). Not all advisers control funds they advise. The determination of whether a fund is under the control of its adviser, officers, or directors depends on all the relevant facts and circumstances. See Investment Company Mergers, Investment Company Act Release No. 25259 (Nov. 8, 2001) [66 FR 57602 (Nov. 15, 2001)], at n.11. To the extent that an acquiring fund in a fund complex is under common control with a money market fund in the same complex, the funds would rely on the rule's exemptions from section 17(a) and rule 17d-1.

⁸ See 15 U.S.C. 80a-2(a)(3)(A), (B).

market fund may invest under rule 2a-7 under the Act, and undertakes to comply with all the other provisions of rule 2a-7.⁹ In addition, the acquiring fund must reasonably believe that the unregistered money market fund (i) operates in compliance with rule 2a-7, (ii) complies with sections 17(a), (d), (e), 18, and 22(e) of the Act¹⁰ as if it were a registered open-end fund, (iii) has adopted procedures designed to ensure that it complies with these statutory provisions, (iv) maintains the records required by rules 31a-1(b)(1), 31a-1(b)(2)(ii), 31a-1(b)(2)(iv), and 31a-1(b)(9);¹¹ and (v) preserves permanently, the first two years in an easily accessible place, all books and records required to be made under these rules.

2. Purpose and Use of the Information Collection

Rule 2a-7 contains certain collection of information requirements. An unregistered money market fund that complies with rule 2a-7 would be subject to these collection of information requirements. In addition, the recordkeeping requirements under rule 31a-1 with which the acquiring fund reasonably believes the unregistered money market fund complies are collections of information for the unregistered money market fund. The adoption of procedures by unregistered money market funds to ensure that they comply with sections 17(a), (d), (e), 18, and 22(e) of the Act also constitute collections of information. By allowing funds to invest in registered and unregistered money market funds, rule 12d1-1 is intended to provide funds greater options for cash management. In order for a registered fund to rely on the exemption to invest in an unregistered money market fund, the unregistered money market fund must comply with

certain collection of information requirements for registered money market funds. These requirements are intended to ensure that the unregistered money market fund has established procedures for collecting the information necessary to make adequate credit reviews of securities in its portfolio, as well as other recordkeeping requirements that will assist the acquiring fund in overseeing the unregistered money market fund (and Commission staff in its examination of the unregistered money market fund's adviser).

3. Consideration Given to Information Technology

Rule 31a-2(f) under the Act permits funds to maintain many types of records on micrographic and electronic storage media.

4. Duplication

The Commission periodically evaluates rule-based reporting and recordkeeping requirements for duplication and reevaluates them whenever it proposes a rule or a change in a rule. The conditions in rule 12d1-1 are not duplicated elsewhere.

5. Effect on Small Entities

Rule 12d1-1 does not distinguish between small entities and other unregistered funds. The rule does not apply directly to unregistered money market funds, which are not regulated by the Commission. The Commission does not believe that to the extent an unregistered money market fund complies with the rule's requirements in order to sell its shares to a registered fund relying on the rule, the collection of information is unduly burdensome.

We review all Commission rules periodically, as required by the Regulatory Flexibility Act, to identify methods to minimize recordkeeping or reporting requirements affecting small entities.

6. Consequences of Not Conducting Collection

Rule 2a-7 requires for retail and government money market funds, that a fund's board adopt written procedures designed to stabilize the fund's net asset value and also adopt guidelines regarding the delegation of certain responsibilities. None of these is a recurring obligation. The rule also requires money market funds to perform periodic analyses of portfolio securities and reviews of the credit risks associated with those securities. The frequency of these reviews is within the fund's discretion. The reviews are necessary to ensure that securities that remain in a fund's portfolio continue to present minimal credit risks.

7. Inconsistencies with Guidelines in 5 CFR 1320.5(d)(2)

Unregistered money market funds that sell their shares to registered funds that rely on rule 12d1-1 are required to keep certain records for more than three years. The Commission believes that the long-term retention of records is necessary to carry out its examination and enforcement responsibilities, and its mandate to ensure that the Act's provisions are legally enforceable. Under the rule, registered funds may invest in unregistered funds that meet certain conditions, including having an adviser that is registered with the Commission. Commission staff periodically inspects the operations of registered funds and registered investment advisers to ensure compliance with the rules and regulations under the Act and the Investment Advisers Act of 1940, as amended.¹² For those advisers who also advise an unregistered money market fund that sells shares to registered funds in reliance on rule 12d1-1, Commission staff also inspects for compliance with the conditions in the rule. Nevertheless, each fund or adviser may be inspected only at intervals of several years due to limits on the Commission's resources. For this reason,

¹² 15 U.S.C. §80b-1.

the Commission often needs information relating to events or transactions that occurred years ago. Computerized record storage has made long-term retention of records less burdensome.

8. Consultation Outside the Agency

Before adopting rule 12d1-1, the Commission received and evaluated public comments on the proposed rule and its collection of information requirements. In addition, the Commission and staff of the Division of Investment Management participate in an ongoing dialogue with representatives of the fund industry through public conferences, meetings, and informal exchanges. The Commission requested public comment on the collection of information requirements in rule 12d1-1 before it submitted this request for extension and approval to the Office of Management and Budget. The Commission received no comments in response to its request.

9. Payment or Gift

Not applicable.

10. Confidentiality

Not applicable.

11. Sensitive Questions

No information of a sensitive nature, including social security numbers, will be required under this collection of information. The information collection does not collect personally identifiable information (PII). The agency has determined that a system of records notice (SORN) and privacy impact assessment (PIA) are not required in connection with the collection of information.

12. Burden of Information Collection

The following estimates of average burden hours and costs are made solely for purposes of the Paperwork Reduction Act of 1995 (“PRA”)¹³ and are not derived from a comprehensive or even representative survey or study of the cost of Commission rules and forms.

The number of unregistered money market funds that are affected by rule 12d1-1 is an estimate based on the number of liquidity funds reported on Form PF as of the third calendar quarter 2023.¹⁴ The hour burden estimates for the condition that an unregistered money market fund comply with rule 2a-7 are based on the burden hours included in the Commission’s 2022 PRA extension regarding rule 2a-7.¹⁵ However, we have updated the estimated costs associated using the following methodology:

- For professional personnel: SIFMA’s *Management & Professional Earnings in the Securities Industry 2013*, modified for 2024 by Commission staff to account for an 1800-hour work-year and inflation, and multiplied by 5.35 to account for bonuses, firm size, employee benefits, and overhead;

¹⁵ See Securities and Exchange Commission, Request for OMB Approval of Extension for Approved Collection for Rule 2a-7 under the Investment Company Act of 1940 (OMB Control No. 3235-0268) (approved August 3, 2022) (“2022 rule 2a-7 PRA extension”), *available at* https://www.reginfo.gov/public/do/PRAViewICR?ref_nbr=202109-3235-024. The 2022 rule 2a-7 PRA extension is the most recent rule 2a-7 submission that includes certain estimates with respect to aggregate annual hour and cost burdens for collections of information for registered money market funds.

- For a fund board of directors: SIFMA data does not include a board of directors. For board time, Commission staff currently uses a cost of \$5,672 per hour, which was last adjusted for inflation in December 2023. This estimate assumes an average of nine board members per year; and
- For clerical personnel: SIFMA's *Office Salaries in the Securities Industry 2013*, modified for 2024 by Commission staff to account for an 1800-hour work-year and inflation, and multiplied by 2.93 to account for bonuses, firm size, employee benefits, and overhead.

The estimated burden of information collection for rule 2a-7 is set forth in Table 1 below. We use these estimated burdens for registered money market funds to extrapolate the information collection burdens for unregistered money market funds under rule 12d1-1 in Table 2 below.

Table 1: Rule 2a-7 burden of information collection for registered money market funds¹⁶

	Estimated Responses	Estimated Burden Hours	Estimated Internal Cost Burden
Record of credit risk analyses, and determination regarding adjustable rate securities, asset backed securities, securities subject to a demand feature or guarantee, and counterparties to repurchase agreements			
	85 responses annually for each of 320 funds ¹⁷ =	680 burden hours of professional (business analyst or portfolio manager) time per fund x 320 funds	[((\$276 per hour (intermediate business analyst) + \$396 per hour (senior portfolio manager) = \$672)] ÷ 2 = \$336 median weighted average per hour \$336 x 217,600 (hours) =

¹⁶ The estimated responses and hour burdens shown in this chart were included in the Securities and Exchange Commission, Request for OMB Approval of Extension for Approved Collection for Rule 2a-7 under the Investment Company Act of 1940 (OMB Control No. 3235-0268) (approved August 3, 2022) (the “2022 rule 2a-7 PRA extension”). The 2022 rule 2a-7 PRA extension was the most recent rule 2a-7 submission that includes certain estimates with respect to aggregate annual hour and cost burdens for collections of information for registered money market funds.

However, the cost burdens shown in this chart have been updated. The cost burdens for professional personnel are based on SIFMA’s *Management & Professional Earnings in the Securities Industry 2013*, modified for 2024 by the Commission staff to account for an 1800-hour work –year and inflation, and multiplied by 5.35 to account for bonuses, firm size, employee benefits and overhead, while the cost burdens for clerical personnel are based on SIFMA's Office Salaries in *the Securities Industry 2013*, modified for 2024 by Commission staff to account for an 1800-hour work-year and inflation, and multiplied by 2.93 to account for bonuses, firm size, employee benefits and overhead. However, SIFMA data does not include a board of directors. For board time, Commission staff currently uses a cost of \$5,672 per hour, which was last adjusted for inflation in 2023. This estimate assumes an average of nine board members per year.

²¹ We estimated that approximately two new money market funds would seek to qualify as retail money market funds under rule 2a-7 and therefore be required to adopt written policies and procedures reasonably designed to limit beneficial owners to natural persons.

For purposes of the 2022 rule 2a-7 PRA extension, Form N-MFP data reflects that none of the 10 new money market funds created per year between May 2018 through May 2021 elected to be retail funds. Despite this, we continue to estimate that 2 new money market funds per year would elect to be retail funds to avoid potentially underestimating the burden associated with these requirements.

²² The cost burdens shown in this chart for professional personnel are based on SIFMA’s *Management & Professional Earnings in the Securities Industry 2013*, modified for 2024 by the Commission staff to account for an 1800-hour work –year and inflation, and multiplied by 5.35 to account for bonuses, firm size, employee benefits and overhead and the cost burdens for clerical personnel are based on SIFMA’s *Office Salaries in the Securities Industry 2013*, modified for 2024 by Commission staff to account for an 1800-hour work-year and inflation, and multiplied by 2.93 to account for bonuses, firm size, employee benefits and overhead. However, SIFMA data does not include a board of directors. For board time, Commission staff currently uses a cost of \$5672 per hour, which was last adjusted for inflation in December 2024. This estimate assumes an average of nine board members per year.

We use these estimated burdens for registered money market funds to extrapolate the information collection burdens for unregistered money market funds under rule 12d1-1 in this Table 2.

²³ The number of liquidity funds is based on the following: 68 x the percentage of liquidity funds that are at least partially in compliance with the risk-limiting provisions of rule 2a-7, or $100 - 52 = 48\%$. The result (rounded up to a whole number) is 33 liquidity funds ($68 * 0.48 = 33$). The number of liquidity funds and percentage of funds that are at least partially compliant with the risk-limiting provisions of rule 2a-7 is based on the U.S. Securities and Exchange Commission’s Division of Investment Management – Analytics Office Private Funds Statistics,

³³ In the context of registered money market funds, we have previously estimated an average of approximately 2 occurrences for 20 funds each year; however, this number may vary significantly in any particular year. For purposes of this PRA extension, we assumed there would be same proportion of unregistered money market funds experiencing events of default or solvency each year. (20/320 registered money market funds = approximately 5%. 5% x 33 liquidity funds = approximately 2 liquidity funds)

13. Cost to Respondents

Commission staff estimates that in addition to the internal costs described in section 12, unregistered money market funds will incur external costs to preserve records, as required under rule 2a-7. These costs will vary significantly for individual funds, depending on the amount of assets under fund management and whether the fund preserves its records in a storage facility in hard copy or has developed and maintains a computer system to create and preserve compliance records. In the 2022 rule 2a-7 PRA extension, Commission staff estimated that the amount an individual money market fund may spend ranges from \$100 per year to \$300,000. We have no reason to believe the range is different for unregistered money market funds. Based on Form PF data as of the third calendar quarter 2023, liquidity funds have \$361 billion in gross asset value.³⁴ The Commission does not have specific information about the proportion of assets held in small, medium-sized, or large unregistered money market funds. Because liquidity funds are often used as cash management vehicles, the staff estimates that each private liquidity fund is a “large” fund (*i.e.*, more than \$1 billion in assets under management). Based on a cost of \$0.0000009 per dollar of assets under management (for large funds),³⁵ the staff estimates compliance with the record storage requirements of rule 2a-7 for these unregistered money market funds costs approximately \$324,900 annually.³⁶

³⁴ See U.S. Securities and Exchange Commission, Division of Investment Management, Analytics Office, Private Fund Statistics, Third Quarter 2023 (March 31, 2024), Table 3.

³⁵ The cost estimate is the same as that used in the most recently approved rule 2a-7 submission.

³⁶ This estimate is based on the following calculation: (\$361 billion x 0.0000009) = \$324,900 for large funds.

Consistent with estimates made in the rule 2a-7 submission, Commission staff estimates that unregistered money market funds also incur capital costs to create computer programs for maintaining and preserving compliance records for rule 2a-7 of \$0.0000132 per dollar of assets under management. Based on the assets under management figures described above, staff estimates annual capital costs for all unregistered money market funds of \$4.76 million.³⁷

Commission staff further estimates that, even absent the requirements of rule 2a-7, money market funds would spend at least half of the amounts described above for record preservation (\$162,450) and for capital costs (\$2.38 million). Commission staff concludes that the aggregate annual external costs of compliance with the rule are \$162,450 for record preservation and \$2.38 million for capital costs, or a total of \$2.54 million.

14. Cost to the Federal Government

There are no costs to the Federal Government associated with rule 12d1-1.

15. Change in Burden

The estimated total annual burden decreased from 33,660 hours to 27,384 hours. The decrease in hours is attributable to a decrease in our estimate of the number of fund complexes with liquidity funds invested in by mutual funds in excess of the statutory limits under rule 12d1-1.

³⁷ This estimate is based on the following calculation: (\$361 billion x 0.0000132) = \$4.76 million.

The estimated total annual cost decreased from \$10.93 million annually to \$2.54 million annually.³⁸ The decrease in cost is attributable to a decrease in our estimate of liquidity funds as reported on Form PF data, and the correction of a previous calculation error.
