

APPENDIX F01.03. SFPS QUARTERLY PROGRAM DATA FORM (GROUPS 1A AND 1B)

OMB Control No: 0584-XXXX
Expiration Date: XX/XX/20XX

This information is being collected to assist the Food and Nutrition Service in understanding school food purchasing practices, the nutritional quality of school meals and snacks, the cost to produce school meals, and student participation and dietary intakes. This is a mandatory collection and FNS will use the information to monitor program operations. This collection does not request any personally identifiable information under the Privacy Act of 1974. According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0584-[xxxx]. The time required to complete this information collection is estimated to average 0.25 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: U.S. Department of Agriculture, Food and Nutrition Service, Office of Policy Support, 1320 Braddock Place, 5th Floor, Alexandria, VA 22314 ATTN: PRA (0584-xxxx). Do not return the completed form to this address.

Quarterly Program Data

Number of serving days and number of meals served

ALL

- Record the number of serving days and the number of student lunches and student breakfasts served/claimed, indicating whether they were full price (paid), reduced price, or free.

If your district operates the Community Eligibility Provision (CEP) or provisions 2 or 3, or offers free meals for all students, indicate the number of meals claimed in each reimbursement category. Please provide this information for Quarter [1/2/3/4], [DATE RANGE].

Nonprogram food sales (i.e., a la carte or competitive foods)

ALL

2. Did any of the schools in your school district offer nonprogram foods in Quarter [1/2/3/4], [DATE RANGE]?

Nonprogram foods, which some districts may refer to as a la carte or competitive foods, are those that are priced and sold on an individual item basis rather than as a unit or complete meal. This includes any foods for which your SFA does not receive reimbursement from USDA, including items from a reimbursable meal if sold separately and sales through vending machines or at school stores of foods or beverages purchased through the nonprofit school food service account. Do *NOT* include Special Milk Program, adult, or visitor meals.

3. List the 10 top selling nonprogram foods for elementary and middle/secondary schools. Describe in general terms (e.g. hamburgers, french fries, potato chips, apples, milk, ice cream, cookies, etc.). If possible, base your response on nonprogram dollar sales for Quarter [1/2/3/4], [DATE RANGE], ranked from largest to smallest. If that is not possible, please give us your best judgment as to what were the leading nonprogram foods during that period.

For each item listed, please estimate the percentage share of total dollar sales of that item that was from nonprogram foods sales during this period. For example:

- If there is an item that is only sold as nonprogram foods (e.g., chips, cookies), please fill in 100% in the space next to that item.
- If there is an item that is sold both as nonprogram foods and as part of the reimbursable meal (e.g. pizza, cookies, hamburgers, subs), then please estimate the percentage of the total value of the item sold as nonprogram foods. For example, if the value of total pizza sales consisted of 15% from nonprogram foods sales and 85% from reimbursable meal sales then please write in 15% on the line next to pizza.
- Since most of the items included on this list will represent aggregations of several individual food products (e.g. "cookies" might include 10 or 20 different types, package sizes, flavors, etc.), record the percentage share that applies to the entire group of products.
