Preliminary Questions – Section A

I will first ask some general questions and then we will review staff time and food service costs. Let’s start with the types of kitchens in your SFA.

A1. This school year, does the SFA have any...

PROBE: Exclude any special arrangements that are only in place for summer food production.

Type of kitchen	Yes	No
a. <i>{SFAIndpKitch}</i> School-based kitchens, which prepare meals for serving at only the school where the kitchen is located?	1	0
b. <i>{SFACentralKitch}</i> Central kitchens, which are non-school facilities that prepare meals for serving at schools in the SFA?	1	0
c. <i>{SFAREgKitch}</i> Regional kitchens, which are school-based and prepare meals for serving at both the school where the kitchen is located and for sending to other schools?	1	0

SFA Staff Salary and Time Allocation Grid – Section B

PART 1: STAFF EMPLOYED BY THE SFA

PREFILL RFIRSTNAME AND RLASTNAME FOR ALL RESPONDENTS ADDED IN INTRODUCTION AND CONTACT INFORMATION MODULE

B0. {R_SFASTAFF} WHO IS COMPLETING THE MODULE?

SELECT ALL THAT APPLY

- [RFIRST NAME1] [RLASTNAME1]..... 1
- [RFIRST NAME2] [RLASTNAME2]..... 2
- OTHER..... 99

PROGRAMMER BOX
 IF R_SFASTAFF=99, LOOP BACK TO R_FIRSTNAME TO ADD RESPONDENT.

B1. Does the SFA employ the following types of central food service staff? Please include all staff whose time is charged to the school food service account, even if part of their wages are paid from a non-food service account. We will collect information about staff who work in support of the SFA, but are not paid out of the school food service account, in a separate section.

CENTRAL STAFF GRID		Employed by SFA?	
		Yes	No
a.	{EmploySFAD} SFA director	1	0
b.	{EmployAdmin} Administrative or clerical staff	1	0
c.	{EmployMaintenance} Maintenance staff	1	0
d.	{EmployWarehouse} Warehouse staff	1	0
e.	{EmployDriver} Drivers (include ALL drivers)	1	0
f.	{EmployNutritionist} Nutritionists	1	0
g.	{EmployRegional} Staff supervising multiple kitchens (e.g. regional managers)	1	0

Now we are going to create a central food service staff roster, based on the types of staff you just told me are employed by the SFA. The roster will help us to analyze the cost of direct labor for your central food service staff. I will ask you to list the different job titles or positions of all central staff, listing regular, part-time, and temporary staff separately, even if they have the same title. Again, please include any staff on the food service payroll. This needs to account for every person who works for the SFA and is not based in an individual school. Note that even staff who conduct an SFA-level activity only one time should be included here. The purpose of this roster is to collect enough salary information to calculate what one hour of staff time costs per person, title, or position.

INTERVIEWER: REFER TO HANDOUT 3: CENTRAL FOOD SERVICE STAFF INTERVIEW GUIDE AND HANDOUT 4: SAMPLE STAFF SALARY GRID, LOCATED IN THE INTERVIEW REFERENCE GUIDE.

As we go through, please:

- **Do not include anyone who only works in a school or school kitchen.**
- **Do not include anyone who only works in a central kitchen – in other words, a kitchen that prepares food to be sent off-site only, and does not serve food on-site.**
- **Please include all drivers, even if they may be considered school-specific.**

B2. I can group staff with the same position together if the following three conditions are met: they work the same number of hours per week, they work the same number of weeks per year, and they work the same amount of time on the same type of central food service activities throughout the year. If these are not all true for the staff group, I will collect their salary information separately. As we go through each type of staff, please let me know if they can be grouped together.

First, thank you for providing a copy of your SFA’s preliminary expense statement prior to this visit. Members of our team pulled information from this statement and populated a grid. I am going to pull this pre-filled grid up on my computer and walk through it with you now to make sure what we have is accurate and complete. I also have a copy of the expense statement provided for reference.

D1. {Prelim_ExpPeriod} INTERVIEWER: FOR THIS ITEM, FILL THE SCHOOL YEAR OF THE PRELIMINARY EXPENSE STATEMENT THAT WAS PROVIDED AND THE DATES THAT IT COVERED:

I see the expense statement covers the [YYYY-YYYY] school year, and covers [DATE] to [DATE]. Is that correct?

INTERVIEWER: FILL DATES ENTERED. IF INCORRECT, OVERWRITE FIELDS WITH THE CORRECTED DATES.

PERIOD COVERED BY STATEMENT:

|_|_|_|/|_|_|_|/|_|_|_|_| to |_|_|_|/|_|_|_|/|_|_|_|_|

HARD CHECK: Check year falls between 2021-2025. Check that month is 1-12. Check day is between 1 and 31. If date entered falls outside this range in the "From" field: "Please enter a value for **From** between 1/1/2021 and 12/31/2025." If date entered falls outside this range in the "To" field: "Please enter a value for **To** between 1/1/2021 and 12/31/2025."

HARD CHECK: IF DATE ENTERED FOR "FROM" IS NOT A REAL DATE: The date entered for **From** is not a real date.

HARD CHECK: IF DATE ENTERED FOR "TO" IS NOT A REAL DATE: The date entered for **To** is not a real date.

THE ABTRACTOR WILL BE ENTERING THIS GRID FIRST AND FILLING IN THE LINE ITEMS OF THE SFA'S EXPENSE STATEMENT. IN SOME CASES THE ABTRACTOR WILL FILL IN COLUMN A AND B. IN OTHER CASES THE ABTRACTOR WILL NOT BE ABLE TO FILL IN COLUMN B AND THEY WILL LEAVE A NOTE IN COLUMN C. WHEN THEY HAVE COMPLETED THEIR ABSTRACTION FOR THE DISTRICT THEY WILL NEED TO SAVE THEIR ANSWERS AND CLOSE OUT OF THE INSTRUMENT. HIDE COLUMNS D AND E FOR ABTRACTORS (ABSTRACTOR_FI=1). This concludes our preliminary review of your SFA's expenses. When the final food service expense statement for the 2024-2025 school year is available, we will review that statement with you by telephone or in a virtual meeting next fall to ask some follow-up questions. In the next section, I am going to ask you about staff time and salaries for people who work on food service activities but are not paid from the food service account.

OFF-BUDGET STAFF INTERVIEW

In this part of the interview, we will talk about the labor or other costs that support central food service operations but are paid out of a non-food service account. These are costs that are not charged as direct costs nor included in the school district’s indirect cost rate. We will refer to these as “off-budget costs.”

First, we need to identify if the costs for the functions that support central food service operations are treated as direct costs, indirect costs, or handled some other way. If the food service department does not use a particular support function, let me know. I will take into account what you have already told me about indirect costs charged to the food service account and will just ask for confirmation on these items.

G1. For each of the following tasks, if they are performed in support of central food service, are the costs associated with this task charged directly to food service, are they part of the school district’s indirect cost rate, or are they charged somewhere else?

INTERVIEWER: IF RESPONSE IS PRE-FILLED FROM STATE AGENCY INDIRECT COST SURVEY, JUST CONFIRM RESPONSE. “ACCORDING TO MY INFORMATION, THE COSTS ASSOCIATED WITH THIS TASK ARE PART OF THE SCHOOL DISTRICT’S INDIRECT COST RATE. IS THAT CORRECT?”

OFF-BUDGET STAFF ROSTER INTRODUCTION

GROUP=(3 OR FOA) AND ISFSMC=0 AND ANY SUPP_OB*=1 (I.E., THEY REPORTED HAVING OFF-BUDGET LABOR IN G1)

G2. Now I would like to get information on the jobs and costs of the school district staff and employees of other agencies who provide the support functions we have just discussed. I want to list staff whose labor we have identified as “off-budget.”

These are the labor costs that are neither charged directly to the food service account nor included in the indirect cost rate. These could be school district staff or other government agency staff. We will not discuss any costs incurred at the school level by non-food service school staff because we will get this information during interviews with the principals of the sampled schools. We will also not discuss the labor costs that are included in the district’s indirect cost rate or allocation plan.

For the next set of questions, we need to account for every person that works on food service activities whose salary, at least in part, is not charged to the SFA’s budget. Staff should be listed by title or position.

I can group staff with the same position together if the following three conditions are met: they work the same number of hours per week, they work the same number of weeks per year, and they work the same amount of time on central food service activities throughout the year. If these are not all true for the staff group, I will collect their salary information separately. As we go through each type of staff, please let me know if they can be grouped together.

HANDOUT 1: Food Vendor Documents

We will review your documentation from all vendors for commercially purchased food items, USDA Foods shipments, DoD Fresh shipments, and Unprocessed Pilot shipments in order to help us calculate the unit price of foods used by this SFA during the scheduled week(s) of data collection. To determine the total cost of producing school meals, we need to calculate the cost of foods. We need to know what the SFA paid for both food items served as-is and food ingredients used in recipes that the SFA prepares.

For each food type listed in Handout 2, we would like enough documentation to calculate a **UNIT PRICE** for each food item. Please consider all vendors who supply foods to your SFA.

We are especially interested in any foods that are served during the target week(s). This includes food in inventory and foods purchased close to the target week. We will use this information to calculate the cost of the foods that are reported in the Menu Survey for each sampled school.

To do this, we are asking for the following types of documents, if available:

- Summary:** a report with price information on all foods purchased
- Invoice:** information for food purchased or delivered at a particular time. Multiple invoices may be needed for a single vendor
- Other:** includes bid lists or contracts with prices for foods, or inventory reports with foods from multiple vendors

When possible, documents should include:

- **Product name**
- **Brand**
- **Unit size**
- **Unit price – or – Total cost & number of cases**

For example:

- 2 cases of six #10 cans of Joe's Crushed Tomatoes
Price per case = \$10.00
- 2 x 10 lb. box of fresh peaches
Total price for 2 boxes = \$25.00

REMEMBER:

THE GOAL IS TO PROVIDE ENOUGH INFORMATION TO CALCULATE PRICE PER UNIT.

HANDOUT 7: Definitions for Support Function Cost Grid

We will identify which of the below functions support central food service operations and if they are treated as direct costs, indirect costs, or handled some other way (i.e., “off-budget” functions).

Programs are activities or services, such as instruction and food service, that have identifiable direct costs. These direct costs may be charged to grants or other special-purpose accounts, or to the school district’s general fund.

Indirect costs are costs incurred for the benefit of multiple programs, functions, or other cost objectives and therefore cannot be identified readily and specifically with a particular program or other cost objective. They typically support administrative overhead functions such as fringe benefits, accounting, payroll, purchasing, facilities management, utilities, etc. (from *Indirect Costs: Guidance for State Agencies & School Food Authorities*).

The support functions are defined as follows:

Accounting, budget, finance, and payroll includes tasks to process payments to and from the school district, maintain financial records, manage cash, and produce financial reports.

Information technology includes all support for mainframe, server, and client computers, and for communications networks (voice and data).

Administration of personnel, benefits, and human resources includes recruiting, hiring, enrollment/disenrollment in benefit plans, and other human resource (HR) administration functions. This does not include the costs of non-HR personnel or the cost of employee benefits (health/dental insurance, pension/retirement, tuition assistance etc.).

Purchasing and contracting includes solicitation and review of bids for purchases and contracts, preparation and negotiation of purchasing agreements and contracts, processing purchase requests and purchase orders, and managing contracts (other than processing of contractor invoices).

General administration and policy includes labor costs for the Superintendent and School Board, and other administration not listed elsewhere.

Custodial and janitorial means routine cleaning, storage, setting up/rearranging furniture, and other work performed by staff or contractors whose primary work is these activities.

Building operations and maintenance means services of this type not provided by custodial/janitorial staff, particularly more skilled services (such as heating/ventilation/air conditioning maintenance or repair).

Equipment and vehicle operations and maintenance includes management of motor pools, routine maintenance and repair of vehicles, and routine maintenance and report of equipment.

Refuse disposal, pest control, other sanitation refers to when these services are not performed as part of “custodial and janitorial” or “building operation and maintenance” services.

Security includes tasks to ensure the safety of students, school district personnel, and school district property.

Storage and transportation of goods refers to when these services are not performed as part of “custodial and janitorial” or “building operation and maintenance” services.

Providing and maintaining uniforms includes obtaining, distributing, and cleaning uniforms for school district personnel.

Medical/health services and supplies refers to school-based health services such as a school nurse, traditional first aid, administration of medications, screening services (vision, hearing, counseling, mental health services, etc.).

We will ask the following questions about staff whose “off-budget” hours cannot be estimated into percent time spent by activity (Grid B of Handout 9).

Please refer to below example grid for questions 1-3. These questions will be asked for each title or position marked as needing the process grid in the time allocation grid.

1. **What activities does this staff member do in support of food service?**
 - List all activities or tasks and answer each of the following questions about each activity.

2. **How many hours per week does each person of this type spend on this task during the 2024-2025 school year?**
 - If hours per week are hard to estimate, I can also record hours per day, month, or year.
 - If this is a task that is done many times, tell me how long it takes to do the task once and then how often it’s done. If it is a one-time or infrequent step, you can just tell me the time spent per year by this type of employee on the task.

3. **How many weeks during the 2024-2025 school year is this task done?**
 - If number of weeks is hard to report, I can also report number of days or months per year.

INTERVIEWER: SHARE SCREEN. IF LINE ITEM CODED TO CATEGORY, ASK IF COST ALSO IS INCLUDED SOMEWHERE ELSE. FOR EXAMPLE, "FOR [EXPENSE CATEGORY], WE HAVE THAT COVERED IN [LINE ITEM(S)]. DOES THE SFA HAVE ANY OTHER COSTS FOR THIS CATEGORY, EITHER DOCUMENTED SOMEWHERE OTHER THAN YOUR EXPENSE STATEMENT OR FOR WHICH YOU'RE CHARGED INDIRECTLY OR DON'T PAY FOR AT ALL?" IF NO LINE ITEM CODED, IN COLUMN A, ASK WHY THE EXPENSE CATEGORY IS NOT INCLUDED ON THE EXPENSE STATEMENT. FOR EXAMPLE, "WE DIDN'T CODE ANY LINE ITEMS TO THIS CATEGORY. IS THAT BECAUSE THE SFA DOESN'T USE THESE SERVICES, OR ARE THE COSTS FOR THIS COVERED SOMEWHERE ELSE, SUCH AS ON A SEPARATE DOCUMENT, COUNTED AS INDIRECT COSTS, OR PAID FOR BY ANOTHER ENTITY?". "NO APLICAMOS UN CÓDIGO PARA ESTA CATEGORÍA A NINGUNA LÍNEA DE PEDIDO. ¿ES ESO PORQUE LA SFA NO USA ESTOS SERVICIOS, O LOS COSTOS DE ESTO ESTÁN CUBIERTOS EN OTRO LUGAR, COMO EN UN DOCUMENTO SEPARADO, CONTADOS COMO COSTOS INDIRECTOS, O PAGOS POR OTRA ORGANIZACIÓN?"

Ya terminamos nuestra revisión preliminar de los gastos de su SFA. Cuando la declaración de gastos final del servicio de alimentos del año escolar 2024 - 2025 esté disponible, revisaremos con usted esa declaración por teléfono o en una reunión virtual el próximo otoño para hacer algunas preguntas de seguimiento. En la próxima sección, le voy a preguntar sobre el tiempo del personal y los salarios de las personas que trabajan en actividades del servicio de alimentos pero no reciben pago de la cuenta del servicio de alimentos.

MATERIAL DE APOYO 2: Lista de Alimentos para la Hoja de Trabajo de Costos de Alimentos del SFA	2
MATERIAL DE APOYO 6: Categorías y Definiciones de Gastos	3

MATERIAL DE APOYO 1: Documentos del Proveedor de Alimentos

Nosotros revisaremos su documentación de todos los proveedores de alimentos adquiridos comercialmente, envíos de Alimentos de USDA, envíos de Alimentos Frescos DoD, y envíos del proyecto Unprocessed Pilot para ayudarnos a calcular el precio por unidad de los alimentos utilizados por el SFA durante la(s) semana(s) de recolección de datos. Para determinar el costo total en la producción de alimentos escolares, necesitamos calcular el costo de los alimentos. Nosotros necesitamos saber que ha pagado el SFA tanto por alimentos servidos, como por ingredientes utilizados en recetas de alimentos que el SFA prepara.

Para cada tipo de alimento listado en el Material de Apoyo 2, nos gustaría contar con documentación suficiente para calcular el PRECIO POR UNIDAD para cada alimento. Por favor, considere a todos los proveedores quienes suministran alimentos a su SFA.

Estamos especialmente interesados en cualquier alimento que se sirva en la(s) semana(s) de recolección de datos. Esto incluye alimentos del inventario y alimentos comprados cerca de la semana de recolección de datos. Usaremos esta información para calcular el costo de alimentos reportados en la Encuesta de Menús para cada escuela seleccionada.

Para hacer esto, le pedimos los siguientes tipos de documentos, si están disponibles:

- Resumen:** un reporte con la información de precios de todos los alimentos comprados.
- Factura:** información de alimentos comprados y entregados en una fecha determinada. Se pueden necesitar varias facturas de un mismo proveedor.
- Otros:** incluye listas de subastas y contratos con precios por alimentos, o reportes de inventarios con alimentos de múltiples proveedores.

De ser posible, los documentos deben incluir:

- **Nombre del Producto**
- **Marca**
- **Tamaño de la unidad**
- **Precio por unidad – o – Costo Total y Número de Cajas**

Por ejemplo:

- 2 cajas de seis latas del #10 de Tomates Picados marca Joe's
Precio por caja = \$10.00
- 2 cajas de 10 lb c/u. de duraznos frescos
Precio Total por las 2 cajas = \$25.00

RECUERDE:

EL OBJETIVO ES PROPORCIONAR SUFICIENTE INFORMACIÓN PARA CALCULAR EL PRECIO POR UNIDAD.
