[RTID 0648–XD739]

New England Fishery Management Council (NEFMC); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The New England Fishery Management Council (Council) is scheduling a joint public meeting of its Monkfish and Dogfish Committees via webinar to consider actions affecting New England fisheries in the exclusive economic zone (EEZ). Recommendations from this group will be brought to the full Council for formal consideration and action, if appropriate.

DATES: This webinar will be held on Wednesday, March 13, 2024, at 9 a.m.

ADDRESSES: Webinar registration URL information:

https://zoom.us/webinar/register/WN_tqcp7-QiT5OILFDpmmYquQ.

Council address: New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950.

FOR FURTHER INFORMATION CONTACT: Cate O’Keefe, Executive Director, New England Fishery Management Council; telephone: (978) 465–0492.

SUPPLEMENTARY INFORMATION:

Agenda

The Monkfish and Dogfish Committees will meet to discuss the repackaged range of alternatives recommended by the Sturgeon Bycatch Fishery Management Action Team/Plan Development Team, the preliminary draft impact analysis of alternatives, and recommendations from the Joint

Monkfish and Spiny Dogfish Advisory Panel. They will also discuss any Joint Committee recommendations for final preferred alternatives for the NEFMC and Mid-Atlantic Fishery Management Council (MAFMC) to consider during their April Council meetings where final action is anticipated. Other business may be discussed, as necessary.

Although non-emergency issues not contained on the agenda may come before this Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council’s intent to take final action to address the emergency. The public also should be aware that the meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Cate O’Keefe, Executive Director, at (978) 465–0492, at least 5 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: February 21, 2024.

Rey Israel Marquez,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; a Coastal Management Needs Assessment and Market Analysis for Financing Resilience

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on

proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public’s reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before April 29, 2024.

ADDRESSES: Interested persons are invited to submit written comments to Adrienne Thomas, NOAA PRA Officer, at NOAA.PRA@noaa.gov. Please reference OMB Control Number 0648–0796 in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to Kim Penn, NOAA Office for Coastal Management, 1305 East-West Hwy Silver Spring, MD 20910, (410)701–0407, and kim.penn@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This is a request for extension of an approved collection of information under the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.* and implementing regulations at 5 CFR part 1320. This information collection assists NOAA in the development of funding and financing coastal resilience learning products and tools in support of the Coastal Zone Management Act of 1972 (CZMA), 16 U.S.C. 1451 *et seq.* NOAA’s Office for Coastal Management (OCM) and its regional, State, Federal, and non-profit partners have worked closely with coastal managers across the country to increase the resilience of our coastal communities, economies and ecosystems. Under the CZMA, OCM provides financial and technical assistance to states and territories, including that which helps its customers (coastal managers) develop hazard mitigation and climate adaptation plans that include strategies for short-term responses to immediate threats (*e.g.*, flooding, hurricanes) as well as long-term responses to gradual changes (*e.g.*, sea level rise, drought). Services are provided through outreach, training, funding, resource, and tool development.

Solutions to these resilience challenges are often complex and cross-sectoral. Therefore, coastal decision-makers regularly point to the need for more substantial, coordinated, sustained

and creative funding opportunities to support these efforts. The results of an initial review of more than 200 resources that NOAA conducted in support of this effort, and informal conversations with NOAA customers and other stakeholders indicate that there is no comprehensive inventory or guide to understanding and selecting appropriate funding options or financing strategies. These findings have been further confirmed in subsequent informal discussions with coastal resilience and finance practitioners at national venues such as the National Adaptation Forum and Social Coast Forum, as well as through the original needs assessment using this information collection instrument. NOAA's coastal management partners continue to request support on this topic.

The financing world is one that is constantly evolving new products and retiring others. The range of funding and financing options, from grants and low-interest loans to more innovative private-public partnerships and emerging bonds, presents an ever-changing and complex array of choices. In initial internal communications and informal discussions conducted between June 2018 and February 2020, NOAA customers indicated that these opportunities and mechanisms are not well understood, and are generally inaccessible to coastal managers, particularly in small to mid-sized communities, rural areas, and tribal communities. The initial information gathered via this collection supported this.

In many coastal communities, investment in mitigation and resilience measures remains either limited or reactive in response to a catastrophic event. While there is no data on the number of adaptation plans that have been implemented, lack of funding is a frequently cited barrier to implementation. At the same time, it has been estimated that investing in mitigation can save communities \$6 for every \$1 spent through mitigation grants from agencies including the Federal Emergency Management Agency, Department of Housing and Urban Development, and Economic Development Administration (according to the National Institute of Building Sciences' October 2018 report, *Natural Hazard Mitigation Saves: Utilities and Transportation Infrastructure*). Understanding the suite of funding and financing options available at the time resilience planning is undertaken, and then incorporating financial strategies into the planning process and recommendations, will help ensure that these plans are implemented. Section

310 of the Coastal Zone Management Act allows for technical assistance and management-oriented research to develop and implement state coastal management program amendments.

NOAA uses the information collected to develop needs assessments defining the types of funding, financing mechanisms, and associated resources that its state and local coastal manager customers need for coastal resilience activities and a market analysis of existing funding and financing programs and mechanisms. Simultaneously, NOAA is identifying existing resources and partnership opportunities for State and local coastal managers and NOAA's non-profit, academic, and other customers. Information collected to date has helped inform the development of new NOAA funding and financing products and services and future collection efforts will help NOAA better understand the impacts these products and services have had on coastal managers' barriers.

This request is for a set of related interviews to facilitate this research. NOAA will perform interviews with state and local coastal managers, as well as representatives from non-profit organizations, academia, the Federal Government, and the finance industry. The interviews will collect relevant information from interviewees on their experiences with coastal resilience funding and financing mechanisms, challenges and opportunities related to funding and financing coastal resilience, and technical support needs and opportunities that NOAA can address.

The information provided by interviewees will be synthesized into the needs assessment, which will address needs and information gaps partitioned by region, financial scale, time scale, and scope/sector. The information provided by interviewees will also be used to help inform an inventory of existing entities providing resources for resilience funding, as well as a summary of existing and emerging funding sources and financial tools and mechanisms for coastal resilience. Finally, the interviews will inform recommendations on NOAA's potential niche in addressing the identified needs and gaps.

The resulting research (and any subsequent resources or tools developed by NOAA to address identified gaps) will provide much needed information to NOAA's customers on funding and financing coastal resilience efforts, including available resources and mechanisms, best practices and strategies, real world success stories, and opportunities for technical and

financial partnerships with private and public entities.

II. Method of Collection

Information will be collected during structured telephone interviews.

III. Data

OMB Control Number: 0648–0796.

Form Number(s): None.

Type of Review: Regular submission. Extension of a currently approved information collection.

Affected Public: Business or other for-profit organizations; Not-for-profit institutions; State, Local, or Tribal government; Federal Government.

Estimated Number of Respondents: 36.

Estimated Time per Response: 1.25 hours.

Estimated Total Annual Burden Hours: 45.

Estimated Total Annual Cost to Public: \$0.

Respondent's Obligation: Voluntary.

Legal Authority: Coastal Zone Management Act of 1972 (CZMA), 16 U.S.C. 1451 *et seq.*

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this information collection request. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we

cannot guarantee that we will be able to do so.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Under Secretary for Economic Affairs, Commerce Department.

New England Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The New England Fishery Management Council (Council) is scheduling a public hybrid meeting of its Risk Policy Working Group to consider actions affecting New England fisheries in the exclusive economic zone (EEZ). This meeting will be held in-person with a webinar option. Recommendations from this group will be brought to the full Council for formal consideration and action, if appropriate.

DATES: This meeting will be held on Tuesday, March 12, 2024, at 9 a.m.

ADDRESSES:

Meeting address: This meeting will be held at the Hilton Garden Inn, 100 High Street, Portsmouth, NH 03801; telephone: (603) 431-1499.

Webinar registration URL information:

https://zoom.us/webinar/register/WN_W_gl369EQKmGn7iFlqQLXQ.

Council address: New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950.

FOR FURTHER INFORMATION CONTACT: Cate O'Keefe, Executive Director, New England Fishery Management Council; telephone: (978) 465-0492.

SUPPLEMENTARY INFORMATION:

Agenda

The Risk Policy Working Group (RPWG) will address the terms of reference (TORs) approved by the New England Fishery Management Council (Council), including progress made in reviewing the Council's current Risk Policy, and Risk Policy Road Map (TOR 1). They will also continue the development of a revised risk policy (TOR 2). The RPWG will outline a possible new approach and consider the

process of implementing the risk policy with ABC control rules and other management decisions.

Other business will be discussed, if necessary.

Although non-emergency issues not contained on the agenda may come before this Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency. The public also should be aware that the meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Cate O'Keefe, Executive Director, at (978) 465-0492, at least 5 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: February 21, 2024.

Rey Israel Marquez,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

Patent and Trademark Office

[Docket No. PTO-P-2023-0053]

Updated Guidance for Making a Proper Determination of Obviousness

AGENCY: United States Patent and Trademark Office, Department of Commerce.

ACTION: Notice.

SUMMARY: The United States Patent and Trademark Office (USPTO or Office) is publishing this updated guidance to provide a review of the flexible approach to determining obviousness that is required by *KSR Int'l Co. v. Teleflex Inc.* (*KSR*). The focus of this document is on post-*KSR* precedential cases of the United States Court of Appeals for the Federal Circuit (Federal Circuit), to provide further clarification for decision-makers on how the Supreme Court's directives should be applied. While highlighting the requirement for a flexible approach to

the obviousness determination, this updated guidance also emphasizes the need for a reasoned explanation when reaching a conclusion that a claimed invention would have been obvious. This updated guidance, together with the direction provided in the Manual of Patent Examining Procedure (MPEP), serves as operable guidance for USPTO personnel when applying the law of obviousness.

DATES: This guidance is effective on February 27, 2024.

FOR FURTHER INFORMATION CONTACT:

Kathleen Kahler Fonda, Senior Legal Advisor, Office of Patent Legal Administration, Office of the Deputy Commissioner for Patents, at Kathleen.Fonda@uspto.gov or 571-272-7754; or Steven J. Fulk, Legal Advisor, Office of Patent Legal Administration, Office of the Deputy Commissioner for Patents, at Steven.Fulk@uspto.gov or 571-270-0072.

SUPPLEMENTARY INFORMATION: More than 15 years have passed since the Supreme Court's unanimous decision regarding the obviousness of a claimed invention under 35 U.S.C. 103 rendered in *KSR Int'l Co. v. Teleflex Inc.*, 550 U.S. 398, 127 S. Ct. 1727 (2007). Since then, the Federal Circuit has helped to refine the contours of the obviousness inquiry. This updated guidance serves as a reminder for USPTO personnel of the flexible approach to obviousness that is required under *KSR* and Federal Circuit precedent.

This guidance does not constitute substantive rulemaking and hence does not have the force and effect of law. It has been developed as a matter of internal Office management and is not intended to create any right or benefit, substantive or procedural, enforceable by any party against the Office. Rejections will continue to be based on the substantive law, and it is these rejections that are appealable. Consequently, any failure by Office personnel to follow this guidance is neither appealable nor petitionable.

The Office does not intend to announce any new Office practice or procedure by way of this updated guidance. This guidance is based on the Office's current understanding of the law and is believed to comport with the binding precedent of the Supreme Court and the Federal Circuit. Furthermore, it is meant to be consistent with the Office's present examination policy. However, if any earlier guidance from the Office, including any section of the current MPEP (9th Edition, Rev. 07.2022, February 2023), is inconsistent with the updated guidance set forth in this notice, Office personnel are to
