§ 600.410 Collection and maintenance of statistics.

(a) *General.* (1) All statistics required to be submitted to the Secretary are provided to the Assistant Administrator.

(2) After receipt, the Assistant Administrator will remove all identifying particulars from the statistics if doing so is consistent with the needs of NMFS and good scientific practice.

(3) Appropriate safeguards as specified by NOAA Directives, or other NOAA or NMFS internal procedures, apply to the collection and maintenance of all statistics, whether separated from identifying particulars or not, so as to ensure their confidentiality.

(b) *Collection agreements with states.*

(1) The Assistant Administrator may enter into an agreement with a state authorizing the state to collect statistics on behalf of the Secretary.

(2) NMFS will not enter into a cooperative collection agreement with a state unless the state has authority to protect the statistics from disclosure in a manner at least as protective as these regulations.

§ 600.415 Access to statistics.

(a) *General.* In determining whether to grant a request for access to confidential data, the following informa-

tion will be taken into consideration (also see § 600.130):

(1) The specific types of data required.

(2) The relevance of the data to conservation and management issues.

(3) The duration of time access will be required: continuous, infrequent, or one-time.

(4) An explanation of why the availability of aggregate or non-confidential summaries of data from other sources would not satisfy the requested needs.

(b) *Federal employees.* Statistics submitted as a requirement of an FMP and that reveal the identity of the submitter will only be accessible to the following:

(1) Personnel within NMFS responsible for the collection, processing, and storage of the statistics.

(2) Federal employees who are responsible for FMP development, monitoring, and enforcement.

(3) Personnel within NMFS performing research that requires confidential statistics.

(4) Other NOAA personnel on a demonstrable need-to-know basis.

(5) NOAA/NMFS contractors or grantees who require access to confidential statistics to perform functions authorized by a Federal contract or grant.

(c) *State personnel.* Upon written request, confidential statistics will only be accessible if:

(1) State employees demonstrate a need for confidential statistics for use in fishery conservation and management.

(2) The state has entered into a written agreement between the Assistant Administrator and the head of the state's agency that manages marine and/or anadromous fisheries. The agreement shall contain a finding by the Assistant Administrator that the state has confidentiality protection authority comparable to the Magnuson-Stevens Act and that the state will exercise this authority to limit subsequent access and use of the data to fishery management and monitoring purposes.

(d) *Councils.* Upon written request by the Council Executive Director, access to confidential data will be granted to:

§ 600.420

(1) Council employees who are responsible for FMP development and monitoring.

(2) A Council for use by the Council for conservation and management purposes, with the approval of the Assistant Administrator. In addition to the information described in paragraph (a) of this section, the Assistant Administrator will consider the following in deciding whether to grant access:

(i) The possibility that Council members might gain personal or competitive advantage from access to the data.

(ii) The possibility that the suppliers of the data would be placed at a competitive disadvantage by public disclosure of the data at Council meetings or hearings.

(3) A contractor of the Council for use in such analysis or studies necessary for conservation and management purposes, with approval of the Assistant Administrator and execution of an agreement with NMFS as described by NOAA Administrative Order (NAO) 216-100.

(e) *Prohibitions.* Persons having access to these data are prohibited from unauthorized use or disclosure and are subject to the provisions of 18 U.S.C. 1905, 16 U.S.C. 1857, and NOAA/NMFS internal procedures, including NAO 216-100.

(1) Identifies those persons who have access to the statistics.

(2) Contains procedures to limit access to confidential data to authorized users.

(3) Provides for safeguarding the data.

(b) This system requires that all persons who have authorized access to the data be informed of the confidentiality of the data. These persons are required to sign a statement that they:

No marine mammals may be taken in the course of fishing unless that vessel has on board a currently valid Authorization Certificate under the MMPA. Regulations governing the taking of marine mammals incidental to commercial fishing operations are contained in 50 CFR part 229 of this title.

(b) *Responsibility of owners and operators.* The owners and operators of each FFV are jointly and severally responsible for compliance with the Magnuson-Stevens Act, the applicable GIFA, this subpart, and any permit issued under the Magnuson-Stevens Act and this subpart.
