

ATTACHMENT 10H

Post-Clinic Visit Survey: Online, English

Public reporting burden of this collection of information is estimated to average 20 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer; 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA (0920-####).

[ASK ALL]

[REQUIRED]

C1CONSENT.

You are being asked to participate in this study because you receive care at [CLINIC] and are eligible for prostate cancer screening. The purpose of this survey is to gather information about your prostate cancer screening history and decision making. If you complete this survey, you will receive a \$25 gift code.

Your completion of this survey is completely voluntary, and your responses are confidential.

Who is sending this survey? ICF is a consulting firm that is working with the Division of Cancer Prevention and Control (DCPC) at the Centers for Disease Control and Prevention (CDC) to evaluate different prostate cancer screening decision aids and their ability to help men aged 55-69 years make a decision whether to get a prostate-specific antigen (PSA) test. A PSA test is a blood test that measures the level of PSA in the blood. PSA is a substance made by the prostate.

How long will it take? This survey will take no longer than 20 minutes. Your participation in this study is 100% voluntary which means you can choose whether or not you want to take part in this study.

What are the risks and benefits of doing the survey? As a participant in our study, there is a minimal risk related to your privacy and/or confidentiality, but steps have been taken to remove your personal information so that you cannot be identified. Only members of the research team will have access to

study information. Remember, you are free to choose not to participate in this study. You are also free to leave the study at any time. Leaving the study will not interfere with your care, payment for your health care, or your eligibility for health care benefits.

Is there a cost associated with the study? There are no costs to you for participating in this study.

What will happen next? This is the last activity for the study. After you complete this survey, you will receive an email with a \$25 gift card. You will also receive a final thank you email with some additional materials with information about prostate cancer screening.

How will my information be shared outside of the study? Your personal responses will not be shared outside of the study. Summaries of survey results that are not linked to your name will be shared with CDC and/or may be published in a professional journal.

Who do I call about problems or questions? If you have questions about or concerns about your participation in this project, please contact the ICF project manager - Danielle Nielsen at Danielle.Nielsen@icf.com. For questions regarding your rights as a study participant, you can contact ICF's Institutional Review Board (IRB) representative Christine Walrath at (646) 695-8154 or Christine.Walrath@icf.com.

If you agree to participate in this study, please click "Begin Survey."

If you do not agree to participate, please click, "I decline."

[ASK IF J1int=01]

Hello!

Thank you for completing this survey for the CDC Prostate Cancer Evaluation Study!

Here is your Amazon gift code for \$25:

<GIFT_CODE>

HOW TO USE YOUR AMAZON GIFT CODE

The code is a unique number you can use to purchase items online at amazon.com. You may enter the code online when you are ready to make a purchase at amazon.com. There is no expiration date.

Save this code in a safe space until you are ready to use it. Some ideas to keep it safe are:

1. Write it down on a sheet of paper and keep it in a safe and hidden location.
2. Take a photo of the code with your phone.
3. Save the code in your Amazon.com account. If you have an amazon.com account, you can save your code in your account until you are ready to spend it.

Type in this link: <https://www.amazon.com/gc/redeem/>

Or, follow these instructions:

1. Go to amazon.com
2. In the blue banner, click on "Gift Cards & Registry"
3. On the gift cards page, choose "redeem a gift card"
4. Type or copy/paste the gift code into the "Enter claim code" field

Thank you once again for your time and feedback!

regards,

Debbie Krugipudi

[ASK ALL]

CLOSE.

Thank you for your responses to this survey.

We greatly appreciate your participation in the study on prostate cancer screening. Your participation in the various surveys and discussions have helped us gather information that will provide a deeper understanding of how well interactive tools and educational materials will help men make decisions about prostate cancer screening.

We assure you that your responses will be kept confidential and will not be shared outside of the study. Summaries of survey results and discussions will not be linked to your name or clinic when shared with CDC and/or when published in a professional journal.

If you have any questions, please contact the project manager, Danielle Nielsen at Danielle.Nielsen@icf.com.
