

ALASKA VITAL RECORDS PARENT WORKSHEET

Parent(s) Complete(s) Pages 1 & 2

Please print neatly as errors are difficult and expensive to correct and result in an amended record.

The information provided on this form is used to create your child's birth certificate. A birth certificate is used for legal purposes to prove your child's age, citizenship, and legal parentage. This document will be used throughout your child's entire life. To ensure confidentiality, State and Federal laws govern release of information collected on this form.

You may name your child whatever you want with some exceptions. Social Security requires that the 26 letters of the English alphabet and standalone hyphens (-) or apostrophes ('), not accents or diacritical marks, are used. Once the birth is registered, a court-ordered legal name change is required to alter any part of the child's name.

Please provide complete and accurate information for all items. Not only will this information be used for legal purposes, but additional statistical information is also used by health and medical researchers to improve the health of infants and mothers. These items include parents' education, race, and smoking history. These items will only be used for approved studies. These items will never appear on certified copies of the certificate issued to you or your child. **Once registered, you may order a certified copy of your child's birth certificate at www.vitalrecords.alaska.gov for a fee.**
