Skip Patterns:

1. Simple skip patterns are identified with an arrow immediately following a response option, as in the example below:

A8A.

Is your program for profit, not for profit, or is it run by a government agency?

1. FOR PROFIT → SKIP TO A9
 2. NOT FOR PROFIT
 3. RUN BY A GOVERNMENT AGENCY
 4. OTHER, SPECIFY: _____
2. More complex skip patterns are identified with a bordered box, as in the example below. Skip Logic Boxes are titled in **bold** and numbered using the following naming convention: [Section]_S_[Sequential count].

Skip Logic Box A_S_1:

IF A8A = 1 OR 2 ("FOR PROFIT" OR "NOT FOR PROFIT"), ASK A9
ELSE, SKIP TO A13.

Loops:

A loop is a series of questions that are asked iteratively about one or more entities, for example, a series of personal characteristics asked about each child in the household. The loop's questions appear once in the questionnaire, with skip instructions that indicate when the series starts and ends and for which entities the loop is asked. Sometimes one loop is nested within another.

1. Loop patterns are identified with a broken-line bordered box, as in the example below. All loops are bookended with a boxes designated as 'Start of...' and 'End of...' Loop. Loop boxes are titled in *italics* and numbered using the following naming convention: [Section]_L_[Sequential count].

*Start of B_L_1 Loop (*BL1):*

REPEAT B1_5 - B1_5H FOR EACH AGE GROUP = 1 (HAVE A RATE IN B1_3A)

2. All questionnaire items within a loop are identified with a truncated loop title, preceded by a '*' and formatted in *italics* with blue font. A single questionnaire item may be included in none, one, or multiple loops and will be identified accordingly in the questionnaire with zero, one, or multiple loop titles.

B1_5C. *BL1

How many hours per week does that cover?

Ranges:

Numeric open-ended responses throughout the questionnaire, such as number of years or weeks, have a pre-assigned lower and upper limit in the computerized questionnaire to minimize error. These ranges are shown directly beneath such open-ended responses, as in the example below. Ranges are prefixed with "RANGE:" in all caps and formatted with purple font.

B5d.

How many of the children in your program have variation in the number of paid hours of care each week?

_____ Number of children
RANGE: 0-999

Programmatic fills:

Some questions have customized text that is programmatically filled during computerized administration. A descriptor of the customized text is indicated, and users can tell that customized rather than generic text was visible during the interview because the text is bracketed and in CAPS. Programmatic fills within the questionnaire are contained within brackets [...], as in the example below. The fill text within the brackets provides a brief description of what the fill is.

A2G9a. *AL1 *AL2

Selection of staff for the Workforce Survey

H6.

As you know, attracting and keeping high-quality staff is a major issue for many early care and education programs. As part of this study, we are building a national description of individuals working in early care classrooms. In addition to the information you have provided about staff at your program, we have some questions that people can only answer about themselves, such as their motivations for working in this field. This information will help policymakers and practitioners understand the challenges and opportunities for improving the early education workforce and better supporting individuals who want to work with young children.

You've indicated that the following individuals worked at least 5 hours last week in the classroom we discussed:

IF THERE ARE NO INDIVIDUALS THAT HAVE WORKED AT LEAST 5 HOURS, DISPLAY: You have indicated that there are no individuals who worked at least 5 hours last week in the classroom we discussed. [BRING OVER LIST FROM F4]

H6.

Was there someone else who also worked in that classroom for at least 5 hours last week regardless of their role?

This information will only be used to contact the selected staff member to invite their participation in the workforce survey.

The selected staff member will also have the option to refuse participation once contacted.
