## SECTION E. EAGLE TAKE – ASSOCIATED WITH BUT NOT THE PURPOSE OF AN ACTIVITY (INCIDENTAL TAKE)

*(Bald and Golden Eagle Protection Act, 50 CFR 22.200 - 22.260)*

**Note:** A Federal eagle incidental take permit authorizes incidental take of eagles where the take results from but is not the purpose of an otherwise lawful activity. Permits are available to individuals, agencies, Tribes, businesses, and other organizations. Please read “Frequently Asked Questions About a Federal Permit For Eagle Incidental Take” and the pertinent regulations in 50 CFR Part 22, Subpart E before you sign and submit your application.

Please provide the information requested below. If you need to provide additional information that does not fit in the designated spaces below, add additional pages to your application submission. Please number pages accordingly using the page number box provided at the bottom of the sheet, and the corresponding question number. You may include attachments that provide pertinent information; however, responses below should summarize information provided in these attachments and should reference section and/or page numbers where pertinent information can be found. We will not review large attachments in their entirety to find pertinent information unless properly referenced.

Your responses should be thorough and specific. Incomplete applications will be returned. Processing fees are nonrefundable regardless of whether a permit is issued, abandoned, or denied. The Service will not refund any application or renewal fee under any circumstances if we have processed the application (see 50 CFR 13.11(D1)). For specific permits, processing time depends on the complexity of the request and completeness of the application. Please allow a minimum of 60-90 days for initial application review. Complex applications, including those that require additional environmental compliance review, may take longer to process.

**FOR RENEWAL APPLICATIONS:** If you are applying for a renewal and wish to report changes to your activity or request changes to your permit conditions, please answer all questions in Section E below. For all other general permit renewals, please provide responses to questions 3, 6-12, 15, and 23 below and respond “No Changes” to all other questions. For all other specific permit renewals, please provide responses to questions 3, 6-12, and 16-23 below and respond “No Changes” to all other questions. All requested information must be provided, required reporting must be up to date, and processing fees paid, or the renewal will not be processed.

**General and specific permit applications – Please complete questions 1-12 below. For specific permits, an Eagle Conservation Plan (ECP) or other attached documentation may be cited if submitted with your application and properly referenced. The Service may provide guidance on developing complete and adequate application materials.**

1. **Permit Type.** Please indicate which type of permit you are applying for:  
 General                       Specific
2. **Infrastructure Type.** Please indicate what type of infrastructure you wish to permit. For Wind, refer to definitions in the Service’s Land-Based Wind Energy Guidance. For Power Lines, refer to definitions from the U.S. Energy Information Administration (<https://www.eia.gov>):  
 Wind – Distributed or Community Scale  
 Wind – Utility Scale  
 Power Lines – Non-investor Owned  
 Power Lines – Investor Owned  
 Other Activities (Specific Permits Only)
3. **Dates.** The dates the activity that is likely to cause eagle take will start and is projected to end. If the activity is already in progress, describe the stage of progress and why you are requesting a permit now.
4. **Activity Description and Location.** A detailed description of the activity that is likely to cause eagle take, including information on construction, demolition, vegetation removal, infrastructure, etc. that may affect eagle(s), and the location of the activity, including county/city/state information and latitude/longitude geographic coordinates (in decimal degrees), and datum of coordinates (if known). Provide any maps and photographs, if available.
  - a. **Wind Energy.** If applying under § 22.250 for wind energy projects, include the number of turbines, rotor diameter, hub height, and location coordinates (latitude/longitude in decimal degrees) of each turbine and the datum of these coordinates. You may provide this information in an attached document (e.g., spreadsheet, csv, etc.). For specific permit applicants, you may use the Service’s information reporting template (see Question 17, below)

court, and f) action taken for each violation. (list all – use additional pages as necessary). If you answered "Yes," you will be required to apply for a specific permit.

**General permit applications only:**

13. **Compensatory Mitigation for General Permits for Wind Energy Projects.** For general permits, compensatory mitigation is required for wind energy projects. Please enter here the compensatory mitigation requirement, calculated as described in § 22.250(f)(7)(ii) and on the Service's eagle permits website (<https://www.fws.gov/program/eagle-management/eagle-permits>). This requirement will be calculated based on the location of turbines, hazardous volume, and corresponding mitigation rate in § 22.250(f)(7)(ii).
14. **Permit Tenure and Effective Date.** For general permits for eagle incidental take, the permit tenure is no longer than 5 years expiring on December 31. Please indicate whether you would like your permit effective date to start immediately upon issuance or if you would like your permit effective date to begin January 1. Selecting an immediate effective date may result in an overall shorter permit tenure for the initial general permit. If the permittee chooses to delay the effective date, take would only be authorized beginning on the permit effective date.
- .. Immediate effective date
  - .. January 1
15. **Certification.** As part of your general permit application, you must certify that the below statements are true. Check each box to acknowledge.
- I meet all eligibility requirements for general permits as defined in the regulation applicable to my activity.
  - I meet all general permit issuance criteria listed in § 13.21 and my activity is consistent with the requirements applicable to my activity as specified in § 22.250, § 22.260, § 22.280, or § 22.300.
  - My activity likely to cause take to eagles is necessary to protect a legitimate interest in a particular locality.
  - Eagle take may result from but is not the purpose of my activity.
  - Eagle take resulting from my activity cannot be practicably avoided.
  - I agree to implement all permit conditions applicable to my activity, including those related to avoidance and minimization, monitoring, reporting, and adaptive management.
  - I agree to acquire eagle credits, if required, from a Service-approved in-lieu fee program within 90 days of the effective date of my permit.
  - My activity either does not affect a property that is listed, or is eligible for listing, in the National Register of Historic Places as maintained by the Secretary of the Interior; or I have obtained and am in compliance with, a written agreement with the relevant State Historic Preservation Officer (SHPO) or Tribal Historic Preservation Officer (THPO) that outlines all measures I will undertake to mitigate or prevent adverse effects to the historic property.
  - I understand that, if implementing the conditions of a general permit may affect a species listed as threatened or endangered, a candidate species, or a species proposed to be listed as threatened or endangered, under the Endangered Species Act or designated or proposed critical habitat, eagle incidental take authorization can only be provided under a specific permit.

**Specific permit applications only:** If you are requesting a specific permit, you must provide the information requested below.

16. **Duration.** What is the requested duration of the permit? Specific permits are issued for up to 30 years.
17. **Species Requested.** For which eagle species are you requesting authorization? Check both if requesting authorization for both species.
- Bald Eagle (*Haliaeetus leucocephalus*)      .. Golden Eagle (*Aquila chrysaetos*)
18. **Project-Specific Information.** Provide additional project-specific information to assist the Service in assessing impacts to eagles. This includes an eagle impacts assessment, including further describing eagle activity and eagle use in the project area, potential interaction with project components or activities, and a description of methods used to conduct this assessment. If the Service has officially issued or endorsed survey, modeling, take-estimation, or other standards for the activity that will take eagles, you must follow them and include in your application all the information thereby obtained, unless the Service waives this requirement for your application:
- a. **For Wind Projects, we prefer that you complete and submit the Service's current information reporting template, available on the Service's website (<https://www.fws.gov/program/eagle-management>).** You must provide all turbine locations and dimensions (if known), pre-construction eagle-use survey methods and data, and all post-construction eagle fatality monitoring methods and data in this

## NOTICES

### PRIVACY ACT STATEMENT

**Authority:** The information requested is authorized by the following: the Bald and Golden Eagle Protection Act (16 U.S.C. 668), 50 CFR 22; the Endangered Species Act (16 U.S.C. 1531-1544), 50 CFR 17; the Migratory Bird Treaty Act (16 U.S.C. 703-712), 50 CFR 21; the Wild Bird Conservation Act (16 U.S.C. 4901-4916), 50 CFR 15; the Lacey Act: Injurious Wildlife (18 U.S.C. 42), 50 CFR 16; Convention on International Trade in Endangered Species of Wild Fauna and Flora (TIAS 8249), 50 CFR 23; General Provisions, 50 CFR 10; General Permit Procedures, 50 CFR 13; and Wildlife Provisions (Import/export/transport), 50 CFR 14.

**Purpose:** The collection of contact information is to verify the individual has an eligible permit to conduct activities that affect protected species. The information the individual provides helps the FWS monitor and report on protected species and assess the impact of permitted activities on the conservation and management of species and their habitats.

**Routine Uses:** The collected information may be used to verify an applicant's eligibility for a permit to conduct activities with protected wildlife; to provide the public and the permittees with permit related information; to monitor activities under a permit; to analyze data and produce reports to monitor the use of protected wildlife; to assess the impact of permitted activities on the conservation and management of protected species and their habitats; and to evaluate the effectiveness of the permit programs. More information about routine uses can be found in the System of Records Notice, Permits System, FWS-21.

**Disclosure:** The information requested in this form is voluntary. However, submission of requested information is required to process applications for permits authorized under the listed authorities. Failure to provide the requested information may be sufficient cause for the U.S. Fish & Wildlife Service to deny the request.

### PAPERWORK REDUCTION ACT STATEMENT

In accordance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), the U.S. Fish and Wildlife Service collects information necessary to monitor take and disposition of migratory birds, under the applicable laws governing the requested activity, for which a permit is requested, and to respond to requests made under the Freedom of Information Act and the Privacy Act of 1974. Information requested in this form is purely voluntary. However, submission of requested information is required in order to process applications for permits authorized under the above laws. Failure to provide all requested information may be sufficient cause for the U.S. Fish and Wildlife Service to deny the request. According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. OMB has approved this collection of information and assigned Control No. 1018-0167.
