Abstract: This information collection activity will garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. By qualitative feedback, we mean information that provides useful insights on perceptions and opinions but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences, and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative, and actionable communications between the Agency and its customers

and stakeholders. It will also allow feedback to contribute directly to the improvement of program management. Requests under this generic clearance will be submitted to OMB via Form DI-4011, "Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery."

Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: the target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

The types of collections that this generic clearance covers include, but are not limited to:

- Customer comment cards/complaint forms;
- Focus Groups of customers, potential customers, delivery partners, or other stakeholders;
- One-time or panel discussion groups;
- Moderated, un-moderated, in-person, and/or remote-usability studies;
- Qualitative customer satisfaction surveys (*e.g.*, post-transaction surveys; opt-out web surveys);
- Customer satisfaction qualitative surveys (*e.g.*, those designed to detect early warning signs of dissatisfaction with agency service delivery); and
- Advance testing of non-controversial information collections, including Federal forms, as part of focus groups, in-person observations of users' perceptions of the forms and questions (cognitive testing), web-based experiments, and randomized controlled experiments to refine questions (in accordance with OMB Memorandum "Testing and Simplifying Federal Forms", August 9, 2012).

A proposed collection for approval under this generic clearance will only be submitted to OMB if it meets the following conditions:

- Information gathered will be used only internally for general service improvement and program management purposes and is not intended for release outside of the agency;
- Information gathered will not be used for the purpose of substantially informing influential policy decisions;
- Information gathered will be qualitative; the collections will not be designed or expected to yield statistically reliable results or used as though the results are generalizable to the population of study;
- The collections are voluntary;
- The collections are low-burden for respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and are low-cost for both the respondents and the Federal Government;
- The collections are non-controversial and do not raise issues of concern to other Federal agencies;
- Any collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future;
- With the exception of information needed to provide remuneration for participants of focus groups and cognitive laboratory studies, personally identifiable information (PII) is collected only to the extent necessary and is not retained; and
- Bureaus/offices will utilize the pre-approved Suite of Questions when developing questionnaires for submission to OMB under the DOI "Fast Track" generic clearance. Questionnaires should be limited to no more than 15 questions (with a maximum of 2 open-ended questions) and should take no longer than 10–15 minutes to complete.

We propose to revise the Suite of Questions to incorporate the following updates:

- (1) Add questions related to:
 - a. Tribal specific areas of Department of the Interior work.
 - b. Communication use and preferences.
 - c. Planning and logistics, including expenses, activities, motivations and future plans.

SUPPLEMENTARY INFORMATION:

I. Background

The DOI maintains the Department-wide system of records, INTERIOR/DOI-71, Electronic FOIA Tracking System and FOIA Case Files, to enable the Department to administer the FOIA Program more efficiently. This system of records contains information on individuals for the purposes of managing and processing FOIA requests, some of which may be processed in tandem with the Privacy Act of 1974, as amended, and supports the oversight and management of appeals filed by individuals under the FOIA and Privacy Act.

This notice also covers DOI FOIA Program records and case files managed by DOI bureaus and offices that may include administrative records, communications, and other documents related to administration of the FOIA Program. Each DOI bureau and office is responsible for managing its own records related to its FOIA program. DOI is publishing this revised system of records notice (SORN) to consolidate two systems of records that support the administration of the DOI FOIA Program and cover the full lifecycle of a FOIA request to include the appeals process: INTERIOR/DOI-71, Electronic FOIA Tracking System and FOIA Case Files, 81 FR 33544 (May 26, 2016), modification published at 86 FR 50156 (September 7, 2021); and INTERIOR/OS-69, Freedom of Information Act Appeals Files, 64 FR 16986 (April 7, 1999), modification published at 86 FR 50156 (September 7, 2021). DOI is also proposing to update the system name to INTERIOR/DOI-71, Freedom of Information Act (FOIA) Files, and is updating all sections of the notice to reflect changes for the modified consolidated system in accordance with the Privacy Act of 1974 and OMB Circular A-108, *Federal Agency Responsibilities for Review, Reporting, and Publication under the Privacy Act*.

The routine uses contained in the INTERIOR/OS-69 SORN are also reflected in the previously published INTERIOR/DOI-71 SORN. In this notice, DOI is changing the routine uses from a numeric to alphabetic list and is
