8500_FORTRAINING

Description: SCIF: 8500 record ***needed for Training/Testing***

Form Pane Label:
SAS Name:
Tag Name:
Inherited Universe:

Universe:

Universe Description:

Question Text: ** **NON-DISPLAYED FIELD** **
Documentation of 8500 Record layout

Type: Classification
Length: 0

☐ Don't Know
☐ Refuse
☐ Empty

☐ On Input
☐ On Output

Array: ☐

Special Instructions: *****added August 2016***** when (survtype <> 'P' and (survtype = 'T' OR survtype = 'S' OR survtype = ''), dates will be changed within the instrument via input fields. This screen will only display when SURVTYPE = S or T OR empty and not in a Production instrument. TMO is commenting out the coding for record type 8500*****************

1. The training SCIF will need to contain an 8500 record.
   (The production SCIF will NOT contain this record type.)

   8500 Layout:
Name	Length	Positions	
Record_type	2	1-2	
Sub_type	2	3-4	
TRAINDT1	8	5-12	(MMDDYYYY)
TRAINDT2	8	13-20	(MMDDYYYY)
BLANK3	8	21-28	
BLANK1	21	29-49	

WDUSER	6	50-55
BLANK2	5	56-60
WDPIN	6	61-66

For training/testing SCIF where RT1000.SURVTYPE = T,
These dates will become the "current date" basically
overwritting the systems date in the instrument.
TRAINDAT1 and RT2500.EPD need to be the same date unless you are trying to test
the placement date errors.

IF PLACED_FLAG ne 1, use TRAINDT1 as the current date
IF PLACED_FLAG=1, use TRAINDT2 as the current date
(See BFRONT.Datamodel_ck for specific instructions.)

Universe Description:

Question Text:

WHO USES THIS INFORMATION?

This survey has a number of uses. The most important is the periodic revision of the Consumer Price Index. The Consumer Price Index provides cost of living and wage adjustments, social security payment adjustments, and helps determine the cost of school lunches.

Government and private agencies use the data to study the welfare of particular segments of the population. Economic policymakers use the data to study the impact of policy changes
in the welfare of different socioeconomic groups. Researchers use the data in a variety of studies, including those that focus on the spending behavior of different family types and historical spending trends.

Universe: H_PURPOSE is 4

Universe Description:

Question Text:

HOW IS THE DATA COLLECTED?
HOW MANY TIMES WILL YOU I BE INTERVIEWED?

I will be here a short time today to ask a few questions about your household. I will also drop off your diaries. How long it will take to write your expenses each day depends on how many things you buy. Some days, you may have nothing to record, other days may have a lot to record. It averages out to about 10 minutes a day.

After today, I will return in two weeks to pick up your completed diaries and ask a few final questions.

Universe Description:

Question Text:

<p style="text-align:center; color:blue">IS THIS SURVEY AUTHORIZED BY LAW?</p>

Yes. The Bureau of Labor Statistics conducts the Consumer Expenditure Diary Survey under the authority of Title 29 of the U.S. Code. Congress authorizes the financial support for the CE survey through Public Laws 94-439 and 95-205.

The Census Bureau collects the CE data under the authority of Title 13, U.S. Code, Section 8b, which allows the Census Bureau to undertake surveys for other government agencies. Participation in the survey is voluntary. Under Title 13, the Census Bureau holds all information in strict confidence. We will not release information reported in the survey which would permit the identification of a household or any of its members to anyone outside of the Census Bureau.

Outcome	Description
200	Case not started
201	Paper Diaries in Week 1 and Week 2 interview
202	Case started, no interview status Week 1 Note: Can become anything
203	Paper diary in Week 1 interview, Week 2 Type A
204	Online diary with CAPI recall in Week 1, Online diary Week 2
205	Online diary in Week 1, Week 2 Type A
206	Week 1 Type A, Paper diary in Week 2 interview
207	Online diary Week 1, Online diary with CAPI recall in Week 2
208	Online diary Week 1, Week 2 Type A
216	Type A - No home (unable to contact)
217	Temporarily Absent (counted as a Type A noninterview for ROSCO beginning January 2017)
320	Type A - Week 2 Diary Picked Up Too Early

321	Type A - Refused, Hostile respondent
322	Type A - Refused, Time- related excuses
323	Type A - Refused, Language problems
324	Type A - Refused, Other - specify
325	Type A -Diaries Placed Too Late
326	Type A - Blank Diary with recall, without receipts(counted as a Type B noninterview
	for ROSCO)
219	Type A - Other - specify
224	Type B - All persons under 16
225	Type B - Occupied by persons URE
226	Type B - Vacant for Rent
331	Type B - Vacant for sale
332	Type B - Vacant other - specify
228	Type B - Unfit, to be demolished
229	Type B - Under construction
231	Type B - Unoccupied tent/trailer site
232	Type B - Permit granted, construction not started
233	Type B - Other - specify
240	Type C - Demolished
241	Type C - House or trailer moved
243	Type C - Converted to permanent nonresidential use
244	Type C - Merged units within the same structure
245	Type C - Condemned
247	Type C - Unused serial number on listing sheet
248	Type C - Other - specify
252	Type C - Located on military base or post
258	Type C - Unlocatable Sample Address
259	Type C - Unit does not exist or unit is out of scope
290	Type C - Spawned in error
298	Online diary with CAPI recall for Week 1 and Week 2 interview
299	Online diary for Week 1 and Week 2 interview
341	Type C - CU Moved
342	Type C - CU merged with CE CU

　　　　　　　　Documentation of 8500 Record layout

Type: Classification
Length: 0

☐ Don't Know
☐ Refuse
☐ Empty

☐ On Input
☐ On Output

Array: ☐

Special Instructions: RT8500 contains the username (WDUSER) and password (WDPIN) for the online diaries. There are 10 usernames and passwords associated for each case. One username and password for the parent case (WDUSER01 AND WDPIN01), and 9 usernames and passwords for potential spawn cases. For example, if a household has two consumer units, the parent household would use WDUSER01 AND WDPIN01 and the spawn case would use WDUSER02 and WDPIN02.

Layout for the 8500 Record:

Variable	Values	Position	Field Length
RecType	STRING[2]	1	2
