

Supporting Statement
Internal Revenue Service (IRS)
Credit to Holders of Tax Credit Bonds
Form 8912
OMB Control Number 1545-2025

1. CIRCUMSTANCES NECESSITATING COLLECTION OF INFORMATION

Form 8912 is used to claim the credit for the following tax credit bonds: Clean renewable energy bond (CREB), New clean renewable energy bond (NCREB), Qualified energy conservation bond (QECB), Qualified zone academy bond (QZAB), Qualified school construction bond (QSCB), and Build America bond (BAB).

Generally, in lieu of, or in addition to, receiving periodic interest payments from the issuer, the holder of the bond is allowed an income tax credit. The credit compensates the holder for lending money to the issuer and functions as interest paid on the bond. Build America bond holders receive taxable interest from the issuer in addition to being allowed an annual income tax credit.

Form 8912 was developed to carry out the provisions of Internal Revenue Code (IRC) sections 54 and 1400N(l). The form provides a means for the taxpayer to compute the bond credit mentioned above.

The respondents are taxpayers holding a CREB or qualified tax credit bond (a qualified tax credit bond doesn't include a QZAB issued before October 4, 2008) on 1 or more credit allowance dates can claim the credit by filing Form 8912 for each tax year in which it holds the bond on a credit allowance date.

2. USE OF DATA

Form 8912 provides taxpayers a standardized format to figure and claim the credits mentioned above. Form 8912 is submitted along with the return to the IRS which uses the form to verify the sum of the credits transferred to the taxpayer's income tax return.

3. USE OF IMPROVED INFORMATION TECHNOLOGY TO REDUCE BURDEN

The IRS is currently offering electronic filing for Form 8912.

4. EFFORTS TO IDENTIFY DUPLICATION

The information obtained through this collection is unique and is not already available for use or adaptation from another source.

5. METHODS TO MINIMIZE BURDEN ON SMALL BUSINESSES OR OTHER SMALL ENTITIES

The collection of information requirement will not have a significant economic impact on a substantial number of small entities.

6. CONSEQUENCES OF LESS FREQUENT COLLECTION ON FEDERAL PROGRAMS OR POLICY ACTIVITIES

Consequences of less frequent collection on federal programs or policy activities would result in the IRS unable to comply with requirements of IRC sections 54 and 1400N(l) to determine that the credit was correctly computed and that the proper amount was claimed; thereby endangering the ability of the IRS to meet its mission.

7. SPECIAL CIRCUMSTANCES REQUIRING DATA COLLECTION TO BE INCONSISTENT WITH GUIDELINES IN 5 CFR 1320.5(d)(2)

There are no special circumstances requiring data collection to be inconsistent with guidelines in 5 CFR 1320.5(d)(2).

8. CONSULTATION WITH INDIVIDUALS OUTSIDE OF THE AGENCY ON AVAILABILITY OF DATA, FREQUENCY OF COLLECTION, CLARITY OF INSTRUCTIONS AND FORMS, AND DATA ELEMENTS

In response to the Federal Register notice dated July 15, 2024 (89 FR 57519), IRS received no comments during the comment period regarding Form 8912.

9. EXPLANATION OF DECISION TO PROVIDE ANY PAYMENT OR GIFT TO RESPONDENTS

No payment or gift has been provided to any respondents.

10. ASSURANCE OF CONFIDENTIALITY OF RESPONSES

Generally, tax returns and tax return information are confidential as required by 26 USC 6103.

11. JUSTIFICATION OF SENSITIVE QUESTIONS

A privacy impact assessment (PIA) has been conducted for information collected under this request as part of the "Business Master File (BMF)" system and a Privacy Act System of Records notice (SORN) has been issued for this system under IRS 24.046-Customer Account Data Engine Business Master File. The Internal Revenue Service PIAs can be found at <https://www.irs.gov/uac/Privacy-Impact-Assessments-PIA> .

Title 26 USC 6109 requires inclusion of identifying numbers in returns, statements, or other documents for securing proper identification of persons required to make such returns, statements, or documents and is the authority for social security numbers (SSNs) in IRS systems.

12. ESTIMATED BURDEN OF INFORMATION COLLECTION

The estimated burden for individual taxpayers filing this form is approved under OMB control number 1545-0074. The estimated burden for businesses filing this form is approved under OMB control number 1545-0123. The burden for trust and estate filers is reflected below.

The respondents are approximately 50 taxpayers holding a CREB or qualified tax credit bond (a qualified tax credit bond doesn't include a QZAB issued before October 4, 2008) on 1 or more credit allowance dates can claim the credit by filing Form 8912 for each tax year in which it holds the bond on a credit allowance date. It takes about 13.78 hours to comply for a total of 689 total annual burden hours.

Authority	Description	# of Respondents	# Responses per Respondent	Annual Responses	Hours per Response	Total Burden
IRC section 54 & 1400N(I)	Form 8912	50	1	50	13.78	689
Totals		50		50		689

13. ESTIMATED TOTAL ANNUAL COST BURDEN TO RESPONDENTS

This information collection will be included in the consolidated OMB submission for Estate and Trust returns currently being developed. IRS is working on the methodology for evaluating estate and trust return burden and cost; and will update the cost and burden estimates as part of the consolidation.

14. ESTIMATED ANNUALIZED COST TO THE FEDERAL GOVERNMENT

The Federal government cost estimate is based on a model that considers the following three cost factors for each information product: aggregate labor costs for development, including annualized start-up expenses, operating and maintenance expenses, and distribution of the product that collects the information.

The government computes cost using a multi-step process. First, the government creates a weighted factor for the level of effort to create each information collection product based on variables such as complexity, number of pages, type of product and frequency of revision. Second, the total costs associated with developing the product such as labor cost, and operating expenses associated with the downstream impact such as support functions, are added together to obtain the aggregated total cost. Then, the aggregated total cost and factor are multiplied together to obtain the aggregated cost per product. Lastly, the aggregated cost per product is added to the cost of shipping and printing each product to IRS offices, National Distribution Center, libraries, and other outlets. The result is the Government cost estimate per product.

The government cost estimate for this collection is summarized in the table below.

<u>Product</u>	<u>Aggregate Cost per Product (factor applied)</u>		<u>Printing and Distribution</u>		<u>Government Cost Estimate per Product</u>
Form 8912	20,892	+	0	=	20,892
Instructions	9,643	+	0	=	9,643
Grand Total	30,535	+	0	=	30,535
Table costs are based on 2023 actuals obtained from IRS Chief Financial Office and Media and Publications					

15. REASONS FOR CHANGE IN BURDEN

There is no change in the paperwork burden previously approved by OMB. The IRS is making this submission to renew the OMB approval. The form was updated to reflect the current line reference on the F1040. This change is not substantive and does not change the burden estimates.

16. PLANS FOR TABULATION, STATISTICAL ANALYSIS AND PUBLICATION

There are no plans for tabulation, statistical analysis, and publication.

17. REASONS WHY DISPLAYING THE OMB EXPIRATION DATE IS INAPPROPRIATE

The IRS believes that displaying the OMB expiration date is inappropriate because it could cause confusion by leading taxpayers to believe that the form expires as of the expiration date. Taxpayers are not likely to be aware that the IRS intends to request renewal of the OMB approval and obtain a new expiration date before the old one expires.

18. EXCEPTIONS TO THE CERTIFICATION STATEMENT

There are no exceptions to the certification statement for this collection.
