Financial Need

Financial need is determined each year on the basis of the requirements for need analysis prescribed by Title IV, Part F of the Higher Education Act of 1965, as amended. Please consult your institution's financial aid office for information or questions regarding the determination of financial need. Please note that, for GAANN purposes, tuition and fees are excluded from the fellow's cost of attendance (COA) in most every case because the fellowship includes an institutional payment that is provided in lieu of tuition and fees normally charged to the student. The preferred method for calculating the COA and thus, financial need for a GAANN fellow is to exclude tuition and fees because of the institutional payment. However, an institution may need to report the tuition and fees amount as part of COA under certain circumstances, such as a State's requirement that even waived tuition charges must be posted to the student's account. In this situation, the amount of the institutional payment must be included as part of the amount that goes to meet that fellow's financial need. How an institution determines a GAANN fellow's COA can affect reporting of financial need and the resources used to meet that need.
