**Assumptions:**

- a. Assumed that the average number of respondents that will be subject to the rule will be 35 existing respondents
- b. This ICR uses the United States Department of Labor, Bureau of Labor Statistics, May 2021 National Industry
- c. No new facilities are expected to be built in this time period..
- d. All respondents are required to perform initial performance testing in the first year.
- e. Respondents must conduct repeat performance tests on existing kilns every 5 years to demonstrate continuous
- f. Assumed that each respondent will take 4 hours to complete the inspection and maintenance of affected sources
- g. Assumed that it will take 8 hours each and two times per year to complete semiannual compliance reports.
- h. Assumed that it will take 8 hours once a year to write the emergency startup, shutdown, or malfunction reports
- i. Assumed that this action was accomplished in year 1, and not required in years 2 and 3.
- j. Assumed that all respondents will take 3 hours each to enter records of all the required information 52 times a y
- k. Assumed that this action was accomplished in year 1 and not required in years 2 and 3.
- l. Assumed that this action was accomplished in year 1 and not required in years 2 and 3.
- m. Assumed that respondents are required to transmit/disclose information twice per year.
- n. Totals are rounded to three significant figures. Figures may not add up exactly due to rounding.
