

Supplemental Document: Justification for a no Material/Non-Substantive Change

MARAD requests approval to make the following change to the previously approved collection **OMB 2133-0556 (Building American Production Capacity for Electric Port Equipment and other Port Infrastructure Items)**:

- Include additional respondents, specifically other port industry stakeholders (i.e., non-AAPA ports and non-NAWE marine terminal operators nationally), in this ongoing market demand survey for electrically powered port equipment. This change effort will have a limited public burden impact, as illustrated in the table-below:

| Category of Respondent | No. of Respondents | Participation Time (hours) | Burden (hours) |
|------------------------------------|---------------------------|-----------------------------------|-----------------------|
| Non-AAPA Port Members | 25 | .25 (15 mins) | 12.5 |
| Non-NAWE Marine Terminal Operators | 25 | .25 (15 mins) | 12.5 |
| Totals | 50 | .50 (30 mins) | 25 (hrs) |
