A. Overview of Information Collection

Title of Information Collection: Evaluation of Emergency Housing Voucher (EHV) Program.

MB Approval Number: 2528-New.

Type of Request: New collection.

Form Number: N/A.

Description of the need for the information and proposed use:

The purpose of this proposed information collection is to gather information in support of the Evaluation of the Emergency Housing Voucher Program. The Emergency Housing Voucher (EHV) Program is one of eight housing provisions that was included in the American Rescue Plan Act of 2021 (ARP). Section 3202 of ARP provided \$5 billion to HUD to fund a temporary voucher program that, in part, supported roughly 70,000 incremental emergency vouchers to be allocated to Public Housing Agencies (PHAs) via formula.

The Evaluation of the EHV program will document the implementation and early outcomes of the EHV Program through a mixed mode data collection approach to provide a broad overview of the program nationally.

Data collection activities planned to be carried out as part of the evaluation include: (1) collecting HUD administrative data, (2) a national web survey of 611 PHAs administering the EHV program and 371 referring partner Continuums of Care (CoCs), and (3) telephone/virtual interviews with staff from a selected sample of communities, including PHAs, CoCs, and other PHA partner organizations. The evaluation will use a mixed-methods approach with administrative data and web survey data to measure outcomes in key interest areas. The follow-up telephone

interviews will collect information on the experiences of program staff in implementing the EHV program. In total, HUD plans to conduct a web survey of 611 PHAs, a web survey of 371 CoCs, and 50 telephone/virtual interviews (comprised of interviews with 25 PHAs and 25 CoCs/partner organizations). HUD will provide reasonable accommodations. Respondents who are blind or have vision-related disabilities, deaf or hard of hearing, as well as individuals with speech or communication disabilities can elect to participate through a web-based version

of the data collection or through a telephone-based version of the data collection. HUD welcomes and is prepared to receive calls from individuals who are deaf or hard of hearing, as well as individuals with speech or communication disabilities.
