

UPDATED DRAFT CENTER-WIDE NARRATIVE

NASA Ames Research Center (ARC) is in the process of updating its Center Master Plan in alignment with the Agency Master Plan and guide development decisions at ARC over the next twenty years. The Center Master Plan will focus on four districts: Ames Campus, NASA Research Park (NRP), Bay View, and Eastside Airfield (see map on the survey).

One of the challenges facing ARC is sufficient funding to maintain facility and all infrastructure assets in good condition. In this context, please give your input with the intent of a more affordable operations and creating better work environment for everyone, while striving to meet our bold NASA mission. Your participation is voluntary and anonymous.

We appreciate your support in charting a viable and exciting campus of the future here at Ames!
