

Dear NMIS User,

The NASA Safety Center is conducting a NMIS User Survey to get insight into how the NMIS the application is being used. We hope to get a better idea of what features you are currently using and what features you would like added to NMIS. We have also included some questions regarding the new NMIS Application Programming Interface (API) that allows for different software applications to communicate with NMIS and exchange data.

Please complete the survey link below.

[\[SURVEY PREVIEW MODE\] NASA Mishap Information System \(NMIS\) User Survey \(surveymonkey.com\)](#)

Thank you,  
Ingrid Wagner  
NMIS Application
