

*Title:* Common Carrier Annual Employment Report, FCC Form 395.

*Form Number:* FCC Form 395.

*Type of Review:* Extension of a currently approved collection.

*Respondents:* Business or other for-profit entities.

*Number of Respondents and Responses:* 491 respondents; 491 responses.

*Estimated Time per Response:* 1 hour.

*Frequency of Response:* Annual reporting requirement and recordkeeping requirement.

*Obligation to Respond:* Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 154(i), 303, and 307–310 of the Communications Act of 1934, as amended.

*Total Annual Burden:* 491 hours.

*Total Annual Cost:* No cost.

*Needs and Uses:* FCC Report 395, Common Carrier Annual Employment Report, is a data collection mechanism to implement the FCC's Equal Employment Opportunity (EEO) rules. All common carrier licensees or permittees with sixteen (16) or more full-time employees are required to file the Annual Employment Report. Each common carrier is also obligated to file with this Commission copies of all exhibits, letters, and documents pertaining to all equal employment opportunity statements and annual reports on complaints regarding violations of equal employment provisions of Federal, State, Territorial, or local law. Section 22.321(f), 47 CFR, requires each licensee to maintain these documents for a period of two years. The Annual Employment Report identifies each filer's staff by gender, race, color, and/or national origin in each of ten major job categories. The report and all other EEOC documents are filed with the Commission to detail the applicant's compliance with the Commission's EEO rules. Data from these reports are available online so that users can easily locate data for a particular carrier and/or specific reporting years.

*OMB Control Number:* 3060–1181.

*Title:* Study Area Boundary Data Reporting in Esri Shapefile Format, DA 12–1777 and DA 13–282.

*Form Number:* N/A.

*Type of Review:* Extension of a currently approved collection.

*Respondents:* Business or other for-profit entities and State, Local or Tribal Government.

*Number of Respondents and Responses:* 36 respondents; 36 responses.

*Estimated Time per Response:* 24 hours for submitting updates; less than 1 hour for recertification.

*Frequency of Response:* On occasion and biennially reporting requirements.

*Obligation to Respond:* Mandatory. Statutory authority for this information collection is contained in 47 U.S.C. 254(b) of the Communications Act of 1934, as amended.

*Total Annual Burden:* 576 hours.

*Total Annual Cost:* \$10,714.

*Needs and Uses:* The Commission uses the study area boundary data collected through 3060–1181 to implement certain universal service reforms. The Universal Service Fund supports the deployment of voice and broadband-capable infrastructure in rural, high cost areas. High-cost support is granted to a carrier based on the characteristics of its “study area,” the geographic area served by an incumbent local exchange carrier within a state. Therefore, complete and accurate study area boundary data are essential for calculating a carrier's costs and expenses, which in turn determine the amount of support that carrier can receive to serve high-cost areas. In December 2012, the Commission submitted a request for emergency preapproval of this collection, which the Office of Management and Budget (OMB) granted on January 23, 2013. On June 12, 2013, the Commission submitted a request for a three-year extension of the collection to July 31, 2016 (78 FR 34382), which OMB approved on July 31, 2013 (78 FR 76312). Initial study area boundaries were submitted in 2013. These maps were submitted via a secure internet-browser web interface developed and maintained by the Commission. If a study area boundary changes, filers are required to submit, via Box, revised boundary data incorporating such changes by March 15 of the year following the change. In addition, all filers are required to recertify their study area boundaries every two years.

**General Description of Collection:**  
Upon the failure of an FDIC-insured depository institution, the FDIC is required to pay insured deposits as soon as possible. To do so, the FDIC must be able to quickly determine the total insured amount for each depositor. To make this determination, the FDIC must ascertain the balances of all deposit accounts owned by the same depositor in the same ownership capacity at a failed institution as of the day of failure. The FDIC issued a regulation (12 CFR 360.9) to modernize the process of determining the insurance status of each depositor in the event of failure of a covered institution. The regulations

enable operations of a large insured depository institution to continue functioning on the day following failure, support the FDIC’s efforts to fulfill its legal mandates regarding the resolution of failed insured deposit institutions, and apply to the largest institutions only (\$2 billion in domestic deposits or more). More specifically, the regulations require the largest insured depository institutions to adopt mechanisms that would, in the event of the institution’s failure (1) provide the FDIC with standard deposit account and customer information, and (2) allow the FDIC to place and release holds on liability accounts, including deposits. There is

no change in the methodology or substance of this information collection. The decrease in total estimated annual burden from 6,464 hours in 2021 to 5,948 hours currently is due to a decrease in estimated number or respondents.

2. *Title:* Assessment Rate Adjustment Guidelines for Large and Highly Complex Institutions.

*General Description of Collection:* The FDIC’s deposit insurance assessment authority is set forth in section 7 of the Federal Deposit Insurance Act, 12 U.S.C. 1817(b) and (c), and promulgated in regulations under 12 CFR part 327. These regulations also set out the process for making adjustments to the total score of these institutions used by the FDIC in making deposit insurance assessments. Depository institutions are permitted to make a written request to the FDIC for an assessment adjustment. An institution is able to request review of, or appeal, an upward adjustment, the magnitude of an upward adjustment,

removal of a previously implemented downward adjustment or an increase in a previously implemented upward adjustment through the FDIC’s internal review process set forth at 12 CFR 327.4(c). An institution can similarly request review of or appeal a decision not to apply an adjustment following a request by the institution for an adjustment. An institution can submit its written request for an adjustment to the FDIC’s Director of the Division of Insurance and Research in Washington, DC. In making such a request, the institution will provide support by including evidence of a material risk or

risk mitigating factor that it believes was not adequately considered. There is no change in the methodology or substance of this information collection. The decrease in total estimated annual burden from 160 hours in 2021 to 80 hours currently is due to a decrease in estimated number or respondents.

3. *Title:* Minimum Requirements for Appraisal Management Companies.  
*OMB Number:* 3064–0195.

*General Description of Collection:* This information collection comprises recordkeeping and disclosure requirements under regulations issued by the FDIC, jointly with the Office of the Comptroller of the Currency, the Board of Governors of the Federal Reserve System, the National Credit Union Administration, the Bureau of Consumer Financial Protection, and the Federal Home Finance Agency, that implement the minimum requirements in section 1473 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act) to be applied by States in the registration and supervision of appraisal management companies (AMCs). The regulations also implement the requirement in section 1473 of the Dodd-Frank Act for States to report to the Appraisal Subcommittee of the Federal Financial Institutions Examination Council the information

required by the ASC to administer the new national registry of appraisal management companies (AMC National Registry or Registry). The information collection requirements are established in 12 CFR part 323 of the FDIC’s codified regulations. There is no change in the methodology or substance of this information collection. The decrease in total estimated annual burden from 2,457 in 2021 to 1,991 currently is due to a change in the estimated number or respondents.

**Request for Comment**

Comments are invited on (a) whether the collections of information are necessary for the proper performance of the FDIC’s functions, including whether the information has practical utility; (b) the accuracy of the estimates of the burden of the information collections, including the validity of the

methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collections of information on respondents, including through the use of automated collection techniques or other forms of information technology. All comments will become a matter of public record.
