

USDA AMS Stakeholder Survey

OMB Control No. 0581-0269

Exp. Date: XX/XX/XXXX

The United States Department of Agriculture's Agricultural Marketing Service (AMS) is collecting feedback about performance outcomes for the following grant programs: Acer Access and Development Program, the Dairy Business Innovation Initiatives, the Farmers Market and Local Food Promotion Programs, the Federal State Marketing Improvement Program, the Regional Food System Partnerships, the Sheep Production and Marketing Program, and the Specialty Crop Block Grant and Specialty Crop Promotion Programs. AMS encourages all stakeholders familiar with these grant programs, including the general public, to provide input.

The survey will take roughly 30 minutes to complete. You can save and continue the survey by clicking the link on the top of each page. You can also move between sections of the survey by using the navigation menu on each page.

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0581-0269. The time required to complete this information collection is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

1. Describe the stakeholder category that best describes your perspective related to AMS grant programs. Please check all that apply. *

Specialty Crop Block Grant Program /Specialty Crop Multi-State Program Outcome 1 Feedback

Page entry logic:

This page will show when: #2 Question "I would like to provide feedback regarding the following program(s) performance indicators. Check all that apply." is one of the following answers ("Specialty Crop Block Grant or Specialty Crop Multi-State Program")

These questions are about Outcome 1 of the Specialty Crop Block Grant and Specialty Crop Multi-State Programs (SCBGP/SCMP). SCBGP/SCMP grantees report indicator information to USDA every year on the indicators listed below. Please review Outcome 1 and the indicators before answering the questions on this page.

Outcome 1: To enhance the competitiveness of specialty crops through increased sales.

Indicator: Sales increased from \$___ to \$___ and by percent, as result of marketing and/or promotion activities

Specialty Crop Block Grant Program /Specialty Crop Multi-State Program Outcome 2 Feedback

Page entry logic:

This page will show when: #2 Question "I would like to provide feedback regarding the following program(s) performance indicators. Check all that apply." is one of the following answers ("Specialty Crop Block Grant or Specialty Crop Multi-State Program")

These questions are about Outcome 2 of the SCBGP/SCMP. SCBGP/SCMP grantees report indicator information to USDA every year on the indicators listed below. Please review Outcome 2 and the indicators before answering the questions on this page.

Outcome 2: Enhance the competitiveness of specialty crops through increased consumption.

Indicators:

1. Of the total number of children and youth reached,
 - a. The number that gained knowledge about eating more specialty crops
 - b. The number that reported an intention to eat more specialty crops
 - c. The number that reported eating more specialty crops

2. Of the total number of adults reached,
 - a. The number that gained knowledge about eating more specialty crops
 - b. The number that reported an intention to eat more specialty crops
 - c. The number that reported eating more specialty crops

3. Number of new and improved technologies and processes to enhance the nutritional value and consumer acceptance of specialty crops (excluding patents)

4. Number of new specialty crops and/or specialty crop products introduced to consumers

Page entry logic:

This page will show when: #2 Question "I would like to provide feedback regarding the following program(s) performance indicators. Check all that apply." is one of the following answers ("Specialty Crop Block Grant or Specialty Crop Multi-State Program")

These questions are about Outcome 3 of the SCBGP/SCMP. SCBGP/SCMP grantees report indicator information to USDA every year on the indicators listed below. Please review Outcome 3 and the indicators before answering the questions on this page.

Outcome 3: Enhance the competitiveness of specialty crops through increased access and awareness.

Indicators:

1. Of the total number of consumers or wholesale buyers reached,
 - a. The number that gained knowledge on how to access/produce/prepare/preserve specialty crops
 - b. The number that reported an intention to access/produce/prepare/preserve specialty crops
 - c. The number that reported supplementing their diets with specialty crops that they produced/preserved/obtained/prepared

2. Of the total number of individuals (culinary professionals, institutional kitchens, specialty crop entrepreneurs such as kitchen incubators/shared-use kitchens, etc.) reached,
 - a. The number that gained knowledge on how to access/produce/prepare/preserve specialty crops
 - b. The number that reported an intention to access/produce/prepare/preserve specialty crops
 - c. The number that reported supplementing their diets with specialty crops that they produced/prepared/preserved/obtained

3. Number of existing delivery systems/access points* of those reached that expanded and/or improved offerings of specialty crops

4. Number of new delivery systems/access points* offering specialty crops

*Delivery systems/access points are listed below.

- a. farmers markets
- b. produce at corner stores
- c. school food programs and other food options (vending machines, school events, etc.)
- d. grocery stores
- e. wholesale markets
- f. food hubs that process, aggregate, distribute, or store specialty crops
- g. home improvement centers with lawn and garden centers
- h. lawn and garden centers
- i. other systems/access points, not noted
- j. total (if not reported above)

Page entry logic:

This page will show when: #2 Question "I would like to provide feedback regarding the following program(s) performance indicators. Check all that apply." is one of the following answers ("Specialty Crop Block Grant or Specialty Crop Multi-State Program")

These questions are about Outcome 4 of the SCBGP/SCMP. SCBGP/SCMP grantees report indicator information to USDA every year on the indicators listed below. Please review Outcome 4 and the indicators before answering the questions on this page.

Outcome 4: Enhance the competitiveness of specialty crops through greater capacity of sustainable practices of specialty crop production resulting in increased yield, reduced inputs, increased efficiency, increased economic return, and/or conservation of resources.

Indicators:

1. Numbers of plant/seed releases (i.e., cultivars, drought-tolerant plants, organic, enhanced nutritional composition, etc.)
2. Adoption of best practices and technologies resulting in increased yields, reduced inputs, increased efficiency, increased economic return, and conservation of resources (select at least one below)
 - a. Number of growers/producers indicating adoption of recommended practices
 - b. Number of growers/producers reporting reduction in pesticides, fertilizer, water used/acre
 - c. Number of producers reporting increased dollar returns per acre or reduced costs per acre
 - d. Number of acres in conservation tillage or acres in other best management practices
3. Number of habitat acres established and maintained for the mutual benefit of pollinators and specialty crops

Outcome 5: Enhance the competitiveness of specialty crops through more sustainable, diverse, and resilient specialty crop systems

Indicators:

1. Number of new or improved innovation models (biological, economic, business, management, etc.), technologies, networks, products, processes, etc. developed for specialty crop entities including producers, processors, distributors, etc.
2. Number of innovations adopted
3. Number of specialty crop growers/producers (and other members of the specialty crop supply chain) that have increased revenue expressed in dollars
4. Number of new diagnostic systems analyzing specialty crop pests and diseases.
[Diagnostic systems refer to, among other things: labs, networks, procedures, access points.]
5. Number of new diagnostic technologies available for detecting plant pests and diseases.
[Grantees count technologies that add to diagnostic capacity, not individual pieces of equipment or devices]
6. Number of first responders trained in early detection and rapid response to combat plant pests and diseases
7. Number of viable technologies/processes developed or modified that will increase specialty crop distribution and/or production
8. Number of growers/producers that gained knowledge about science-based tools through outreach and education programs

Outcome 6: Enhance the competitiveness of specialty crops through increasing the number of viable technologies to improve food safety.

Indicators:

1. Number of viable technologies developed or modified for the detection and characterization of specialty crop supply contamination from foodborne threats
2. Number of viable prevention, control and intervention strategies for all specialty crop production scales for foodborne threats along the production continuum
3. Number of individuals who learn about prevention, detection, control, and intervention food safety practices and number of those individuals who increase their food safety skills and knowledge
4. Number of improved prevention, detection, control, and intervention technologies

Outcome 7: Enhance the competitiveness of specialty crops through increased understanding of threats to food safety from microbial and chemical sources.

Indicators:

Number of projects focused on:

1. Increased understanding of fecal indicators and pathogens
2. Increased safety of all inputs into the specialty crop chain
3. Increased understanding of the roles of humans, plants and animals as vectors
4. Increased understanding of preharvest and postharvest process impacts on microbial and chemical threats

Outcome 8: Enhance the competitiveness of specialty crops through enhancing or improving the economy as a result of specialty crop development

Indicators:

1. Number of new rural careers created
2. Number of new urban careers created
3. Number of jobs maintained/created
4. Number of small businesses maintained/created
5. Increased revenue/increase savings/one-time capital purchases (in dollars)
