

NOTE TO REVIEWER: As noted in the supporting statement, each State agency will be asked for school-level administrative data first. If they do not have the data available at this level, they will be asked for SFA-level data. They will not be asked to provide data at both levels, but both are provided here for reference.

Exhibit B: Request for School-Level FNS-10 Data

We are asking each State to provide school- or site-level administrative records data based on the data your State submitted for the FNS-10, Report of School Program Operations, for Federal fiscal year (FY) 2024 (October 2023 through September 2024). Fulfilling this data request will help FNS gain a deeper understanding of Child Nutrition Program operations in FY 2024. The information you provide is particularly important during this time when FNS is assessing program operations as schools and SFAs return to normal operations after COVID-19.

Data request

Please provide the FNS-10 Report of School Program Operations data at the school or site level for FY 2024. Table 1 shows all the data elements we are requesting for each school or site. These include (1) Part A data from 90-day reports of actual counts for each operating month in FY 2024, and (2) Part B data for October 2023.

Please provide the data in whatever format is easiest for you. For example, you could provide separate files for each month or a single Excel file with separate tabs for each month.

In addition to the FNS-10 data, for each school or site please provide:

- School or site name
- School or site ID number
- School or site city
- School or site zip code
- Grade range
- Indicator of whether the school is a charter school
- Indicator of whether the school is a public school, private school, or residential child care institution (RCCI)
- Indicator of whether the school or site operated NSLP/SBP or SSO in each month
- Indicator of whether the SSO site operated as an open or closed site
- School Food Authority (SFA) name
- SFA ID number

The Food and Nutrition Service (FNS) is collecting this information to understand Child Nutrition Program operations in FY 2024 and will use the information to inform planning, policy, and guidance related to the Child Nutrition Programs. Because the personally identifiable information (PII) requested under this collection will not be used to retrieve survey records or data, requirements of the Privacy Act of 1974 do not apply. Responses will be kept private to the extent provided by law and FNS regulations. According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0584-0607. The time required to complete this information collection is estimated to average 6.0 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: U.S. Department of Agriculture, Food and Nutrition Service, Office of Policy Support, 1320 Braddock Place, 5th Floor, Alexandria, VA 22314, ATTN: PRA (0584-0607). Do not return the completed form to this address.

Data delivery timeline

Please provide the data file for FY 2024 by April 1, 2025

Data delivery and storage

Most data files requested for this study, including any files requested in the web survey, can be submitted via email. However, if the data files contain sensitive information (for example, the names of individuals) or if an extra level of security is preferred, secure options for transmitting the files include password-protecting the files, sending the files through a secure transfer platform used by the State agency, or uploading them to Mathematica's secure transfer site hosted by Box. We can accept data in any standard format. We will store the data in a secure project directory where only those working with the data will have access.

Exhibit B: Request for SFA-Level FNS-10 Data

We are asking each State to provide administrative records data based on the data your State submitted for the FNS-10, Report of School Program Operations, for Federal fiscal year (FY) 2024 (October 2023 through September 2024). Fulfilling this data request will help FNS gain a deeper understanding of Child Nutrition Program operations in FY 2024. The information you provide is particularly important during this time when FNS is assessing program operations as schools and SFAs return to normal operations after COVID-19. We are asking States that are unable to provide school- or site-level data to provide School Food Authority (SFA)-level data.

Data request

Please provide the FNS-10 Report of School Program Operations data at the SFA level for FY 2024. Table 1 at the end of this document shows all the data elements we are requesting for each SFA. These include (1) Part A data from 90-day reports of actual counts for each operating month in FY 2024, and (2) Part B data for October 2023.

Please provide the data in whatever format is easiest for you. For example, you could provide separate files for each month or a single Excel file with separate tabs for each month.

In addition to the FNS-10 data, for each SFA please provide:

- Name
- ID number
- City
- Zip code
- Count of sites operating NSLP/SBP and count of sites operating SSO each month
- Count of SSO sites operating as open sites and count of SSO sites operating as closed sites each month
- If available, a list of the schools in which each SFA operates and (1) the grade range for each school and (2) designation as public, private, charter, or residential child care institution (RCCI).
