SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for an extension of a currently approved information collection. The Federal regulations at 50 CFR 665 authorize the Regional Administrator of the National Marine Fisheries Service (NMFS), Pacific Island Region to provide eligible western Pacific communities with access to fisheries that they have traditionally depended upon, but may not have the capabilities to support continued and substantial participation, possibly due to economic, regulatory, or other

barriers. To be eligible to participate in the western Pacific community development program, a community must meet the criteria set forth in 50 CFR 665.20, and submit a community development plan that describes the purposes and goals of the plan, the justification for proposed fishing activities, and the degree of involvement by the indigenous community members, including contact information.

This collection of information provides NMFS and the Western Pacific Fishery Management Council (Council) with data to determine whether a community that submits a community development plan meets the regulatory requirements for participation in the program, and whether the activities proposed under the plan are consistent with the intent of the program, the Magnuson-Stevens Fishery Conservation and Management Act, and other applicable laws. The information is also important for evaluating potential impacts of the proposed community development plan activities on fish stocks, endangered species, marine mammals, and other components of the affected environment for the purposes of compliance with the National Environmental Policy Act, the Endangered Species Act and other applicable laws.

II. Method of Collection

The collection of information of a community development plan involves no forms and respondents have a choice of submitting information by electronic transmission or by mail. Instructions on how to submit a community development plan can be found on the Council's website at <http://www.wpcouncil.org/western-pacific-community-development-program/>.

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this information collection request (ICR).
